ITEM 2. Dissenters' Right of Appraisal

The stockholders' right of appraisal is given under the instances provided in Section 81, Title X, Appraisal Right, Revised Corporation Code of the Philippines.

In the forthcoming Annual Stockholders' Meeting, approval of the stockholders will be sought for the proposed amendment of Article SEVENTH of the latest Articles of Incorporation of **Arthaland Corporation** ("Arthaland") for purposes of decreasing its Authorized Capital Stock by ₱20,000,000.00 with cancellation of the 20,000,000 Preferred Shares Series B presently recorded as treasury shares.

Under the Revised Corporation Code, this would entitle dissenting stockholders to exercise their appraisal right.

For the valid exercise of one's appraisal right, Arthaland adopts the procedure laid down in the Revised Corporation Code, as follows:

1. The dissenting stockholder must have voted against the proposed corporate action. In this case, the proposal entails the amendment of Article SEVENTH of Arthaland's Articles of Incorporation insofar as its authorized capital stock is concerned.

2. The dissenting stockholder must make a written demand for the payment of the fair value of shares within thirty (30) days from the date the vote was taken. Failure to make the demand within the prescribed period shall be deemed a waiver of the appraisal right.

From the time of demand, all rights accruing to the shares, including voting and dividend rights, shall be suspended in accordance with the provisions of the Revised Corporation Code, except the right of the stockholder to receive payment of the fair value of his/its shares. The dividend, voting and other rights of the dissenting stockholder shall be restored if Arthaland fails to pay the fair value within thirty (30) days after the award.

3. The price of the shares will be determined based on the fair value of the shares as of the day before the vote was taken, excluding any appreciation or depreciation in anticipation of such corporate action.
4. The withdrawing stockholder must submit (through the Office of the Corporate Secretary¹) the stock certificate/s representing his/its Arthaland shares for notation of being a dissenting stockholder, within ten (10) days from making the written demand. Failure to do so shall, at Arthaland's option, terminate the stockholder's appraisal right.
5. Arthaland shall pay the withdrawing stockholder for his/its shares, *provided* that, Arthaland has unrestricted retained earnings in its books to cover such payment.

The right of payment shall cease under the following instances:

- a. If the dissenting stockholder withdraws his/its demand for payment, subject to Arthaland's consent;
- b. If Arthaland abandons the proposed action;
- c. If the Securities and Exchange Commission (SEC) disapproves the proposed action; and,
- d. Where the SEC determines that such stockholder is not entitled to the appraisal right.

Upon payment by Arthaland, the stockholder's shares must then be transferred to Arthaland.

ITEM 3. Interest of Certain Persons in or Opposition to Matters to be acted upon

While certain persons may have interest in the matters to be acted upon in the annual meeting, Arthaland has not received as of the date of this Information Statement any written information from any Director, nominee or stockholder with respect to any intention to oppose any action to be taken up at the meeting. Further, there is no matter to be acted upon in the meeting in which any Director or Executive Officer of Arthaland is involved, or had a direct, indirect or substantial interest.

Term of Office

The Board of Directors is composed of nine (9) members who are generally elected at an annual stockholders meeting, and their term of office shall be one (1) year and until their successors shall have been elected at the next annual stockholders meeting and have qualified in accordance with the By-laws of Arthaland.

b. **Procedure for the Nomination and Election of Independent Directors**

Section 2, Article III of Arthaland's By-laws provides for the Procedure for the Nomination & Election of Independent Directors, as follows:

“The Board of Directors shall be composed of nine (9) members, at least two (2) of whom shall be independent directors. The directors shall be elected at the annual stockholders' meeting and their term of office shall be one (1) year and until their successors shall have been elected at the next annual

stockholders' meeting and have qualified in accordance with these By-laws and under pertinent laws and regulations of the Philippines.

“To be eligible for nomination or election to the Board of Directors, the candidate must possess all the qualifications and none of the disqualifications enumerated in these By-laws and the Rules of the Corporation's Nomination Committee, and must abide by the nomination process as stated therein.

“An independent director is a director who, apart from his fees and shareholdings, is independent of management and free from any business or other relationship which could, or could reasonably be perceived to, materially interfere with his exercise of independent judgment in carrying out his responsibilities as a director, and includes, among other persons, one who:

- a. is not or has not been an officer or employee of the Corporation, its subsidiaries or affiliates or related interests during the past three (3) years counted from the date of his election (other than as an independent director of any of the foregoing);
- b. is not a director or officer of the related companies of the Corporation's majority stockholders (other than as an independent director thereof);
- c. is not a majority stockholder of the Corporation, any of its related companies, or of its majority stockholders;
- d. is not a relative within the fourth degree of consanguinity or affinity, legitimate or common-law, of any director, officer or majority stockholder of the Corporation or any of its related companies;
- e. is not acting as nominee or representative of any director or substantial stockholder of the Corporation, any of its related companies or any of its substantial stockholders;
- f. is not retained, or within the last two (2) years has not been retained, as a professional adviser, consultant, agent or counsel of the Corporation, any of its related companies or any of its substantial stockholders, either in his personal capacity or through his firm, or has not engaged and does not engage in any transaction with the Corporation or with any of its related companies or with any of its substantial stockholders, whether by himself or with other persons, or through a firm of which he is a partner or a company of which he is a director or substantial stockholder, other than transactions which are conducted at arms-length and could not materially interfere with or influence the exercise of his judgment;
- g. is not affiliated with or employed by or within the last three (3) years, has not been affiliated with or employed by the Corporation's present or former external auditors or affiliates; and,
- h. complies with all the qualifications required of an independent director and does not possess any of the disqualifications, and has not withheld nor suppressed any information material to his qualification or disqualification as an independent director.

“When used in relation to the Corporation, “related company” means another company which is (i) its holding company; (ii) its subsidiary; or (iii) a subsidiary of its holding company; and “substantial stockholder” means any person who is directly or indirectly the beneficial owner of more than ten percent (10%) of any class of its equity security.

“No person shall qualify or be eligible for nomination or election to the Board of Directors (i) if he is engaged in any business that competes with or is antagonistic to that of the Corporation or its subsidiaries, taking into consideration such factors as business and family relationships, provided that the Nomination Committee shall have sole discretion to determine whether such competition or antagonism exists; or (ii) if he is employed by any government agency or a government owned or controlled corporation; or (iii) if he has or had, by himself or on behalf of an entity he represents, instituted any action or has a pending suit against any of the Corporation’s directors or any stockholder who owns at least 10% of the total outstanding shares of the Corporation. Further, no person shall qualify or be eligible for election to the Board of Directors if his nomination is disapproved by at least fifty-one percent (51%) vote of the Board of Directors.

“In addition, no person shall qualify or be eligible for nomination or election to the Board of Directors if he is suffering from any of the following grounds for permanent disqualification:

- a. Conviction by final judgment or order of a competent judicial or administrative body of any crime that (i) involves moral turpitude or similar fraudulent acts or transgressions such as fraud, embezzlement, theft, *estafa*, counterfeiting, misappropriation, forgery, bribery, false affirmation, or perjury; (ii) involves the purchase or sale of securities, as defined in the Securities Regulation Code; (iii) arises out of the person's conduct as an underwriter, broker, dealer, investment adviser, principal, distributor, mutual fund dealer, futures commission merchant, commodity trading advisor, or floor broker; or (iv) arises out of his fiduciary relationship with a bank, quasi-bank, trust company, investment house or as an affiliated person of any of them. For purposes of this Section, “similar fraudulent acts or transgressions” shall be defined as anything calculated to deceive, including all acts, omissions and concealment involving a breach of legal or equitable duty, trust or confidence justly reposed, resulting in damage to another, or by which an undue advantage is taken of another;
- b. Any person who, by reason of misconduct, after hearing, is permanently enjoined by a final judgment or order of the Securities and Exchange Commission (Commission), or any court of competent jurisdiction, or any administrative body which the Corporation is subject of, from: (i) acting as underwriter, broker, dealer, investment adviser, principal distributor, mutual fund dealer, futures commission merchant, commodity trading advisor, or floor broker; (ii) acting as director or officer of a bank, quasi-bank, trust company, investment house, investment company, or any corporation; (iii) engaging in or continuing any conduct or practice in any of the capacities mentioned in subparagraphs (i) and (ii) above, or willfully violating the laws governing securities and banking activities;

The disqualification shall also apply if such person is currently the subject of an order of the Commission, or any court, or any administrative body which the Corporation is subject of, denying, revoking or suspending any registration, license or permit issued to him under the Revised Corporation Code, Securities Regulation Code, or any other law administered by the Commission or *Bangko Sentral ng Pilipinas* (BSP), or under any rule or regulation issued by the Commission or BSP, or has otherwise been restrained to engage in any activity involving securities and banking; or such person is currently the subject of an effective order of a self-regulatory organization suspending or expelling him from membership, participation or association with a member or participant of the organization;

- c. Convicted or adjudged by final judgment or order by a court or administrative body which the Corporation is subject of, of an offense punishable by imprisonment for a period exceeding six (6) years, or to have willfully violated, or willfully aided, abetted, counseled, induced or procured the violation of any provision of the Revised Corporation Code, Securities Regulation Code or any other law administered by the Commission or the BSP, committed within five (5) years prior to the date of election as director;
- d. Any person earlier elected as an independent director who becomes an officer, employee or consultant of the Corporation;
- e. Judicial declaration of bankruptcy or insolvency; and,
- f. Final judgment or order of a foreign court or equivalent regulatory authority of acts, violations or misconduct similar to any of the acts, violations or misconduct enumerated in sub-paragraphs (a) to (e) above.

“The following reasons shall also be considered by the Nomination Committee in evaluating the qualifications of all persons nominated to the Board and such other appointments which require Board approval:

- a. Refusal to fully disclose the extent of his business interests as required under the Securities Regulation Code and its Implementing Rules and Regulations;
- b. Absence or non-participation for whatever reason/s in more than fifty percent (50%) of all regular and special meetings of the Board during his incumbency, or any twelve (12) month period during the said incumbency, unless the absence is due to illness, death in the immediate family or serious accident;
- c. Dismissal/termination for cause as director of any publicly-listed company, public company, registered issuer of securities and holder of a secondary license from the Commission;
- d. Being under preventive suspension by the Corporation; and
- e. If the beneficial equity ownership of an independent director in the

Corporation or its subsidiaries and affiliates exceed two percent (2%) of its subscribed capital stock.

“For the proper implementation of the provisions of this Section, all nominations for the election of directors by the stockholders shall be submitted in writing to the Nomination Committee through the Secretary at the Corporation’s principal place of business at least sixty (60) business days before the date of the stockholders’ meeting called for the purpose of electing directors, or at such earlier or later date that the Board of Directors may fix.

“The decision of the Nomination Committee is final for purposes of the election.”

- 0 -

In accordance with the foregoing provision, and in order to enable any and all shareholders to participate in the nomination process, the deadline for the submission of nominees to the Board, including those for independent directors the qualifications of whom must meet those mentioned in the abovementioned section of Arthaland’s By-laws, was set on 22 April 2022.

Section 14, Article III of Arthaland’s By-laws further provides that the nomination of independent directors shall be conducted by the Nomination Committee⁷ prior to a stockholders meeting. All recommendations shall be signed by the nominating stockholders together with the acceptance and conformity by the would-be nominees.

The Nomination Committee shall pre-screen the qualifications and prepare a final list of all candidates and put in place screening policies and parameters to enable it to effectively review the qualifications of the nominees for independent directors.

After the nomination, the Nomination Committee shall prepare a Final List of Candidates which shall contain all the information about all the nominees for independent directors, which list shall be made available to all stockholders through the filing and distribution of this Information Statement in accordance with the Securities Regulation Code or in such other reports Arthaland is required to submit to the SEC. The name of the person or group of persons recommending the nomination of the independent director shall be identified in such report including any relationship with the nominee.

Only nominees whose names appear on the Final List of Candidates shall be eligible for election as independent director/s. No other nominations shall be entertained after the Final List of Candidates shall have been prepared. No further nominations shall be entertained or allowed on the floor during the actual stockholders meeting.

Except as those required under the Securities and Regulation Code and subject to pertinent existing laws, rules and regulations of the SEC, the conduct of the election of independent director/s shall be made in accordance with the standard election procedures under the By-laws of Arthaland.

The Chairman of the Annual Stockholders Meeting shall be responsible for informing all stockholders in attendance of the mandatory requirement of electing independent directors. He shall ensure that independent directors are elected during the said stockholders’ meeting and specific slot/s for independent directors shall not be filled up by unqualified nominees. In case of failure of election for independent directors, the Chairman of the meeting shall call a separate election during the same meeting to fill up the vacancy.

⁷ Renamed Governance and Nomination Committee and composed presently of Messrs. Ricardo Gabriel T. Po (Chairman), Hans B. Sicat and Andres B. Sta. Maria.

Below is the Final List of Candidates as directors and independent directors of Arthaland for the ensuing year:

A. Nominees for Regular Directors

1. Mr. Ernest K. Cuyegkeng
2. Mr. Jaime C. Gonzalez
3. Mr. Jaime Enrique Y. Gonzalez
4. Mr. Cornelio S. Mapa, Jr.
5. Mr. Christopher Paulus Nicolas T. Po
6. Mr. Ricardo Gabriel T. Po

B. Nominees for Independent Directors

7. Mr. Fernan Victor P. Lukban
8. Mr. Hans B. Sicat
9. Mr. Andres B. Sta. Maria

The above nominees are all incumbent directors of Arthaland and they are seeking re-election. Their respective qualifications and the positions they held and/or business experience for the past five (5) years are reflected in Item 5a of this Information Statement.

Messrs. Lukban, Sicat and Sta. Maria were nominated as independent directors by Messrs. Jaime C. Gonzalez and Christopher T. Po. None of them are in any way related to the party who nominated them or to any one of the shareholders of Arthaland owning more than five percent (5%) of its voting shares, except as otherwise indicated in Item 5a of this Information Statement. They possess all the qualifications and none of the disqualifications to become independent directors of Arthaland. Further, they are not officers or employees of Arthaland or any of its subsidiaries and are free from any business or other relationships with Arthaland or any of its subsidiaries which could, or could reasonably be perceived to, materially interfere with the exercise of their independent judgment in carrying out their responsibilities as independent directors. Copies of the Certification of Independent Directors of Messrs. Lukban, Sicat and Sta. Maria are attached to this Information Statement and incorporated herein by reference.

Arthaland complies with the term limits of its independent directors.

None of Arthaland's incumbent directors or its nominees for directors and independent directors for the ensuing year is connected with any government agency or its instrumentality.

He started his career in Information Technology as IT Helpdesk Supervisor at Zuellig Interpharma Holdings. Mr. Borromeo finished college at the Ateneo de Manila University with a degree in AB Interdisciplinary Studies.

d. Family Relationship

With the exception of brothers Ricardo Gabriel T. Po and Christopher Paulus Nicolas T. Po, and father and son Jaime C. González and Jaime Enrique Y. González, the abovementioned incumbent directors and executive officers of Arthaland are not related to each other, either by consanguinity or affinity.

e. Involvement in Certain Legal Proceedings

The above-named directors and corporate/executive officers of Arthaland have not been involved during the past five (5) years up to the date of this Report in any bankruptcy proceeding or any proceeding involving a violation of securities or commodities laws or regulations, nor have they been convicted in a criminal proceeding. Neither has there been any order or judgment enjoining, barring, suspending or limiting their involvement in any type of business, securities, commodities or banking activities.

The above notwithstanding, a director and an officer of Arthaland are currently parties to legal proceedings which neither involves Arthaland directly nor their acts as such director and officer. There is no final resolution on these proceedings at this time and Arthaland believes that their

⁸ Engr. Sabidong was appointed by the Board as such on 20 March 2019.

involvement in said proceedings is not material to an evaluation of the ability or integrity of such person to become a director or officer of Arthaland.

1. In 2013, the Philippine Deposit Insurance Corporation had filed one and the same complaint against Mr. Jaime C. González, among other former officers of then Export and Industry Bank, before (a) the Department of Justice (DOJ), and (b) the *Bangko Sentral ng Pilipinas* (BSP) for violation of Section 21 (f)(10) of Republic Act (R.A.) No. 3591, Section 21 (f)(4) of R.A. No. 3591, and Sections 55, 56 and 66 of R.A. No. 8791 in relation to Section 36 of R.A. No. 7653. PDIC alleged that the respondents committed acts which constituted doing business in an unsafe and unsound manner, essentially having concealed from PDIC the engagement as the bank's financial advisor of a company which Mr. González was an officer of, simultaneously with being an officer of the bank. All respondents to the complaint denied PDIC's accusation and submitted documentary evidence that there was in fact full disclosure to all concerned parties.

In 2014, the DOJ found no probable cause to hold Mr. González and his co-respondents liable for the charges of PDIC against them and dismissed the complaint. PDIC's Motion for Reconsideration was likewise denied. PDIC filed a Petition for Review before the Secretary of Justice but there is no decision on the matter to date.

In March 2016, PDIC filed a civil complaint for sum of money against Mr. González, among others, arising from the same set of allegations and circumstances stated in the above complaint PDIC filed with the DOJ, *i.e.* that Mr. González and his co-defendants committed fraud with the concealment of the engagement of the company which Mr. González was an officer of, as the bank's financial advisor, and demanded from the defendants the return of the payment made by the bank to a third party. The individual defendants denied PDIC's assertions and presented evidence that there was full disclosure of the questioned transaction given that a PDIC officer was a member of the bank's board at the time.

On 12 November 2021, the trial court denied the plaintiff's application for preliminary attachment without prejudice to further evidence that may be presented in the trial proper to prove the alleged fraud. Trial is ongoing.

Insofar as the administrative case before the BSP, in a Resolution dated 13 June 2019, the Monetary Board approved the Report prepared by the Office of the General Counsel and Legal Services finding Mr. González, among others, administratively liable for violation of banking laws and imposing upon him a fine of ₱20,000.00. Mr. González filed a Motion for Reconsideration on 09 July 2019 and paid the fine under protest, *i.e.*, without abandoning his Motion for Reconsideration or waiving his legal right to question the Monetary Board Resolution before the proper courts and eventually claim reimbursement for the payment of the fine should said Resolution be set aside. BSP denied the Motion on 07 February 2020, hence, Mr. González filed a Petition for Review before the Court of Appeals which is pending resolution to date.

2. In 2015, PDIC filed one and the same complaint against Mr. González, Ms. Angela de Villa Lacson, Arthaland's former President and CEO, Mr. Froilan Q. Tejada, Arthaland's former Chief Finance Officer, and Ms. Riva Khristine V. Maala, Assistant Corporate Secretary of Arthaland at the time, among other former officers of then Export and Industry Bank, (a) before the DOJ for violation of Article 315 of the Revised Penal Code in relation to Presidential Decree No. 1689 and of Section 21(f)(10) of R.A. No. 3591, as amended, and (b) before the BSP for violation of Section 37 of R.A. No. 7653. PDIC alleged that the respondents conspired and fraudulently caused the bank to make advances in favor of Arthaland for the alleged purchase by Arthaland of one of the bank's non-performing assets in the sum of ₱13 million. All respondents denied PDIC's charges against them in their respective counter-affidavits.

In March 2017, the DOJ charged Mr. González and Ms. Maala, among other respondents in this case, for violation of Sec. 21(f)(10) of R.A. No. 3591, as amended, while the charges for the violation of Article 315 of the Revised Penal Code in relation to Presidential Decree No. 1689 were dismissed. Mr. González and Ms. Maala filed their respective Motions for Partial Reconsideration in December 2018, and in February 2019, the DOJ dismissed altogether the criminal complaint against the respondents for violation of Sec. 21(f)(10) of R.A. No. 3591, as amended. PDIC filed a Petition for Review of the said dismissal before the Office of the DOJ Secretary on 14 May 2019 and there is no decision on the matter to date.

On the other hand, in May 2017, the BSP issued a Decision formally charging Mr. González, Ms. Maala and the other respondents for committing irregularities under Section 37 of R.A. No. 7653, and committing unsafe or unsound banking practices under Section 56 of R.A. No. 8791 in relation to Section 37 of R.A. No. 7653. Presently, the case is with the Office of the General Counsel and Legal Services of the BSP and is pending resolution.

ITEM 6. Compensation of Directors and Executive Officers

a. Compensation of Directors and Executive Officers

b. Standard Arrangement/Material Terms of Any Other Arrangement/Terms and Conditions of Employment Contract with Above Named Corporate/Executive Officers

During Arthaland's annual meeting held on 16 October 2009, the stockholders representing more than sixty-seven percent (67%) of all its issued and outstanding common shares which are entitled and qualified to vote approved the 2009 ALCO Stock Option Plan. The total amount of shares which are available and may be issued for this purpose will amount to 10% of Arthaland's total outstanding capital stock at any given time. At present, this is equivalent to 531,809,519 shares. The Stock Option and Compensation Committee consisting of at least three (3) directors, one (1) of whom is an independent director, will administer the implementation of this plan.

Qualified employees eligible to participate under the plan are (i) members of the Board, with the exception of the independent directors; (ii) President and CEO and other corporate officers, which include the Corporate Secretary and the Assistant Corporate Secretary; (iii) Employees and Consultants who are exercising managerial level functions or are members of the Management Committee; and (iv) Executive officers assigned to Arthaland's subsidiaries or affiliates¹⁹.

¹⁴ Rounded-off.

¹⁵ Includes all employees with the rank of Vice President and higher.

¹⁶ Includes all employees with the rank of Manager up to Senior Assistant Vice President.

¹⁷ Rounded-off.

¹⁸ Whether bonuses will be given in 2022 is uncertain at this time.

¹⁹ Arthaland must have at least 50% equity holdings of said subsidiary or affiliate.

The Stock Option and Compensation Committee is empowered to determine to whom Options are to be granted, determine the price the Option is to be exercised (which in no case shall be below the par value of Arthaland's common stock), decide when such Option shall be granted and its effectivity dates, and determine the number and class of shares to be allocated to each qualified employee. The Committee will also consider at all times the performance evaluation of the qualified employee and/or the result of the achievement of the objectives of Arthaland each year.

The Option Period during which the qualified employee may exercise the option to purchase such number of shares granted will be three (3) years starting with the full year vesting in accordance with the following schedule:

- (i) Within the first twelve (12) months from Grant Date - up to 33.33%
- (ii) Within the 13th to the 24th month from Grant Date - up to 33.33%
- (iii) Within the 25th to 36th month from Grant Date - up to 33.33%.

On the Exercise Date, the qualified employee should pay the full Purchase Price or in such terms as may be decided upon by the Committee.

In 2010, options equivalent to 164,800,000 were granted but none of the qualified employees exercised their respective rights until the period within which they can do so expired in October 2012.

On 14 December 2018, Arthaland's Board of Directors approved granting options equivalent to not more than 90.0 million common shares to its qualified employees as above defined. The Stock Option and Compensation Committee was tasked to administer the implementation of this grant, which will include to whom and when the Options are to be granted and the effectivity dates thereof, and the number and class of shares to be allocated to each qualified employee, after considering the performance evaluation of said qualified employees vis-a-vis the result of the achievement of the company's objectives for 2018.

The Stock Option and Compensation Committee pegged the price the option is to be exercised at the five-day volume weighted average price per share beginning 17 December 2018, or until 21 December 2018. Said price was at ₱0.85 per share.

On 25 March 2020, the price of the options granted as abovementioned was changed to ₱0.50 per share.

None of the qualified employees exercised their respective rights until the period within which they can do so expired in February 2022.

The term of the 2009 ALCO Stock Option Plan expired in October 2019. The 2020 ALCO Stock Option Plan which has substantially the same terms as the 2009 plan was presented during the Annual Stockholders' Meeting on 26 June 2020 and stockholders representing at least sixty-seven percent (67%) of the outstanding common shares which are entitled and qualified to vote approved the same. SEC approval of the 2020 ALCO Stock Option is presently being secured.

ITEM 7. Independent Public Accountant

Article V of the By-laws provides, among others, that the External Auditor shall be appointed by its Board of Directors and shall receive such compensation or fee as may be determined by the Chairman or such other officer(s) as the Board of Directors may authorize.

Reyes Tacandong & Co. (RT&Co) was first appointed as the external auditor of Arthaland in 2012 and remains such to date. Ms. Carolina P. Angeles was the Certifying Partner for the years 2012-2016. Ms. Michelle R. Mendoza-Cruz is the current Certifying Partner.

Arthaland has not had any disagreement with its external auditor.

Zileya Land Development Corporation	₱160,000.00	₱160,000.00	₱160,000.00

RT&Co did not charge Arthaland for non-audit work for the years 2013, 2014, 2015, 2017 and 2018.

RT&Co charged Arthaland for non-audit work for the public offering of the following Preferred Shares:

<u>Year</u>	<u>Purpose</u>	<u>Amount</u>
2016	Series B	₱1.50MM
2019	Series C	₱1.00MM
2021	Series D	₱0.90MM

In October 2019, Arthaland filed with the SEC a Registration Statement for the shelf registration of ₱6.0 billion fixed rate ASEAN Green Bonds which was approved in January 2020. The initial tranche of these bonds equivalent to ₱3.0 billion was listed with the Philippine Dealing and Exchange Corp. on 06 February 2020. RT&Co charged Arthaland for non-audit work on these bonds in the amount of ₱0.60MM.

The foregoing fees are all exclusive of VAT.

ITEM 8. Compensation Plans

As stated in Item 6b above, Arthaland made available to its qualified employees in 2009 a stock option plan wherein they can enjoy the benefits of ownership of Arthaland and thereby increase their concern for its long-term progress and well-being, induce their continued service and stimulate their efforts towards the continued success thereof (the “2009 Stock Option Plan”). However, none of these qualified employees exercised their respective stock option rights until the period within which they can do so had expired in October 2012.

On 14 December 2018, the Board of Directors again approved granting options equivalent to not more than 90.0 million common shares to its qualified employees. However, none of the qualified employees exercised their respective rights until the period within which they can do so expired in February 2022.

The validity of the 2009 Stock Option Plan expired on 16 October 2019.

The 2020 Stock Option Plan which has substantially the same terms as the 2009 plan was presented during the Annual Stockholders’ Meeting on 26 June 2020 and stockholders representing at least sixty-seven percent (67%) of the outstanding common shares which are entitled and qualified to vote approved the same. The total amount of shares of stock which may be issued and are reserved for purposes of the 2020 plan is still ten percent (10%) of the total outstanding capital stock of Arthaland at any given point in time.

SEC Approval of the 2020 Stock Option is presently being secured.

C. ISSUANCE AND EXCHANGE OF SECURITIES

No action will be taken during the Annual Stockholders’ Meeting with respect to the Authorization or Issuance of Securities Other than for Exchange (**Item 9**); Modification or Exchange of Securities (**Item 10**); Financial and Other Information (**Item 11**); Mergers, Consolidations, Acquisitions and Similar

ITEM 18. Other Proposed Action

The appointment of RT&Co as External Auditor of Arthaland for 2022 will be taken up at the Annual Stockholders' Meeting.

ITEM 19. Voting Procedures – Voting for Corporate Actions

a. Voting for Corporate Actions

Voting on matters submitted for stockholders' approval during the Annual Stockholders Meeting shall be done in accordance with SEC Memorandum Circular No. 6, Series of 2021 dated 12 March 2021²¹ which provides the guidelines on voting through proxy, remote communication or *in absentia*, and shall be supervised by the designated staff of RT&Co and BDO Unibank, Inc.-Trust and Investments Division, the External Auditor and the Stock and Transfer Agent of Arthaland, respectively.

For the proposed amendment to the Articles of Incorporation and the decrease of authorized capital stock, the approval of Common and Preferred stockholders owning at least two-thirds (2/3) of the outstanding capital stock is required.

b. Nominations and Voting for the Election of Directors

- (1) Section 4, Article II of the By-laws provides that at "all stockholders' meetings, every stockholder shall be entitled to one (1) vote for each share of voting stock standing in his name in the proper books of the Corporation at the time of closing thereof for the purpose of the meeting."
- (2) No nominations from the floor during the stockholders' meeting shall be allowed or recognized.
- (3) For the purpose of electing directors, the system of cumulative voting shall be followed as provided under Section 4, Article II of the By-laws, to wit:

²¹ Guidelines on the Attendance and Participation of Directors, Trustees, Stockholders, Members, and Other Persons of Corporations in Regular and Special Meetings through Teleconferencing, Video Conferencing and Other Remote or Electronic Means of Communication

“At all stockholders’ meetings, every stockholder entitled to vote in accordance with Section 4 of Article VI of these By-laws shall be entitled to one (1) vote for each share of voting stock standing in his name in the proper book of the Corporation at the time of closing thereof for the purpose of the meeting.

“The right to vote of stockholders may be exercised in person, through proxy or remote communication, *in absentia*, or through such alternative modes as may be provided by applicable laws and regulations.

“At every election of directors, each stockholder entitled to vote during the meeting in accordance with Section 4 of Article VI of these By-laws is entitled to one (i) vote for each share of stock held by him for as many persons as there are directors to be elected, or to cumulate said shares and give one (1) candidate as many votes as the number of directors multiplied by the number of his share shall equal, or to distribute such votes on the same principle among as many candidates as he shall think fit.”

The total number of votes to be cast by the stockholder must not exceed the number of shares owned by him/it as shown in the books of Arthaland multiplied by the whole number of directors to be elected.

- (4) Voting for the election of Directors shall be done in accordance with SEC Memorandum Circular No. 6, Series of 2021 dated 12 March 2021 and such internal procedures issued pursuant thereto. This will be supervised by the designated staff of the External Auditor and the Stock Transfer Agent.

MANAGEMENT REPORT

**ARTHALAND CORPORATION
ANNUAL STOCKHOLDERS MEETING
24 JUNE 2022, FRIDAY, 9:00AM**

BUSINESS AND GENERAL INFORMATION

a. Business Development

ARTHALAND CORPORATION (ALCO) is a world-class boutique real estate developer of enduring and sustainable properties recognized internationally as the best residential and green developments, for which it has received various awards in the Philippines and internationally. It has built its mark in the Philippine real estate market with its unwavering commitment to sustainability and innovation, and by developing and managing world-class properties that adhere to the global and national standards in green buildings.

ALCO was incorporated on 10 August 1994¹ for the primary purpose of engaging in the realty development business, including home building and development, and to deal, engage, invest and transact, directly or indirectly, in all forms of business and mercantile acts and transactions concerning all kinds of real property, including but not limited to the acquisition, construction, utilization and disposition, sale, lease, exchange or any mode of transfer of residential, industrial or commercial property. Its principal office is at the 7/F Arthaland Century Pacific Tower, 5th Avenue corner 30th Street, Bonifacio Global City (BGC), Taguig City 1634.²

In 2007, a group of investors led by AO Capital Holdings 1, Inc. (AOCH1), an investment company specializing in investing in business opportunities in the Philippines, acquired 73.27% of ALCO's then outstanding capital stock, marking the beginning of its renewed focus in real estate development.

The year 2011 marked the entry into ALCO of CPG Holdings, Inc. (CPG), an affiliate of leading food manufacturer Century Pacific Food, Inc., which is listed with the PSE under the stock symbol "CNPF", through its acquisition of 1,800,000,000 ALCO common shares. In 2014, CPG further solidified its commitment by purchasing an additional 342,619,910 ALCO common shares.

On 22 September 2016, ALCO's authorized capital stock was increased³ to ₱2,996,257,135.82 divided into ₱2,946,257,135.82 of Common shares (consisting of 16,368,095,199 Common shares with a par value of ₱0.18 per share), and ₱50,000,000.00 of redeemable, non-voting and non-participating Preferred shares (consisting of 50,000,000 Preferred shares with a par value of ₱1.00 per share).

Of the ₱50,000,000.00 increase in capital stock, ALCO issued 12,500,000 cumulative, non-voting, non-participating, non-convertible Peso-denominated Preferred shares to Manchesterland Properties, Inc. (the "Series A Preferred Shares"), and 20,000,000 Preferred shares which are likewise cumulative, non-voting, non-participating, non-convertible and Peso-denominated, among other conditions, to the public (the "Series B Preferred Shares").

In June 2019, ALCO issued to the public 10,000,000 Preferred shares which are also cumulative, non-voting, non-participating, nonconvertible, and Peso-denominated, among other conditions (the "Series C Preferred Shares").

¹ The company was originally registered as Urbancorp Realty Developers, Inc. but was renamed in 2003 as EIB Realty Developers, Inc. On 26 January 2009, the Securities and Exchange Commission (SEC) approved anew the change of the corporate name to Arthaland Corporation (ALCO).

² Approved by the SEC on 04 September 2018.

³ The authorized capital stock was originally ₱2,946,257,135.82 divided into 16,368,095,199 Common shares only at a par value of ₱0.18 per share.

On 03 December 2021, ALCO issued to the public 6,000,000 Preferred shares, which are similarly cumulative, non-voting, non-participating, nonconvertible, and Peso-denominated, among other conditions (the “Series D Preferred Shares”).

On 06 December 2021, ALCO redeemed all the outstanding 20,000,000 Series B Preferred Shares.

All of ALCO’s issued and outstanding common shares, and Series C and Series D Preferred shares are listed with and traded in the Philippine Stock Exchange (PSE) with the trading symbols “ALCO”, “ALCPC”, and “ALCPD”, respectively. ALCO has requested the PSE to delist from its platform the Series B Preferred shares with trading symbol “ALCPB”.

As of the date of this Report, CPG and AOCH1 continue to be the largest stockholders of ALCO with 40.29% and 26.02%, respectively, of the total issued and outstanding shares.

b. Business/Projects

ALCO’s main business activity is the development of premium, enduring and sustainable properties by bringing together a brain trust of experts in property development and management. It is focused on pursuing its defined niche developments independently and with its joint venture partners, as embodied by its key projects and developments in the pipeline, to wit:

<u>Project Name</u>	<u>GFA⁴</u> <u>(in square</u> <u>meters</u> <u>[sqm])</u>	<u>NLA⁵/</u> <u>NSA⁶</u> <u>(in sqm)</u>	<u>Location</u>	<u>Development</u> <u>Type</u>	<u>Year of</u> <u>Completion</u> <u>or</u> <u>Expected</u> <u>Year of</u> <u>Completion</u>

ALCO's firm commitment to sustainability is manifested in its development portfolio which is composed entirely of certified sustainable projects. All its projects adhere to global and national standards for green buildings through the Leadership for Energy and Environmental Design™ (LEED™) rating system of the U.S. Green Building Council (USGBC) and the Building for Ecologically Responsive Design Excellence (BERDE) rating system of the Philippine Green Building Council (PHILGBC). Since 2019, ALCO has expanded its sustainability commitment by pursuing additional green building rating tools, specifically the Excellence in Design for Greater Efficiencies (EDGE) rating system of the International Finance Corporation (IFC), and the WELL Building Standard™ (WELL™) rating system of the International WELL Building Institute (IWBI).

ALCO is well known in the industry for its superior design, high quality standards with focus on sustainability, innovation and excellent property management services, as seen in the following projects:

Arya Residences (Arya)

Arya is a multi-awarded, two-tower, high-end residential project located at the corners of Rizal Drive, 8th Avenue and McKinley Parkway, BGC, Taguig City. Tower 1 commenced construction in 2010, was completed in 2013 and was handed over to buyers in 2014. Tower 2's construction commenced in 2012, and it was handed over to buyers in 2016. All the residential units in both Tower 1 and Tower 2 have been sold. At the ground floor of Arya is Arya Plaza, a canopied al fresco destination area in which a curated selection of restaurants, cafes and other retail establishments is located. ALCO retains ownership over the Arya Plaza and recognizes lease income from it.

Arya has the distinction of being the first and only residential building in the Philippines to have received LEED Gold certification from the USGBC as well as BERDE 4-Star certification from the PHILGBC. It was also awarded with ANZ/PH 3-Star under the pilot program Advancing Net Zero Philippines.

Arthaland Century Pacific Tower (ACPT)

Designed by Skidmore Owings & Merrill LLP, the same group behind One World Trade Center in New York City and Burj Khalifa in Dubai, ACPT is one of the first

premium grade offices in BGC. It is located along the prime 5th Avenue within BGC's E-Square, opposite The Shangrila at the Fort and proximate to the PSE. ACPT addresses the strong demand for office space in BGC with its 34,295 sqm of GFA and 32,016 sqm of NLA. ALCO commenced the development of ACPT in 2014 and it was completed in 2019.

In October 2019, the IFC, a member of the World Bank Group, recognized ACPT as the world's first net zero certified building under its EDGE green building rating system. This recognition is in addition to the LEED Platinum and BERDE 5-Star certifications it had achieved previously. In 2020, ACPT was awarded with the WELL Health-Safety Rating seal which certifies the building's safe operations even during the COVID-19 pandemic. It continues to hold such rating to date.

ALCO retains ownership over 21,089 sqm of ACPT which represents approximately 66% of the 32,016 sqm of its NLA.

Cebu Exchange

Cebu Exchange, a 38-storey office building with retail establishments, is poised to be one of Cebu's largest and tallest office developments that will cater to the city's booming office space market. It is being built on an 8,440 sqm property located along Salinas Drive directly across the Cebu IT Park in Cebu City, and it will have a total NSA of almost 90,000 sqm. Cebu Exchange has achieved LEED Gold pre-certification, BERDE Design 5-Star and is WELL pre-certified. It is on-track to achieve EDGE Zero Carbon certification under the IFC's EDGE program. Phase 1 of Cebu Exchange, covering areas from the basement to the 15th level, was successfully completed and handed over to buyers in September 2020 in accordance with its pre-pandemic delivery date. Phase 2, covering areas from the 16th level to the rooftop, achieved structural top-off in September 2020 as well. It is scheduled for completion and handover to buyers in Q2 2022.

Depending on market conditions, ALCO may choose to retain some units in Cebu Exchange to expand its recurring revenues from leasing operations. However, no final decision has been made in this regard.

Sevina Park

Presently being developed on eight (8) hectares of land adjacent to the De La Salle University Laguna campus is Sevina Park, a sustainable mixed-use community that will feature a combination of designer villas, residential midrise buildings, commercial lots as well as retail and supplemental amenities, in step with the growth of the market demand and infrastructure in the area. Sasaki of Boston is the master planner for this project.

Sevina Park is recognized as the first and only real estate development in the Philippines to have received the LEED Platinum certification under the LEED for Neighborhood Development (LEED ND) and LEED for Homes categories. Likewise, Sevina Park Villas turnover units are on-track to achieve EDGE Advanced under the EDGE green building certification system, while the remaining Villa 182 turnover unit is for Gold certification under the LEED for Homes category. Sevina Park's 4-Bedroom Villa 182 Model Unit initiated the Villa's certification process by achieving LEED Platinum certification in 2020.

The completion of the Cavite Laguna Expressway, with its expected interconnection with the Manila-Cavite Expressway at Kawit, Cavite and the South Luzon Expressway at Mamplasan, Laguna interchange, is seen to significantly benefit Sevina Park.

Phase one of the project covering the first 4,000 sqm has already been developed into Courtyard Hall which offers dormitory accommodations for students.

The Sevina Park Villas covering approximately 3 hectares of the 8.1- hectare property was launched in June 2019. The townhomes of the Sevina Park Villas are designed by L.V. Locsin and Partners and consist of 108 units ranging from 138 sqm to 182 sqm in floor area for each. Succeeding phases of this project will be launched during the second quarter of 2022.

Courtyard Hall is the student dormitory within Sevina Park in Biñan City, Laguna adjacent to the De La Salle University Science and Technology campus.

Savya Financial Center

In 2017, ALCO, together with its Filipino joint venture partner, acquired an approximately 6,000-sqm property within the Arca South development in Taguig City where ALCO expects office space to grow exponentially resulting from the property's direct access to major thoroughfares C-5 and Skyway, the presence of the proposed Taguig Integrated Transport Exchange inside Arca South, and the roll-out of the Metro Manila Subway which will have one of its stations inside Arca South itself. The property is currently being developed into Savya Financial Center (Savya), a two-tower commercial development designed and built with leading-edge sustainable building features. Savya has achieved LEED Gold pre-certification and is also WELL pre-certified. It is on-track to achieve BERDE 4-Star certification and EDGE Zero Carbon certification.

Savya's North Tower was launched for pre-selling in February 2019. Handover of the North Tower to buyers was initiated in January 2022 and completion is expected by Q2 2022. The South Tower is expected to be completed by Q4 2022.

Lucima

In August 2019, ALCO, through its special purpose company, Bhavana Properties, Inc., purchased a prime property with a total area of 2,245 sqm, located in Cebu Business Park at the corner of Cardinal Rosales Avenue and Samar Loop inside the Cebu Business Park which is the foremost business district of Cebu City. The property will be developed into the first and only premiere, multi-certified, sustainable residential high-rise development.

The Project is on-track to achieve quadruple certification including LEED, BERDE, EDGE and WELL certifications from USGBC, PGBC, IFC and IWBI, respectively. In fact, in 2020, Lucima has achieved LEED Gold precertification. Lucima will have a pedestrian access to the Ayala Center Cebu mall and other prominent business, commercial, and lifestyle destinations. It will have a gross floor area of approximately 28,000 sqm and it will offer 263 residential units.

Makati CBD Residential Project 2

In 2020, ALCO, through its special purpose company, Bhavya Properties, Inc., completed the acquisition of a 916 sqm property in Legazpi Village, Makati City. The property will be the site of ALCO's pioneer residential project in Makati City which will be a low-density, multi-certified, ultra-luxury development that will offer large, limited edition designer residences. Once completed, its future residents will enjoy exceptional white glove butler services. The project will offer only 37 residential units and will have a total gross floor area of approximately 14,600 sqm. ALCO expects to formally launch the project within H1 2022.

Makati CBD Residential Project 1

ALCO has acquired about 47.4% of a 2,018-sqm property located along Antonio Arnaiz Avenue within the Makati Central Business District and plans to develop therein a high-rise luxury, sustainable, multi-certified residential property. ALCO expects to launch the project by H1 of 2023.

Aside from the projects mentioned above, ALCO is evaluating prospective acquisition targets within the business districts of Makati, BGC, Cebu as well as other emerging cities. ALCO will continue to disclose to its stakeholders, through the PSE and the SEC, material acquisitions as they become final.

What makes ALCO different from other developers is that after a project is completed and/or turned over to the respective buyers or tenants thereof, ALCO continues to provide property management services to the condominium corporation or homeowners association. Post-completion involvement allows ALCO to maintain a high standard of quality in the maintenance of all its developments for years to come.

c. Subsidiaries

Below are the domestic companies in which ALCO has shareholdings. ALCO has 100% ownership interest in these companies as of 31 March 2022 with the exception of Bhavana Properties, Inc., Bhavya Properties, Inc., Kashtha Holdings, Inc., and Savya Land Development Corporation.

- i. **Bhavana Properties, Inc. (Bhavana)** was incorporated on 15 July 2019 with the primary purpose of engaging in the realty development business. This is the investment vehicle used to purchase a parcel of land with a total area of 2,245 square meters, more or less, located at the corner of Cardinal Rosales Avenue and Samar Loop Road, Cebu City, which will be the site of *Lucima*.

On 23 December 2021, ALCO sold, transferred and conveyed in favor of Narra Investment Properties Pte. Ltd. ("Narra")⁷, by way of secondary sale, all of its rights, title and interest in and to 40% of the common shares of stock of Bhavana, or 10,000,000 common shares of stock thereof, as well as its shareholder advances therein.

- ii. **Bhavya Properties, Inc. (Bhavya)** was incorporated on 19 July 2019 with the primary purpose of engaging in the realty development business. This is the investment vehicle used in acquiring a 916 sqm property⁸ located at 119 Rada Street, Legaspi Village, in Makati City, with the objective of developing therein Makati CBD Residential Project 2.

On 23 December 2021, ALCO sold, transferred and conveyed in favor of Narra Investment Properties Pte. Ltd. ("Narra")⁹, by way of secondary sale, all of its rights, title and interest in and to 40% of the common shares of stock of Bhavya, or 10,000,000 common shares of stock thereof, as well as its shareholder advances therein.

- iii. **Cazneau Inc.** was incorporated on 31 July 2008, principally to engage in the realty development business, including, but not limited to, the acquisition, construction, utilization and disposition, sale, lease, exchange or any mode of transfer, of residential, industrial or commercial property. Laguna in September 2016 where Sevina Park is currently being developed.

- iv. **Cebu Lavana Land Corp. (CLLC)** was incorporated on 11 September 2015 to principally engage in the realty development business. It is the vehicle used to acquire two parcels of adjacent land in Cebu City, Philippines, with a total area of 8,440 sqm, on which Cebu Exchange now stands.

Rock & Salt B.V.¹⁰, a foreign private limited liability company existing and duly constituted under the laws of The Netherlands, and managed by Arch Capital Management Company, Ltd., subscribed to 40% CLLC's shares of stock in January 2016.

On 23 December 2021, ALCO purchased and acquired by way of secondary sale all of the rights, title and interest of Rock and Salt B.V. in and to the said 40% of CLLC's issued and outstanding shares of stock and shareholder advances. ALCO now has 100% ownership interest over CLLC.

- v. **Emera Property Management, Inc.** was incorporated on 31 July 2008¹¹. It was originally established to engage in the realty development business but now serves as the property management arm of ALCO for Arya, ACPT, Sevina Park and all its succeeding development projects to ensure the maintenance of high-quality standards therein.
- vi. **Manchesterland Properties, Inc. (MPI)** was incorporated on 27 March 2008 and was the registered owner of the 6,357-sqm parcel of land located along McKinley Parkway on which Arya now stands, prior to the conveyance thereof to Arya Residences Condominium Corporation in December 2016. It still owns Arya Plaza and several parking slots in said development.
- vii. **Pradhana Land, Inc.** was incorporated on 09 September 2019 with the primary purpose of engaging in the realty development business. This is the investment vehicle that will be used for ALCO's succeeding projects, the details of which will be disclosed at the appropriate time.
- viii. **Savya Land Development Corporation (SLDC)** was incorporated on 10 February 2017 principally to engage in the realty development business. It is the vehicle ALCO used to acquire Lots 9 and 10 in Arca South located in Barangay West Bicutan, Taguig City. In August 2019, the SEC approved SLDC's application to merge with Arcosouth Development, Inc. ("Arcosouth"), with SLDC as the surviving entity. Arcosouth is the registered owner of the lot adjacent to SLDC's property, *i.e.* Lot 11. The objective of the merger is to jointly develop the three (3) lots into a two-tower office development to be known as Savya.

After the merger, Arcosouth's principal shareholder, Help Holdings, Inc. (HHI) became the owner of 50% of the common shares of SLDC, although the parties are still awaiting the appropriate Certificates Authorizing Registration to enable them to reflect this transaction accordingly in their respective records.

- ix. **Kashtha Holdings, Inc. (KHI)** was incorporated on 01 October 2019 as a joint venture company between ALCO and Mitsubishi Estate Company, Limited (MEC), a corporation duly organized and existing under the laws of Japan¹², to be owned 60% by

¹¹ Emera was originally registered as Technopod, Inc. but was renamed on 30 October 2013.

¹² With address at Otemachi Park Building, 1-1, Otemachi 1-chome, Chiyoda-ku, Tokyo 100-8133 Japan.

ALCO and 40% by MEC. KHI acquired, and now owns and holds 50% equity interest of SLDC.

KHI and HHI are the principal shareholders of SLDC, with KHI having 100% economic interest in the North Tower of Savya, and HHI holds 100% economic interest in the South Tower of Savya.

- x. **Urban Property Holdings, Inc. (UPHI)** was incorporated on 23 January 1995 and is presently the registered owner of the 33-hectare property located in Calamba, Laguna, which may be developed in the future subject to market conditions.
- xi. **Zileya Land Development Corporation** was incorporated on 28 December 2015 with the primary purpose of engaging in the realty development business. This is the investment vehicle which ALCO used to acquire about 47.4% of the property located at 839 A. Arnaiz Avenue, Legazpi Village, 1200 Makati City.

None of these subsidiaries are engaged in any bankruptcy, receivership or similar proceedings. Also, for the period covered by this Report, these subsidiaries are neither parties to any transaction which involves material reclassification, merger, consolidation or purchase or sale of a significant amount of assets, except as otherwise discussed herein.

Further, neither Arthaland nor any of its subsidiaries is a party to any legal action arising from the ordinary course of its respective businesses with the exception of the following cases:

1. Termination of Trust Account

In February 2015, ALCO filed a claim before the Regional Trial Court of Makati City, Branch 149 in relation to the petition for liquidation of Export and Industry Bank represented by the Philippine Deposit Insurance Corporation (PDIC). ALCO maintained a Trust Account with the bank prior to its closure in April 2012 and had demanded from PDIC the termination of said account and the release of the owner's duplicate copies of three (3) transfer certificates of title which had been placed in the custody of the bank's Trust Department. ALCO does not have any interest in the remaining assets of the bank to be liquidated, but it was constrained to make this claim before the liquidation court given that PDIC refused to act on the matter.

In an Order dated 08 May 2017, ALCO was directed to file the necessary complaint and for PDIC to submit its Answer in order that there is a separate docket and hearing of the same and thereby enable the court to have a full and complete resolution of the issues presented by ALCO.

Management will be filing the appropriate case in due course.

2. Quieting of Title

UPHI filed a complaint for quieting of title, among other reliefs, before the Regional Trial Court of Calamba, Laguna, Branch 36 because of the erroneous issuance of tax declarations to several individual defendants by the City of Tagaytay covering UPHI's 33-hectare property registered in Calamba City. It also wanted to seek clarification with respect to which city UPHI is under legal obligation to pay real property taxes, *i.e.*, Calamba City or Tagaytay City.

In a Decision dated 16 December 2019, the court dismissed the complaint for being premature considering both cities claim territorial jurisdiction over the property but there is no pending territorial dispute between them, and that said dispute may only be resolved through a joint session between their respective *Sangguniang Panlalawigan* (should be *Panlungsod*) pursuant to the Local Government Code. There is no cloud over the title and the court ruled that UPHI should continue paying real property tax to Calamba City because of the admission of Tagaytay

City that UPHI's property is titled under the Torrens System which categorically states that it is located in Calamba City. Also, both cities had stipulated that the title to the property is in the custodial jurisdiction and safe keeping of the Register of Deeds of Calamba City, and Tagaytay City did not make any claim or request for the transfer of said title to its own custodial jurisdiction and safe keeping.

UPHI filed a Motion for Partial Reconsideration of the foregoing Decision. The court granted the same in an Order dated 05 June 2020 and declared, among others, that UPHI is the true and lawful owner of the 33-hectare property registered in its name and enjoined it to continue paying for the real property taxes in Calamba City. Further, in the event the local government of the City of Tagaytay insists that the subject property is within its territorial jurisdiction, the court directed the cities of Calamba and Tagaytay to make the initiative through their respective *Sangguniang Panlungsod* and through a joint session, resolve any territorial dispute between them in accordance with the Local Government Code of 1991.

The City of Tagaytay and one of the individual defendants¹³ filed an appeal before the Court of Appeals. The parties have filed their respective pleadings and are awaiting resolution of the matter.

3. Expropriation

Petitioner National Power Corporation (NAPOCOR) filed in November 1995 before the Regional Trial Court of Calamba, Laguna, Branch 34, a Petition for Expropriation of Properties to be affected by the Tayabas-Dasmariñas 500 kV transmission line right, which included a portion of UPHI's property with an area of about one (1) hectare. The court issued a Writ of Possession in favor of NAPOCOR in 1996.

In July 1999, NAPOCOR and UPHI agreed to refer to commissioners the determination of just compensation for UPHI. UPHI did not question the propriety of expropriation any further but continued to participate in the proceedings having found NAPOCOR's valuation unreasonable and to enable it to submit evidence as and when the commissioners required the same. The matter was eventually elevated before the Court of Appeals in 2015 and is still pending resolution to date.

UPHI intends to amicably settle with the National Transmission Corporation (successor-in-interest of NAPOCOR) since it had already been deprived of effective use and enjoyment of a portion of the property. An amicable settlement with the National Transmission Corporation could allow UPHI to recoup the cost of the parcel expropriated by NAPOCOR.

4. Claim for Refund

- a. A buyer¹⁴ offered to purchase a unit in Arya Residences, paid the reservation fee and signed the Reservation Agreement which reads, in part, that should the buyer "fail to pay any of the amounts due xxx, the Seller shall have the sole option to (i) cancel the sale and forfeit in its favor all payments made xxx." A total of ₱950,000.00 was paid in a span of less than one (1) year and the buyer defaulted in the rest of the obligations. The sale was, therefore, cancelled accordingly. The buyer demanded a refund of all payments made, as well attorney's and appearance fees, by filing a complaint before the Housing and Land Use Regulatory Board (HLURB)¹⁵ in May 2017.

¹³ The lone defendant who appealed is Ms. Rosalinda Reyes.

¹⁴ The complainant is Ms. Bernadette Villaseñor.

¹⁵ Now Department of Human Settlements and Urban Development.

In a Decision dated 19 January 2018, the HLURB dismissed the complaint for lack of merit, primarily because of Republic Act No. 6552, otherwise known as the “Realty Installment Buyer Protection Act”. For a buyer to be entitled to refund, he or she must have paid at least two (2) years of installments, and even then, only the cash surrender value of the payments shall be refunded, which is equivalent to 50% of the total payments made.

- b. Another buyer¹⁶ offered to purchase a unit in Arya Residences in November 2012, paid the reservation fee but failed to pay the final amortization and other charges which became due in January 2014, on the ground that a viewing of the unit was not allowed beforehand, notwithstanding that pursuant to the Contract to Sell signed, full payment of the account is required prior to turnover of the unit. A viewing of the unit is not scheduled until the account is fully paid since inspection is the initial step of the turnover process. All buyers of Arya Residences were treated in the same manner.

In November 2017, the buyer filed a complaint before the HLURB and demanded the return of all payments made in a span of one (1) year amounting to ₱942,718.53.

In a Decision dated 05 April 2019, ALCO was directed to refund to the buyer ₱942,718.53 and pay attorney’s fees and actual damages in the total amount of ₱70,000.00.

On 15 May 2019, ALCO appealed the foregoing Decision arguing, among others, that Republic Act No. 6552 should have been applied as it is the special law governing transactions that involve, subject to certain exceptions, the sale on installment basis of real property. However, the adverse Decision was affirmed. ALCO will elevate the matter to the Court of Appeals accordingly after its Motion for Reconsideration is resolved.

5. Labor

- a. In an Order dated on 03 July 2017, the Department of Labor and Employment (DOLE) found ALCO non-compliant with certain labor standards per Rules 1020, 1030, 1040, 1050 and 1065. Records, however, show that ALCO is in fact compliant. A Memorandum of Appeal was filed in October 2017 because serious errors in the finding of facts were committed by DOLE which, if not corrected, would cause grave or irreparable damage or injury to ALCO. Among the reliefs sought are the recall of the Order for Compliance and a finding that ALCO is fully compliant with labor laws and occupational health and safety standards.

In a Resolution dated 24 March 2021, the DOLE granted ALCO’s appeal and found the Order dated on 03 July 2017 complied with.

- b. In an Order dated 29 November 2017, the DOLE found that ALCO did not comply and failed to effect corrective actions on noted deficiencies per Rules 1050, 1060 and 1065 within the period prescribed by the Labor Laws Compliance Officer. A Memorandum of Appeal was filed in February 2018 seeking, among others, the recall of the Order for Compliance and a finding that ALCO is fully compliant. ALCO did institute corrective measures and in fact completed the noted deficiencies prior to the issuance of the Order for Compliance.

In a Resolution dated 20 April 2021, the DOLE granted ALCO’s appeal and set aside the Order dated on 29 November 2017.

¹⁶ The complainant is Ms. Anita Medina-Yu.

6. Liquidation Proceedings of Lessee

On 15 November 2021, Common Ground Works Philippines, Inc. (CGWPI), a lessor of ALCO for the 20th floor of ACPT, filed a Petition for Voluntary Liquidation with the Regional Trial Court of Taguig City, Branch 271 seeking to be declared insolvent and praying for the issuance of a liquidation order. ALCO was impleaded as a creditor of CGWPI for unpaid rentals, CUSA, other dues and penalties arising from the leased premises. The Court issued a Liquidation Order dated 19 November 2021 declaring CGWPI insolvent and dissolved.

ALCO will be filing its Statement of Claims upon appointment of the liquidator.

The potential effect of the foregoing cases on the financial statements of ALCO and its subsidiaries cannot be determined at the moment. However, it is believed that the effect thereof, if there is any, is not significant.

d. Competition

Significant barriers to entry into the market are the considerable capital needed for the acquisition and development of land, the development expertise and reputation required from an experienced management team, and the technological know-how from a technical team, to name a few.

ALCO faces competition from other domestic property developers and the level of competition depends on product types, target market segments, location of developments and pricing, among others. Competition is also present in the procurement of raw materials particularly in a tight supply market.

ALCO views as direct competition the major property players which are into the middle and high market categories for high-rise residential developments in the vicinity of ALCO's investment properties. Further, ALCO competes with these property developers for high-caliber sales/leasing agents and brokers.

ALCO believes that given the desirability of the project locations, its strict adherence to quality, innovation and sustainability, its competitive pricing schemes and commitment to its projects even after sales, it will be able to compete effectively.

ALCO considers two (2) direct competitors in the high-end residential market segment in terms of relative quality of development and pricing of products – Ayala Land, Inc. and Rockwell Land Corporation. These companies have been in the business many years earlier than ALCO and therefore, have stronger brand equity, longer track record, and financial mileage. In the office development front, ALCO competes with both large and medium-scale developers such as Ayala Land, Inc., The Net Group, Daiichi Properties, and other local developers, particularly in Cebu City. These companies are considered to have the greater share of the market at the moment.

ALCO intends to primarily capitalize on its niche market by developing projects in distinct locations, which are unique and special in terms of design, and sustainable and wellness features. ALCO is the pioneer in sustainable developments, being the first and only company to have all its projects multi-certified with LEED, BERDE, EDGE and WELL. It intends to continue to provide distinctive products with better quality at more competitive pricing. ALCO believes it can achieve this given its substantially lower overhead costs, being a relatively leaner organization.

e. Industry Risk

The property development sector is cyclical and is subjected to the Philippine economic, political and business performance. The industry is dependent primarily on consumer spending for housing. In the past years, a significant portion of housing demand is being driven by purchases from the Overseas Filipino Workers (OFWs) market. This exposes the industry to the economic performance of foreign countries of the overseas workers such as the United States, the Middle East and countries in Europe.

Data from *Bangko Sentral ng Pilipinas* (BSP) shows that cash remittances sent by OFWs slipped by 0.8% to US\$29.9 billion (₱1.4 trillion) in 2020. This is lower than their previous projection of a 2.0% contraction. The figure, however, ended 19 consecutive years of growth. In 2021 though, cash remittances grew by 5.1% to US\$31.4 billion following of easing of restrictions in countries where demand for Filipino workers continued despite the pandemic.

The office market has been largely driven by the BPO sector which caters largely to US and European customers. It is important to note that while the US and Europe remain to be the largest client-base contributors to the country's information technology and business process management (IT-BPM) sector, the industry is currently moving to high value and high potential markets in Australia, New Zealand and other neighboring countries in the region. Other than voice-based offshore services, the IT-BPM industry is also gearing towards high-value knowledge-based services, including financial, legal, medical, architectural and animation sectors.

Overall, the industry, and necessarily ALCO and its subsidiaries, contend with risks relating to volatility in overseas remittances, interest rates, credit availability, foreign exchange, political developments, costs and supply of construction materials, wages, and changes in national and local laws and regulations governing Philippine real estate and investments. ALCO and its subsidiaries are sensitive to: (i) the political and security situations of the country since its sales comes from both foreign and local investors, and (ii) the performance of overseas remittances and the BPO sectors as these inflows find their way into investments in housing and other real estate products.

ALCO has a very rigid credit approval system to ensure that its buyers are financially capable of meeting their payment schedules. It evaluates the credit-worthiness of prospective buyers and regularly monitors the economic performance of the domestic and global players through internal research and discussions with its property consultants to be able to timely adjust policies on pricing, payment schemes and timing of new project launches.

f. Sources and availability of raw materials

Construction of ALCO's projects is awarded to qualified reputable construction firms subject to a bidding process and Management's evaluation of contractors' qualifications and satisfactory working relationships. Construction materials, primarily cement and reinforcing bars (rebars), are normally provided by the contractors as part of their engagement. In instances when management finds it to be more cost-effective, ALCO may opt to procure owner-supplied construction materials.

g. Advances to Related Parties

In the regular conduct of business, ALCO and its wholly owned subsidiaries enter into intercompany transactions, primarily advances necessary to carry out their respective functions subject to liquidation and reimbursements for expenses. ALCO ensures that while these transactions are made substantially on the same terms as with other individuals and businesses of comparable risks, they are fair and treated at arm's length.

Intercompany transactions between and among ALCO, its subsidiaries and related companies are discussed in the Audited Financial Statements hereto attached.

h. Patents and Trademarks

ALCO's operations are not dependent on patents, trademarks, copyrights and the like, although ALCO, on its own behalf and those of its subsidiaries, sought from the Intellectual Property Office of the Philippines and was granted the exclusive use of the tradenames, logos and taglines "Arthaland Future Proof by Design", "Arthaland Century Pacific Tower", "ARTHALAND Building Sustainable Legacies", "Cebu Exchange", "Savya Financial Center", and "Sevina Park". The tradename "Arya Residences" now belongs to Arya Residences Condominium Corporation.

i. Government approval for principal products or services

ALCO secures various government approvals such as Environmental Compliance Certificates (ECCs), development permits and licenses to sell as part of its normal course of business.

ALCO does not foresee any material or adverse effect of existing and probable government regulations on its business.

j. Cost and Effects of Compliance with Environmental Laws

ALCO complied with all environmental regulatory requirements for both the pre-construction and operational phases of all its projects and paid for the imposed dues.

ALCO goes beyond the mandatory environmental framework, being a member and supporter of USGBC and PHILGBC. ALCO is also an EDGE Champion of the IFC and a supporter of the World Green Building Council.

ALCO will obtain the requisite government approvals for its subsequent projects based on the projects' timetable for development and pre-selling.

k. Employees

As of 31 December 2021, ALCO had a total of 135 personnel, 57 of whom are in management and 78 are non-managers¹⁷. As of the same period, ALCO also engaged 164 sales agents.

The above personnel are not covered by any collective bargaining agreement.

Additional employees will be hired for the succeeding year but the same will be closely aligned with ALCO's actual and programmed growth.

l. Working Capital

Generally, ALCO finances its projects through internally generated funds, loans from banks, funds from joint venture partners, and funds raised from its public offering of preferred shares and bonds. ALCO may also obtain support from its major shareholders, such as the non-interest-bearing loans obtained from Centrobless Corporation¹⁸, a majority owned subsidiary of Century Pacific Group, Inc., which is the same majority shareholder of CPG, ALCO's largest

¹⁷ These employees do clerical, administrative and operational day to day tasks, are given directives, and do not have any authority to make decisions for the company.

stockholder at present, and from Signature Office Property, Inc.¹⁹, which is majority-owned and chaired by ALCO Director Jaime Enrique Y. González.

The amount spent on development activities and its percentage vis-à-vis the revenues during the last two (2) fiscal years are reflected and discussed in ALCO's Audited Financial Statements for the period covered by this Report, a copy of which is hereto attached.

ALCO's total resources as of 31 December 2021 amounting to ₱34.67 billion is 26% higher than the 31 December 2020 level of ₱27.55 billion due to the following:

107% Increase in Cash and Cash Equivalents

The increase is accounted for by inflows from Preferred Shares Series D issuance net of Series B redemption, loan proceeds and sales collections net of loan repayments and operational and construction related disbursements.

34% Increase in Financial Assets at Fair Value through Profit or Loss (FVPL)

The increase is attributable to additional funds invested in money market placements.

190% Increase in Receivables

The increase is largely due to the installment receivables recognized from the sale of office units in Cebu Exchange, Savya Financial Center, and residential units in Sevina Park, as well as receivables from ACPT tenants.

17% Increase in Contract Assets

The increase in contract assets pertains to the additional booked units during the year, arising from the sale of office units in Cebu Exchange, Savya Financial Center and residential units in Sevina Park accounted for under percentage of completion (POC), where contract assets is recognized when total revenues from real estate sales exceeds the billed amount.

30% Increase in Real Estate for Sale

The increase was mainly due to the additional construction costs incurred for ongoing projects as well as the carrying value of a portion of land that was transferred from “Investment properties” to “Real estate for sale” due to change in the intended use of the property.

9% Increase in Investment Properties

The increase is mainly attributable to the appraisal gain from ACPT, Laguna and other investment properties, net of reclassification of a portion of land to “Real estate for sale”.

14% Increase in Other Assets

The increase is largely attributable to VAT Input payments and advances for purchase of property.

44% Increase in Loans Payable

The increase is largely attributed to drawdowns from various loan facilities to fund project related disbursements and working capital requirements.

51% Increase in Accounts Payable and Other Liabilities

This is attributable to payables to contractors for ongoing projects and other liabilities.

127% Increase in Contract Liabilities

The increase pertains to collections received from buyers of units in Savya Financial Center and Sevina Park Villas, the related revenue of which is not yet recognized.

19% Decrease in Advances from Non-controlling Interests

The decrease pertains to ALCO’s acquisition of the 40% share owned by Rock and Salt B.V. (RSBV) in CLLC.

17% Increase in Net Retirement Liability

The increase is due to the additional retirement expense recognized for the year, net of remeasurement gains.

99% Increase in Additional Paid-in Capital

This is due to the excess of the proceeds over par value of the Preferred Shares Series D that was issued during the year, net of stock issuance costs.

17% Increase in Retained Earnings

The increase is due to net income for the year, net of dividends declared.

23% Decrease in Other Equity Reserves

The decrease is mainly due to ALCO's acquisition of 40% of the ownership and voting rights of CLLC from RSBV resulting to 100% ownership of the Parent Company in CLLC. The difference between the acquisition cost and book value was recorded as reduction to equity reserves.

100% Increase in Treasury Shares - Preferred Shares Series B

This is due to the redemption of Preferred Shares Series B during the year.

23% Increase in Non-Controlling Interests

The increase is largely contributed by the recognition of NCI's share in the net income of CLLC and SLDC.

Total Liabilities and Equity	₱27,547,203,069	₱19,475,831,992	41%

ALCO's total resources as of 31 December 2020 amounting to ₱27.55 billion is 41% higher than the 31 December 2019 level of ₱19.48 billion due to the following:

131% Increase in Cash and Cash Equivalents

The increase is accounted for by inflows from the issuance of the ASEAN Green Bonds, loan proceeds and sales collections, net of outflows attributed to money market placements, repayments of loans and operational and construction related disbursements.

322% Increase in Financial Assets at Fair Value through Profit or Loss (FVPL)

The increase is accounted for by portions of the ASEAN Green Bonds as well as loan proceeds that were invested in money market placements.

38% Increase in Receivables

The increase is largely due to the revenues recognized from the sale of office units in Cebu Exchange and Savya Financial Center that are already billed to buyers, and receivables from ACPT tenants.

64% Increase in Contract Assets

The increase pertains to the above revenue recognition from the office units in Cebu Exchange and Savya Financial Center where there was an excess of total revenues from real estate sales over the amounts already due and payable by the buyers.

27% Increase in Real Estate for Sale

The increase is mainly due to the additional construction costs incurred for ongoing projects net of amounts charged to Cost of Sales, and acquisition of properties in Makati and Cebu for development, net of cost of real estate sold recognized.

14% Increase in Investment Properties

The increase is mainly attributable to the appraisal gain from ACPT and other investment properties.

17% Increase in Other Assets

The increase is largely attributable to VAT Input payments and advances for purchase of a property.

34% Increase in Loans Payable

The increase is largely attributed to drawdowns from various loan facilities to fund project related disbursements and some working capital requirements.

100% Increase in Bonds Payable

This pertains to the issuance of the ASEAN Green Bonds, net of debt issuance costs, to be used in the acquisition and development of eligible green projects.

12% Increase in Accounts Payable and Other Liabilities

The increase is mainly attributable to payables to contractors for ongoing projects.

15% Decrease in Contract Liabilities

The decrease pertains to down payment received which were subsequently recognized as revenues from real estate sales of office units in Savya Financial Center.

19% Increase in Advances from Non-controlling Interests

The increase pertains to advances made by shareholders of CLLC and KHI.

35% Increase in Net Deferred Tax Liabilities

The increase is mainly due to the deferred tax on the gain on change in fair value of investment properties and excess of financial gross profit over taxable gross profit.

20% Increase in Retained Earnings

The increase is due to the net income for the year, net of dividends declared.

110999% Increase in Other Equity Reserves

The increase is mainly attributable to the excess over cost of proceeds that was received by ALCO for the sale of 40% of its shares in KHI in favor of MEC.

286% Increase in Non-Controlling Interests

The increase was due to the recognition of NCI's share in the net income of CLLC and SLDC.

ALCO's total resources as of 31 December 2019 amounting to ₱19.48 billion is 58% higher than the 31 December 2018 level of ₱12.34 billion due to the following:

43% Increase in Cash and Cash Equivalents

The increase is accounted for by the proceeds from various loans, advances from shareholders, and sales collections.

294% Increase in Financial Assets at Fair Value through Profit or Loss (FVPL)

The increase was due to investments in money market placements of the additional cash from loan proceeds and sales collections.

65% Increase in Trade and Other Receivables

The increase was largely due to the sale of office units in Cebu Exchange, first-time revenue recognition from the sale of office units in Savya Financial Center, and receivables from ACPT tenants.

314% Increase in Contract Assets

This pertains to the increase in receivables from the additional sale of office units in Cebu Exchange and Savya Financial Center representing the excess of cumulative revenues from real estate sales over the amounts already due and payable by the buyers.

59% Increase in Real Estate for Sale

The increase is mainly due to the acquisition of various properties for development and the additional construction costs incurred during the year for ongoing projects.

30% Increase in Creditable Withholding Tax

This represents the increase in taxes withheld on the additional collections from buyers of office units in Cebu Exchange and Savya Financial Center.

23% Increase in Investment Properties

The increase is mainly attributable to the appraisal gain of ACPT and other investment properties.

19% Increase in Property and Equipment

The increase is due to the completion of fit-out costs of ALCO's new corporate office in ACPT and to additional transportation and office equipment.

100% Decrease in Deferred Tax Assets

The decrease is due to the realization of net income in CLLC, resulting to the full utilization of its NOLCO.

34% Increase in Other Assets

The increase is largely attributable to the down payment made to contractors of ongoing projects as well as to VAT Input payments.

66% Increase in Loans Payable

The increase is largely due to additional drawdowns from bank loan facilities availed of in order to partly fund ALCO's working capital and project financing requirements.

50% Increase in Accounts Payable and Other Liabilities

The increase is mainly attributable to payables to contractors/suppliers for ongoing projects.

58% Increase in Contract Liabilities

The increase pertains to collections received from buyers of office units in Cebu Exchange and Savva Financial Center the related revenue of which is not yet recognized.

196% Increase in Due to a Related Party

This pertains to advances made by shareholders of CLLC and SLDC.

51% Increase in Retirement Liability

The increase is due to the additional retirement expense recognized for the year and remeasurement loss from the change in financial assumptions used in the valuation of retirement plan.

68% Increase in Net Deferred Tax Liabilities

The increase is due mainly to the gain resulting from the change in fair value of investment properties.

48% Increase in Additional Paid-in Capital

This is due to the excess of the proceeds over par value of the Preferred Shares Series C that was issued during the year, net of stock issuance costs.

43% Increase in Retained Earnings

The increase is due to the net income for the year, net of dividends declared.

101% Decrease in Cumulative re-measurement gains (losses) on retirement liability

The decrease is due to the current year's cumulative remeasurement losses as against last year's gains in valuation of ALCO's retirement liability.

1740% Increase in Non-Controlling Interests

The increase is mainly due to the higher net income of CLLC for the current year as compared to the prior year.

Results of Operations for the year ended 31 December 2021 compared to the year ended 31 December 2020.

10% Decrease in Revenues

The decrease in revenue is due to the minimal movement of Cebu Exchange POC in 2021 since the project is already nearing its completion and the lesser amount of booked sales as compared with the preceding year.

On the other hand, real estate sales of the office units at Savya Financial Center and residential units at Sevina Park Villas increased by 37% and 275% respectively.

14% Increase in Selling and Marketing Expenses

The change is mainly due to the increase in marketing activities for ongoing and new projects.

9% Decrease in Gain on Change in Fair Value of Investment Properties

The decrease is largely due to the minimal appraisal gain recognized in 2021.

35% Decrease in Other Income – Net

The decrease is attributable to lower unrealized holding gains on financial assets at FVPL during the year.

98% Decrease in Income Tax Expense

The decrease is largely due to the full effect of CREATE law resulting to lower income tax during the year.

232% Increase in Remeasurement Gains (Losses) on Net Retirement Liability

The increase is attributable to the change in financial assumptions and other variables used by the actuarial company in the valuation of the retirement plan.

Total comprehensive income	₱1,163,709,622	₱1,468,770,658	-21%

Results of Operations for the year ended 31 December 2020 compared to the year ended 31 December 2019.

14% Decrease in Revenues

The decrease in revenue is attributed to a decline in revenues from Real Estate Sales which was largely brought about by changes in market conditions and restrictions on construction activities following the Community Quarantine implemented in NCR and Cebu starting March 2020. While other companies implemented selling strategies involving sizeable discounts and ultra-stretched payment terms, ALCO substantially retained its selling prices across its projects given the strength of its sales pipeline and robust cash flows. ALCO fully expected that during the pandemic, there is a longer period to close sales transactions given that buyers take more time to conclude their decisions and given the limited access of buyers to ALCO's sales galleries for its projects.

On the other hand, revenues from other segments, particularly leasing and other operations, grew by 15% to ₱382.4 million in 2020 compared to ₱332.1 million in 2019.

22% Decrease in Cost of Sales and Services

The decrease in cost of sales is directly related to the decrease in revenues.

125% Increase in Finance Costs

The increase is accounted for by the non-capitalizable interests from the ASEAN Green Bonds and other working capital loans and interest from the loan obtained for the construction of ACPT, which was no longer capitalized upon the completion of building in 2019.

19% Decrease in Gain on Change in Fair Value of Investment Properties

The decrease is due to less appraisal gain recognized for investment properties.

36% Increase in Other Income – Net

The increase is attributable to earnings on the additional placements made from the proceeds of the ASEAN Green Bonds and various loans.

23% Decrease in Income Tax Expense

The decrease is due to lower net income recognized for the year.

71% Decrease in Remeasurement Gains (Losses) on Net Retirement Liability

The decrease is due to the change in financial assumptions and experience adjustments used in the valuation of the retirement plan.

Results of Operations for the year ended 31 December 2019 compared to the year ended 31 December 2018.

240% Increase in Revenues

The increase is mainly attributable to revenue recognized from the sale of office units in Cebu Exchange and the first-time revenue recognition for sale of office units in Savya Financial Center.

247% Increase in Cost of Sales and Services

The increase in cost of sales is directly related to the increase in revenues.

26% Increase in Administrative Expenses

The increase is due to professional fees, personnel related expenses, and taxes.

253% Increase in Selling and Marketing Expenses

The increase is mainly due to amortized commissions from the sale of office units in Cebu Exchange and Savya Financial Center, as well as the increased marketing activities for ongoing and new projects.

70% Increase in Finance Costs

The increase is mainly due to non-capitalization of interest expense from loans due to the completion of ACPT in 2019, and interests from additional working capital loans.

583% Increase in Gain on Change in Fair Value of Investment Properties

The increase is attributable to the appraisal gain of ACPT and other investment properties.

91% Decrease in Other Income – Net

The decrease is largely due to realized gain on the settlement of loans through *dacion en pago* realized in 2018.

284% Increase in Income Tax Expense

The increase is due to higher net income recognized for the year.

271% Decrease in Change in Actuarial Gain (Loss)

The decrease is due to the remeasurement loss from change in financial assumptions used in the valuation of retirement plan as mentioned under Retirement Liability.

There is no event that will trigger any direct or contingent financial obligation that is material to ALCO, including any default or acceleration of an obligation.

There is no material off-balance sheet transaction, arrangement, obligation and other relationship of ALCO with unconsolidated entities or other persons created during the reporting period.

Except as otherwise disclosed separately and excluding those projects already in ALCO's pipeline as outlined in this Report, there are no other material commitments for capital expenditures as of the period herein.

The varying levels of community quarantine that have been enforced in the different parts of the country since its initial imposition on 16 March 2020 have created significant impact to business in general. Industries considered as non-essential have been ordered closed, travel restrictions were implemented, and large areas or communities were locked down.

In spite of the difficulties posed by these challenges, ALCO has been agile and resilient enough to adopt to the "new normal" the situation has created. It has developed and executed a business continuity protocol which allowed it to continue functioning and operating except in areas where no alternative means, given existing circumstances, are readily available.

To date, Management continues to monitor all the ongoing COVID-19 related developments in order to assess, anticipate and develop appropriate business strategies moving forward.

ALCO's total resources decreased by 1% from ₱34.7 billion on 31 December 2021 to ₱34.4 billion as of 31 March 2022 due to the following:

42% Increase in Cash and Cash Equivalents

The increase in cash is accounted by the proceeds from disposal of money market placements and revenue collections, net of normal disbursement from operations and project related costs.

44% Decrease in Financial assets at FVPL

The decline was due to termination of money market placements which were subsequently used to fund the operating requirements of the company including its ongoing projects.

30% Decrease in Receivables

The decrease is due to the collection of receivables during the period.

8% Increase in Contract Assets

The increase represents the excess of revenue recognized from the sale of Cebu Exchange, Savya Financial Center, and Sevina Park Villas over the amounts billed to the buyers.

5% Increase in Real Estate for Sale

The increase was mainly due to the additional construction costs incurred during the period for ongoing projects.

Total liabilities decreased by 2% from ₱23.6 billion on 31 December 2021 to ₱23.0 billion as of 31 March 2022 due to the following:

32% Increase in Contract Liability

The increase mainly pertains to collections received from buyers of units in Cebu Exchange and Sevina Park Villas, in which the related revenue is not yet recognized.

6% Increase in Retirement Liability

The increase is due to provision of retirement expense for the period.

Total equity increased by 3% from ₱11.1 billion on December 31, 2021 to ₱11.3 billion as at March 31, 2022 due to the following:

14% Increase in Non-Controlling Interests

The increase is attributable to the recognition of NCI's share in the net income (loss) of KHI, Bhavana and Bhavya and additional deposit for future stock subscription from a shareholder.

9% Increase in Revenues

Revenues from incremental bookings and higher project accomplishment drove the increase in quarter-on-quarter revenues from Real estate sales.

29% Increase in Administrative Expenses

Administrative expense rose by 29% due to noted increase in personnel cost, taxes, travel and gasoline expenses as compared prior year.

100% Increase in Net Gain on Change in Fair Value of Investment Properties

The increase is due to the appraisal gain recognized for ACPT office and parking units.

45% Increase in Other Income - net

The increase is mainly attributable to holding gains and interest income.

119% Increase in Income Tax Expense (Benefit)

Quarter tax effect in prior period was a benefit due to effect of the CREATE law while higher revenues caused the tax expense for the current period.

ANNUAL CORPORATE GOVERNANCE REPORT

ALCO's compliance with its Manual of Corporate Governance, as revised as of 06 May 2020, is monitored by its Compliance Officer who is tasked, among others, to determine and measure such compliance with the said Manual, while the heads of various departments of the organization monitor the requisite compliances within the scope of their responsibilities.

The Board of Directors and Management, including officers and staff, of ALCO believe that good corporate governance is a necessary component of a sound and strategic business management and have, therefore, adopted the leading principles and practices of good corporate governance mandated by law and regulatory agencies and committed these as guide in the attainment of corporate goals and objectives. For this reason, everyone in the organization undertakes every effort necessary to create awareness of ALCO's Manual of Corporate Governance (the "Manual")²⁴. Upon election, appointment or hiring, as applicable, the new director/s, officer/s or employee/s is provided with all relevant written information about ALCO, including the Manual, and such policies and procedures which will be relevant to his duties and responsibilities as such director, officer or employee. He is then free to sit down with any incumbent officer to enlighten himself further on ALCO's operations.

There is no deviation from the Manual as of the date of this Report.

No evaluation system has been established at this time which can measure or determine the level of compliance of the Board of Directors and top-level management with the Manual, although steps are currently undertaken to create one. Nevertheless, an evaluation by a third party (Institute of Corporate Directors) was conducted in 2021 on the Board of Directors and ALCO's various committees.

- Nothing follows. -

²⁴ Arthaland submitted a revised Manual of Corporate Governance on 31 December 2021 and the same is now available online at www.arthaland.com.

**STATEMENT OF MANAGEMENT'S RESPONSIBILITY
FOR FINANCIAL STATEMENTS**

Management of **ARTHALAND CORPORATION** (the “Parent Company”) and its **Subsidiaries** (collectively, the “Group”) is responsible for the preparation and fair presentation of the financial statements including the schedules attached therein for the years ended **31 December 2021, 2020 and 2019**, in accordance with the prescribed financial reporting framework indicated therein, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Group’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible in overseeing the Group’s financial reporting process.

The Board of Directors reviews and approves the financial statements, including the schedules attached therein, and submits the same to the stockholders.

Reyes Tacandong & Co., the independent auditor appointed by the stockholders, has audited the financial statements of the Group in accordance with **Philippine Standards on Auditing**, and in its report to the stockholders, has expressed its opinion on the fairness of presentation upon completion of such audit.

INDEPENDENT AUDITORS' REPORT

The Stockholders and the Board of Directors
Arthaland Corporation and Subsidiaries
7/F Arthaland Century Pacific Tower
5th Avenue corner 30th Street
Bonifacio Global City, Taguig City

Opinion

We have audited the accompanying consolidated financial statements of Arthaland Corporation and Subsidiaries (the Group), which comprise the consolidated statements of financial position as at December 31, 2021 and 2020, and the consolidated statements of comprehensive income, consolidated statements of changes in equity and consolidated statements of cash flows for the years ended December 31, 2021, 2020 and 2019, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at December 31, 2021 and 2020, and its consolidated financial performance and its consolidated cash flows for the years ended December 31, 2021, 2020 and 2019 in accordance with Philippine Financial Reporting Standards (PFRS), as modified by the application of financial reporting relief issued and approved by the Philippine Securities and Exchange Commission (SEC) (see Note 2).

Basis of Opinion

We conducted our audits in accordance with Philippine Standards on Auditing (PSA). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics) together with the ethical requirements that are relevant to the audit of the consolidated financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Fair Value Measurement of Investment Properties

The Group's investment properties which are accounted for using the fair value model amounted to ₱9,026.4 million as at December 31, 2021. The fair value measurement is significant to our audit as the investment properties account for 26.0% of the Group's total assets as at December 31, 2021 (see Notes 3 and 10 to the consolidated financial statements).

We focused our audit on the management's determination of the fair value of investment properties because the process involves significant management judgment when selecting the appropriate valuation techniques and inputs used to determine fair value.

We have assessed the independence and competency of the appraiser engaged by the Group. We have also reviewed the reasonableness of the assumptions used to estimate the fair value of the Group's investment properties by: (1) testing the underlying lease agreements on a sample basis, (2) testing raw land's value by comparison with similar properties, and (3) verifying valuation inputs such as yields, occupancy rates and discount rates to external industry data to ascertain if these are reasonably appropriate.

Revenue from Real Estate Sales

For the year ended December 31, 2021, the Group recognized revenue of ₱2,628.9 million from real estate sales using the percentage of completion (POC) method. This is significant to our audit as the amount of revenue from real estate sales for the year ended December 31, 2021 is material to the consolidated financial statements (see Notes 3 and 17 to the consolidated financial statements).

We focused our audit on the revenue recognition as significant judgment is required when estimating POC, total project costs and the estimated costs to complete the real estate project that are used to determine POC at the end of the reporting period.

We obtained an understanding of the relevant processes and controls over the accounting for customer contracts and project reviews performed by management in determining the estimates. We also reconciled revenues reported at the Group level to supporting documentations on a sample basis, validated estimates of costs to complete, and tested the accuracy of calculations and the reasonableness of project accounting.

Valuation of Real Estate for Sale

The Group's real estate properties amounted to ₱8,988.8 million as at December 31, 2021, which accounts for 25.9% of the total assets (see Note 9 to the consolidated financial statements). Valuation of real estate for sale is significant to our audit because it involves determination and estimation of project costs at the end of reporting period.

We have obtained understanding of the Group's processes and controls relating to the inventory cost accumulation and allocation. We also assessed the assumptions used by management in estimating the incurred project costs and costs to complete of the projects. We corroborated the management's estimate through ocular inspection of the projects and examination of contractors' billings and progress reports.

Other Information

Management is responsible for the other information. The other information comprises the information included in the SEC Form 20-IS (Definitive Information Statement), SEC Form 17-A and Annual Report for the year ended December 31, 2021, but does not include the consolidated financial statements and our auditors' report thereon. The SEC Form 20-IS (Definitive Information Statement), SEC Form 17-A and Annual Report for the year ended December 31, 2021 are expected to be made available to us after the date of this auditors' report.

Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audits of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audits or otherwise appears to be materially misstated.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with PFRS, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, these could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with PSA, we exercise professional judgment and maintain professional skepticism throughout the audits. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits and significant audit findings, including any significant deficiencies in internal control that we identify during our audits.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditors' report is Michelle R. Mendoza-Cruz.

ARTHALAND CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. General Information

Corporate Information

Arthaland Corporation (the Parent Company or ALCO) was incorporated and registered with the Philippine Securities and Exchange Commission (SEC) on August 10, 1994. ALCO's common shares and Series C and D preferred shares are listed for trading in the Philippine Stock Exchange (PSE). The Parent Company is primarily engaged in real estate development and leasing.

The Parent Company is currently 40.3% owned by CPG Holdings, Inc. (CPG) and 26.0% owned by AO Capital Holdings 1, Inc. (AOCH1), both holding companies incorporated in the Philippines.

In June 2019, the Parent Company made a follow-on offering of 10.0 million cumulative, nonvoting, nonparticipating and nonconvertible Peso-denominated Series C preferred shares at ₱1.00 par value a share at the issuance price of ₱100 a share (see Note 16).

In January 2020, the SEC approved the registration of ALCO's ASEAN Green Bonds and the initial tranche of ₱2.0 billion bonds with an offer subscription of ₱1.0 billion (see Note 14).

In December 2021, the Parent Company made a follow-on offering of 6.0 million cumulative, nonvoting, nonparticipating and nonconvertible Peso-denominated Series D preferred shares at ₱1.00 par value at the issuance price of ₱500 a share (see Note 16). Moreover, the Parent Company redeemed all of the outstanding 20.0 million Series B Preferred Shares equal to its offer price plus any accrued and unpaid cash dividends due as of date.

The registered office and principal place of business of the Parent Company is located at 7/F Arthaland Century Pacific Tower, 5th Avenue corner 30th Street, Bonifacio Global City (BGC), Taguig City.

Composition of the Group

The consolidated financial statements include the Parent Company and the following subsidiaries (collectively referred herein as "the Group"):

Subsidiary	Place of Incorporation	Effective % of Ownership		
		2021	2020	2019
Cazneau, Inc. (Cazneau)	Philippines	100%	100%	100%
Emera Property Management, Inc. (EPMI)	Philippines	100%	100%	100%
Manchesterland Properties, Inc. (MPI)	Philippines	100%	100%	100%
Urban Property Holdings, Inc. (UPHI)	Philippines	100%	100%	100%
Zileya Land Development Corporation (ZLDC)	Philippines	100%	100%	100%
Pradhana Land, Inc. (PLI)	Philippines	100%	100%	100%
Cebu Lavana Land Corp. (CLLC)	Philippines	100%	60%	60%
Bhavana Properties, Inc. (Bhavana)	Philippines	60%	100%	100%
Bhavya Properties, Inc. (Bhavya)	Philippines	60%	100%	100%
Kashtha Holdings, Inc. (KHI)	Philippines	60%	60%	100%
Savya Land Development Corporation (SLDC)	Philippines	59%*	59%*	98%

*indirectly owned through KHI

All of the subsidiaries were established to engage primarily either in real estate development or property leasing, except for EPMI which is a property management company and KHI which is an investment holding company.

In March 2018, the Parent Company and Help Holdings Inc. (HHI) (collectively referred to as the Parties) entered into an agreement (the Agreement) to jointly develop the adjacent lots (the Property) of SLDC and Arcosouth Development Inc. (ADI), the subsidiary of HHI, aggregating 5,991 square meters (sqm) located in Arca South, Taguig City. The Parties agreed, among others to merge SLDC and Arcosouth into a single corporation, with SLDC as the surviving entity. The merger of SLDC and Arcosouth was approved by the SEC on August 22, 2019.

Also, in August 2019, ALCO and Mitsubishi Estate Company, Limited (MEC), a corporation duly organized and existing under the laws of Japan, have agreed to invest in, establish and maintain a joint venture company to be owned 60% by ALCO and 40% by MEC which will (i) acquire and, thereafter, own and hold the 50% ownership in SLDC, and (ii) acquire by assignment the shareholder's advances made by ALCO to SLDC. On October 1, 2019, ALCO incorporated KHI as the designated joint venture company.

In 2020, ALCO transferred all of its shares in SLDC, representing 98% ownership over SLDC, to KHI. In June 2020, ALCO sold 5 million common shares in KHI with total par value of ₱5.0 million, representing 40% ownership over KHI, to MEC for ₱275.0 million (see Note 16). The transfer of KHI's shares decreased the effective ownership of ALCO over SLDC from 98% to 59%.

In 2019, the Parent Company subscribed to 100% shares of Bhavana, Bhavya and PLI. In December 2021, the Parent Company sold, transferred and conveyed 10.0 million common shares each of Bhavana and Bhavya representing 40% ownership and voting rights, as well as the Parent Company's shareholder advances, to Narra Properties Investment PTE. LTD (Narra), a corporation duly organized and existing under the laws of Singapore (see Note 4).

In December 2021, the Parent Company purchased 214,351 common and 118,982 preferred shares representing 40% of the ownership and voting rights of CLLC for ₱113.2 million from Rock and Salt B.V. (RSBV) resulting to 100% ownership in CLLC (see Note 4).

Major Projects

ALCO's first major development project is the Arya Residences Towers 1 and 2 (Arya Residences) located in BGC, Taguig City. Arya Residences is the first top-market residential condominium development in the Philippines to be awarded with Leadership in Energy and Environmental Design (LEED) Gold certification by the US Green Building Council (USGBC) and Building for Ecologically Responsive Design Excellence (BERDE) 4-Star rating by the Philippine Green Building Council (PHILGBC). The Arya Residences was completed on December 31, 2016.

In 2014, the Parent Company started the construction of Arthaland Century Pacific Tower (ACPT) in BGC, ALCO's flagship office project. ACPT is a 30-storey AAA-grade office building designed by Skidmore, Owings & Merrill (SOM), the same group that penned the One World Trade Center and Burj Khalifa in Dubai. ACPT secured the LEED Platinum and BERDE 5-star certification in 2018. ACPT became the first office building in the Philippines to secure the dual certification of the highest rating from USGBC LEED as Platinum and PHILGBC's BERDE as 5-star rated. It is registered with the Philippine Economic Zone Authority (PEZA) as an Ecozone Facilities Enterprise (see Note 23) and was completed in the 1st quarter of 2019.

In 2019, the International Finance Corporation, a member of the World Bank Group, recognized ACPT as the world's first net zero certified building under its EDGE green building rating system. This recognition is in addition its LEED and BERDE certification achieved previously. In 2020 until to-date, ACPT was awarded with the WELL Health-Safety Rating seal by the International WELL Building Institute (IWBI) which certifies the building's safe operations even during the COVID-19 pandemic.

In 2016, CLLC commenced the development of Cebu Exchange Project (Cebu Exchange), a 38-storey office building in Barangay Lahug, Cebu City. The Cebu Exchange was awarded the LEED Gold precertification and BERDE Design 5-Star. In 2020, the project was awarded WELL precertification by IWBI. Besides being designed to be a world-class workplace, Cebu Exchange is envisioned to be a complete ecosystem, with four retail floors for the convenience of its occupants. With a gross floor area of 108,564 sqm, Cebu Exchange boasts of being the largest multi-certified green and healthy building in the country. The construction of Cebu Exchange commenced in the second quarter of 2018 and is expected to be completed in 2022.

In 2018, Cazneau started the construction of the first phase of Sevina Park, an integrated community project in an eight-hectare property in Laguna. The initial development called Courtyard Hall, covering the first 4,000 sqm of the property, is a campus-type or dormitory-type residential community (see Note 10). This was completed in June 2019. Also, in June 2019, Cazneau launched the Garden Villas at Sevina Park which cater to students and faculty population, and starter families within the area. The entire project, which will include retail spaces, is expected to be completed in from 2022 onward.

Sevina Park is recognized as the first and only real estate development in the Philippines to have received the LEED Platinum under the LEED for Neighborhood Development (LEED ND) and LEED for Homes categories. Likewise, Sevina Park Villas turnover units are on track to EDGE Advanced under the EDGE and the remaining Villa-182 turnover units for Gold certification under the LEED for Homes. Sevina Park's 4-Bedroom Villa 182 Model Unit initiated the Villa's certification process by achieving LEED Platinum certification in 2020.

In December 2018, ZLDC acquired about 47.4% of a 2,018-sqm property located along Antonio Arnaiz Avenue within the Makati Central Business District. On this site, ZLDC, together with the other party which acquired the remaining 52.6% of the total area of the condominium units are still working on getting the property partitioned to enable the Company to have 100% ownership over 47.4% of the land area of the Property, which is equivalent to 957 square meters. Once the partition is completed, the Company plans to develop its portion into a high-end, sustainable, multi-certified residential project.

In February 2019, SLDC launched the development of Savva Financial Center. This project is composed of two office towers with a gross floor area of 59,763 sqm and located in Arca South, Taguig City. The North and South Tower (of the Savva Financial Tower) is expected to be completed in 2022. Savva's North Tower was launched for pre-selling in February 2019. Also in 2019, the project received LEED Gold precertification and in 2021, WELL precertification.

In August 2019, Bhavya started acquiring a prime property located inside the Makati Central Business District. Bhavya intends to develop therein a pioneer residential project which will be a low-density, multi-certified, ultra-luxury development that will offer large, limited edition designer residences. Once completed, its future residents will enjoy exceptional white glove butler services. This project offers only 37 residential units and will have a total gross floor area of approximately 14,600 sqm. It will be formally launched in 2022.

In July 2021, Bhavana launched the development of Lucima Residences. The property will be developed into the first and only premiere, multi-certified, sustainable high-rise development located in Cebu Business Park at the Corner Samar Loop Road and Ayala, Hipodromo, Cebu City. It has a total area of 2,245 sqm and is expected to be developed into approximately 28,000 sqm of GFA and will offer 263 residential units. The project is on-track to achieve quadruple certification including LEED, BERDE, EDGE and WELL certifications from USGBC, PHILGBC, IFC and IWBI (International WELL Building Institute). Lucima was launched in July 2021 and is expected to be completed by the fourth quarter of 2024.

Approval of the Consolidated Financial Statements

The consolidated financial statements of the Group as at December 31, 2021 and 2020 and for the years ended December 31, 2021, 2020 and 2019 were approved and authorized for issue by the BOD on March 23, 2022, as reviewed and recommended for approval by the Audit Committee on the same date.

2. Summary of Significant Accounting Policies

Basis of Preparation

The consolidated financial statements of the Group have been prepared in compliance with Philippine Financial Reporting Standards (PFRS), as modified by the application of financial reporting relief issued and approved by the Philippine SEC in response to the COVID-19 pandemic. This financial reporting framework includes PFRS, Philippine Accounting Standards (PAS) and Philippine Interpretations from International Financial Reporting Interpretations Committee (IFRIC).

In December 2020, the SEC issued Memorandum Circular (MC) No. 34, Series of 2020, which further extended the deferral of application of the provisions of Philippine Interpretations Committee (PIC) Question & Answer (Q&A) No. 2018-12 with respect to accounting for significant financing component and exclusion of land in the calculation of percentage of completion (POC) and IFRIC Agenda Discussion on over time transfers of constructed goods under PAS 23, *Borrowing Cost*, for another period of three years or until 2023.

The Group opted to avail the relief in connection with the accounting for significant financing component, exclusion of land in the calculation of POC and accounting for borrowing costs. The impact of the application of such financial reporting relief is discussed in "Adoption of Amendments to PFRS and PIC Issuances Issued but Not Yet Effective or Adopted" section of notes to the consolidated financial statements.

Measurement Bases

The consolidated financial statements are presented in Philippine Peso (Peso), the Group's functional and presentation currency. Functional currency is the currency of the primary economic environment in which the Group operates. All values are stated in absolute amounts, unless otherwise indicated.

The consolidated financial statements of the Group have been prepared on a historical cost basis, except for investments in money market fund and investment properties, which are carried at fair value, and net retirement liability, which is carried at the present value of the defined benefit obligation. Historical cost is generally based on the fair value of the consideration given in exchange for an asset or fair value of consideration received in exchange for incurring liability.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- in the principal market for the asset or liability; or
- in the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a nonfinancial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

When measuring the fair value of an asset or a liability, the Group uses market observable data to the extent possible. If the fair value of an asset or a liability is not directly observable, it is estimated by the Group (working closely with external qualified valuers) using valuation techniques that maximize the use of relevant observable inputs and minimize the use of unobservable inputs (e.g. by use of the market comparable approach that reflects recent transaction prices for similar items, discounted cash flow analysis, or option pricing models refined to reflect the issuer's specific circumstances). Inputs used are consistent with the characteristics of the asset or liability that market participants would take into account.

Further information about assumptions made in measuring fair values is included in the following:

- Note 3 - Significant Judgments, Accounting Estimates and Assumptions
- Note 7 - Financial Assets at Fair Value through Profit or Loss (FVPL)
- Note 10 - Investment Properties
- Note 28 - Fair Value Measurement

Fair values are categorized into different levels in a fair value hierarchy based on the degree to which the inputs to the measurement are observable and the significance of the inputs to the fair value measurement in its entirety:

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Transfers between levels of the fair value hierarchy are recognized by the Group at the end of the reporting period during which the change occurred.

Adoption of PIC Issuances

The accounting policies adopted are consistent with those of the previous financial year, except for the adoption of the following PIC issuances which the Group adopted effective for annual periods beginning on or after January 1, 2021 -

PIC Q&A 2020-05 Accounting for Cancellation of Real Estate Sales – Under this PIC Q&A the sales cancellation and repossession of the property may be accounted by using any of the three approaches (a) the repossessed property is recognized at fair value less cost to repossess; (b) the repossessed property is recognized at fair value plus repossession cost; or (c) the cancellation is accounted for as a modification of the contract where the Group will have to reverse the previously recognized revenues and related costs. The approach selected shall be applied consistently.

Under prevailing circumstances, the adoption of the foregoing did not have any material effect on the consolidated financial statements. Additional disclosures were included in the notes to consolidated financial statements, as applicable.

Amendments to PFRS and PIC Issuances in Issue But Not Yet Effective or Adopted

Relevant amended PFRS which are not yet effective and have not been applied in preparing the consolidated financial statements are summarized below.

Effective for annual periods beginning on or after January 1, 2022:

- Amendments to PFRS 3, *Reference to Conceptual Framework* – The amendments will replace the reference of PFRS 3 from the 1989 Framework to the current 2018 Conceptual Framework. The amendments include an exception that specifies that, for some types of liabilities and contingent liabilities, an entity applying PFRS 3 should refer to PAS 37, *Provisions, Contingent Liabilities and Contingent Assets*, or IFRIC 21, *Levies*, instead of the Conceptual Framework. The requirement will ensure that the liabilities recognized in a business combination will remain the same as those recognized applying the current requirements in PFRS 3. The amendments also clarified that an acquirer shall not recognize contingent assets acquired in a business combination. The amendments should be applied prospectively.
- Amendments to PAS 16, *Property, Plant and Equipment - Proceeds Before Intended Use* – The amendments prohibit deducting from the cost of property, plant and equipment any proceeds from selling items produced while bringing that asset to the location and condition necessary for its intended use. Instead, the proceeds and related costs from such items shall be recognized in profit or loss. The amendments must be applied retrospectively to items of property, plant and equipment made available for use on or after the beginning of the earliest period presented when an entity first applied the amendments.
- Amendments to PAS 37, *Onerous Contracts - Cost of Fulfilling a Contract* – The amendments clarify that for the purpose of assessing whether a contract is onerous, the cost of fulfilling a contract comprises both the incremental costs of fulfilling that contract and an allocation of costs directly related to contract activities. The amendments apply to contracts existing at the date when the amendments are first applied. At the date of initial application, the cumulative effect of applying the amendments is recognized as an opening balance adjustment to retained earnings or other component of equity, as applicable. Accordingly, the comparatives are not restated. Earlier application is permitted.

- Annual Improvements to PFRS 2018 to 2020 Cycle –
 - Amendment to PFRS 9, *Financial Instruments - Fees in the '10 per cent' Test for Derecognition of Financial Liabilities* – The amendment clarifies which fees an entity shall include when it applies the '10 per cent' test in assessing whether to derecognize a financial liability (i.e. whether the terms of a new or modified financial liability is substantially different from the terms of the original financial liability). These fees include only those paid or received between the borrower and the lender, including fees paid or received by either the borrower or the lender on the other's behalf. The amendment applies to financial liabilities that are modified or exchanged on or after the beginning of the annual reporting period in which the entity first applied the amendments. Earlier application is permitted.

Effective for annual periods beginning on or after January 1, 2023 -

- Amendments to PAS 1, *Classification of Liabilities as Current or Non-current* – The amendments clarify the requirements for an entity to have the right to defer settlement of the liability for at least 12 months after the reporting period. The amendments also specify and clarify the following: (i) an entity's right to defer settlement must exist at the end of the reporting period, (ii) the classification is unaffected by management's intentions or expectations about whether the entity will exercise its right to defer settlement, (iii) how lending conditions affect classification, and (iv) requirements for classifying liabilities where an entity will or may settle by issuing its own equity instruments. The amendments must be applied retrospectively. Earlier application is permitted.
- Amendments to PAS 1 and PFRS Practice Statement 2, *Disclosure Initiative – Accounting Policies* – The amendments require an entity to disclose its material accounting policies, instead of its significant accounting policies and provide guidance on how an entity applies the concept of materiality in making decisions about accounting policy disclosures. In assessing the materiality of accounting policy information, entities need to consider both the size of the transactions, other events or conditions and its nature. The amendments clarify (1) that accounting policy information may be material because of its nature, even if the related amounts are immaterial, (2) that accounting policy information is material if users of an entity's financial statements would need it to understand other material information in the financial statements, and (3) if an entity discloses immaterial accounting policy information, such information should not obscure material accounting policy information. In addition, PFRS Practice Statement 2, *Making Materiality Judgements*, is amended by adding guidance and examples to explain and demonstrate the application of the 'four-step materiality process' to accounting policy information. The amendments should be applied prospectively. Earlier application is permitted.
- Amendments to PAS 8, *Definition of Accounting Estimates* – The amendments clarify the distinction between changes in accounting estimates and changes in accounting policies, and the correction of errors. Under the new definition, accounting estimates are "monetary amounts in financial statements that are subject to measurement uncertainty". An entity develops an accounting estimate if an accounting policy requires an item in the financial statements to be measured in a way that involves measurement uncertainty. The amendments clarify that a change in accounting estimate that results from new information or new developments is not a correction of an error, and that the effects of a change in an input or a measurement technique used to develop an accounting estimate are changes in accounting estimates if they do not result from the correction of prior period errors. A change in an accounting estimate may affect only the profit or loss in the current period, or the profit or loss of both the current and future periods. Earlier application is permitted.

- Amendments to PAS 12, *Deferred Tax Related Assets and Liabilities from a Single Transaction* – The amendments require companies to recognize deferred tax on transactions that, on initial recognition, give rise to equal amounts of taxable and deductible temporary differences. Earlier application is permitted.

Deferred effectivity:

- Amendments to PFRS 10, *Consolidated Financial Statements*, and PAS 28 - *Sale or Contribution of Assets Between an Investor and its Associate or Joint Venture* – The amendments address a conflicting provision under the two standards. It clarifies that a gain or loss shall be recognized fully when the transaction involves a business, and partially if it involves assets that do not constitute a business. The effective date of the amendments, initially set for annual periods beginning on or after January 1, 2016, was deferred indefinitely in December 2015 but earlier application is still permitted.
- *IFRIC Agenda Decision on Over Time Transfer of Constructed Goods (PAS 23, Borrowing Cost) for the Real Estate Industry* – In March 2019, IFRIC published an Agenda Decision on whether borrowing costs can be capitalized on real estate inventories that are under construction and for which the related revenue is/will be recognized over time under paragraph 35(c) of International Financial Reporting Standards 15 (PFRS 15). IFRIC concluded that borrowing costs cannot be capitalized for such real estate inventories as they do not meet the definition of a qualifying asset under PAS 23 considering that these inventories are ready for their intended sale in their current condition.

On December 15, 2020, the SEC issued SEC MC No. 34, Series of 2020, which extends the relief on the application of the IFRIC Agenda Decision provided to the real estate industry until December 31, 2023.

The Group availed of the SEC relief with respect to accounting for borrowing costs. Had the Group opted to adopt in full the guidance provided in the IFRIC agenda decision on over time transfer of constructed goods, borrowing costs would have been recognized as expense when incurred.

- PIC Q&A 2018-12, *PFRS 15 Implementing Issues Affecting the Real Estate Industry (as amended by PIC Q&A 2020-04)*. On December 15, 2020, the SEC issued SEC MC No. 34-2020 providing relief to the real estate industry by deferring the application of “assessing if the transaction price includes a significant financing component as discussed in PIC Q&A 2018-12-D (as amended by PIC Q&A 2020-04)” and the exclusion of land in the calculation of POC, until December 31, 2023.

The Group availed of the SEC relief with respect to accounting for significant financing component and exclusion of land in the calculation of POC. Accordingly, revenue from real estate sales is not adjusted for the effect of the time value of money, and the total cost incurred and total estimated cost to complete includes the cost of land.

Had the Group opted to adopt PIC Q&A 2018-12, there would have been a decrease in revenue from real estate sales because of a lower POC rate. In addition, the Group may have to recognize interest expense (income) if the buyers’ payments are higher (lower) than the POC rate.

Under prevailing circumstances, the adoption of the foregoing amendments to PFRS and PIC issuances, except for the potential impact of accounting for borrowing costs, the assessment if the transaction price includes a significant financing component and the exclusion of land in the calculation of POC, is not expected to have any material effect on the consolidated financial statements of the Group. Additional disclosures will be included in the consolidated financial statements, as applicable.

Basis of Consolidation

Subsidiaries. Subsidiaries are entities controlled by the Parent Company. Control is achieved when the Parent Company is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Parent Company controls an investee if and only if the Parent Company has:

- power over investee;
- exposure, or rights, to variable returns from its involvement with the investee; and
- the ability to use its power over the investee affect its returns.

Subsidiaries are consolidated from the date of acquisition or incorporation, being the date on which the Parent Company obtains control, and continue to be consolidated until the date such control ceases.

The financial statements of the subsidiaries are prepared using the same reporting period of the Parent Company. Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. Intercompany balances and transactions, including intercompany profits and unrealized profits and losses, are eliminated in full.

A change in ownership interest of a subsidiary, without a change of control, is accounted for as an equity transaction. Upon the loss of control, the Group derecognizes the assets and liabilities of the subsidiary, any non-controlling interests and the other components of equity related to the subsidiary. Any surplus or deficit arising from the loss of control is recognized in profit or loss. If the Group retains interest in the previous subsidiary, then such interest is measured at fair value at the date control is lost. Subsequently, it is accounted for as an equity-accounted investee or as financial assets at fair value through other comprehensive income (FVOCI) depending on the level of influence retained.

Non-controlling interest represents the portion of profit or loss and net assets not held by the Parent Company and is presented separately in the Group's consolidated statements of comprehensive income and within equity in the Group's consolidated statements of financial position, separate from equity attributable to equity holders of the Parent Company, respectively.

Financial Assets and Liabilities

Date of Recognition. The Group recognizes a financial asset or a financial liability in the consolidated statements of financial position when it becomes a party to the contractual provisions of a financial instrument. In the case of a regular way purchase or sale of financial assets, recognition and derecognition, as applicable, is done using settlement date accounting.

Initial Recognition and Measurement. Financial instruments are recognized initially at fair value, which is the fair value of the consideration given (in case of an asset) or received (in case of a liability). The initial measurement of financial instruments, except for those designated at FVPL, includes transaction costs.

“Day 1” Difference. Where the transaction in a non-active market is different from the fair value of other observable current market transactions in the same instrument or based on a valuation technique whose variables include only data from observable market, the Group recognizes the difference between the transaction price and fair value (a “Day 1” difference) in profit or loss.

In cases where there is no observable data on inception, the Group deems the transaction price as the best estimate of fair value and recognizes “Day 1” difference in profit or loss when the inputs become observable or when the instrument is derecognized. For each transaction, the Group determines the appropriate method of recognizing the “Day 1” difference.

Classification. The Group classifies its financial assets at initial recognition under the following categories: (a) financial assets at FVPL, (b) financial assets at amortized cost and (c) financial assets at FVOCI. Financial liabilities, on the other hand, are classified as either financial liabilities at FVPL or financial liabilities at amortized cost. The classification of a financial instrument largely depends on the Group’s business model and its contractual cash flow characteristics.

As at December 31, 2021 and 2020, the Group does not have financial assets at FVOCI and financial liabilities at FVPL.

Financial Assets at FVPL. Financial assets at FVPL are either classified as held for trading or designated at FVPL. A financial instrument is classified as held for trading if it meets either of the following conditions:

- it is acquired or incurred principally for the purpose of selling or repurchasing it in the near term;
- on initial recognition, it is part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit-taking; or
- it is a derivative (except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument).

This category includes equity instruments which the Group had not irrevocably elected to classify at FVOCI at initial recognition. This category includes debt instruments whose cash flows are not “solely for payment of principal and interest” assessed at initial recognition of the assets, or which are not held within a business model whose objective is either to collect contractual cash flows, or to both collect contractual cash flows and sell.

The Group may, at initial recognition, designate a financial asset meeting the criteria to be classified at amortized cost or at FVOCI, as a financial asset at FVPL, if doing so eliminates or significantly reduces accounting mismatch that would arise from measuring these assets.

After initial recognition, financial assets at FVPL are subsequently measured at fair value. Unrealized gains or losses arising from the fair valuation of financial assets at FVPL are recognized in profit or loss.

As at December 31, 2021 and 2020, the Group classified its investments in money market fund under this category (see Note 7).

Financial Assets at Amortized Cost. Financial assets shall be measured at amortized cost if both of the following conditions are met:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise, on specified dates, to cash flows that are solely payments of principal and interest on the principal amount outstanding.

After initial recognition, financial assets at amortized cost are subsequently measured at amortized cost using the effective interest method, less allowance for impairment, if any. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees that are an integral part of the effective interest rate. Gains and losses are recognized in profit or loss when the financial assets are derecognized and through amortization process. Financial assets at amortized cost are included under current assets if realizability or collectability is within 12 months after the reporting period. Otherwise, these are classified as noncurrent assets.

As at December 31, 2021 and 2020, the Group's contract assets, cash in banks, cash equivalents, receivables (excluding accrued rent under straight-line basis of accounting), amounts held in escrow, and deposits are classified under this category (see Notes 5, 6, 8, and 12).

Cash in banks are demand deposits with banks and earn interest at prevailing bank deposit rates. Meanwhile, cash equivalents are short-term highly liquid investments that are readily convertible into known amounts of cash, which are subject to an insignificant risk of changes in value and which have a maturity of three (3) months or less at acquisition.

Financial Liabilities at Amortized Cost. Financial liabilities are categorized as financial liabilities at amortized cost when the substance of the contractual arrangement results in the Group having an obligation either to deliver cash or another financial asset to the holder, or to settle the obligation other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of its own equity instruments.

These financial liabilities are initially recognized at fair value less any directly attributable transaction costs. After initial recognition, these financial liabilities are subsequently measured at amortized cost using the effective interest method. Amortized cost is calculated by taking into account any discount or premium on the issue and fees that are an integral part of the effective interest rate. Gains and losses are recognized in profit or loss when the liabilities are derecognized or through the amortization process.

As at December 31, 2021 and 2020, the Group's loans and bonds payable, accounts payable and other liabilities (excluding statutory payables, payable to buyers and advance rent), contract liabilities and due related parties are classified under this category (see Notes 13, 14, 15 and 24).

Reclassification

The Group reclassifies its financial assets when, and only when, it changes its business model for managing those financial assets. The reclassification is applied prospectively from the first day of the first reporting period following the change in the business model (reclassification date).

For a financial asset reclassified out of the financial assets at amortized cost category to financial assets at FVPL, any gain or loss arising from the difference between the previous amortized cost of the financial asset and fair value is recognized in profit or loss.

For a financial asset reclassified out of the financial assets at amortized cost category to financial assets at FVOCI, any gain or loss arising from a difference between the previous amortized cost of the financial asset and fair value is recognized in other comprehensive income (OCI).

For a financial asset reclassified out of the financial assets at FVPL category to financial assets at amortized cost, its fair value at the reclassification date becomes its new gross carrying amount.

For a financial asset reclassified out of the financial assets at FVPL category to financial assets at FVOCI, its fair value at the reclassification date becomes its new gross carrying amount. Meanwhile, for a financial asset reclassified out of the financial assets at FVOCI category to financial assets at FVPL, the cumulative gain or loss previously recognized in OCI is reclassified from equity to profit or loss as a reclassification adjustment at the reclassification date.

Impairment of Financial Assets at Amortized Cost

The Group records an allowance for expected credit loss (ECL). ECL is based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive. The difference is then discounted at an approximation to the asset's original effective interest rate.

For trade receivables and contract assets, the Group has applied the simplified approach and has calculated ECL based on the lifetime ECL. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

For other financial assets measured at amortized cost, the ECL is based on the 12-month ECL, which pertains to the portion of lifetime ECL that result from default events on a financial instrument that are possible within 12 months after the reporting date. However, when there has been a significant increase in credit risk since initial recognition, the allowance will be based on the lifetime ECL. When determining whether the credit risk of a financial asset has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and consider reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since initial recognition.

Derecognition of Financial Assets and Liabilities

Financial Assets. A financial asset (or where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized when:

- the right to receive cash flows from the asset has expired;
- the Group retains the right to receive cash flows from the financial asset, but has assumed an obligation to pay them in full without material delay to a third party under a "pass-through" arrangement; or
- the Group has transferred its right to receive cash flows from the financial asset and either (a) has transferred substantially all the risks and rewards of the asset, or (b) has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its right to receive cash flows from a financial asset or has entered into a pass-through arrangement, and has neither transferred nor retained substantially all the risks and rewards of ownership of the financial asset nor transferred control of the financial asset, the financial asset is recognized to the extent of the Group's continuing involvement in the financial asset. Continuing involvement that takes the form of a guarantee over the transferred financial asset is measured at the lower of the original carrying amount of the financial asset and the maximum amount of consideration that the Group could be required to repay.

Financial Liabilities. A financial liability is derecognized when the obligation under the liability is discharged, cancelled or has expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in the consolidated statements of comprehensive income.

A modification is considered substantial if the present value of the cash flows under the new terms, including net fees paid or received and discounted using the original effective interest rate, is different by at least 10% from the discounted present value of remaining cash flows of the original liability.

The fair value of the modified financial liability is determined based on its expected cash flows, discounted using the interest rate at which the Group could raise debt with similar terms and conditions in the market. The difference between the carrying amount of the original liability and fair value of the new liability is recognized in the consolidated statements of comprehensive income.

On the other hand, if the difference does not meet the 10% threshold, the original debt is not extinguished but merely modified. In such case, the carrying amount is adjusted by the costs or fees paid or received in the restructuring.

Offsetting of Financial Assets and Liabilities

Financial assets and financial liabilities are offset and the net amount reported in the consolidated statements of financial position if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is intention to settle on a net basis, or to realize the asset and settle the liability simultaneously. This is not generally the case with master netting agreements, and the related assets and liabilities are presented gross in the consolidated statements of financial position.

Classification of Financial Instrument between Liability and Equity

A financial instrument is classified as liability if it provides for a contractual obligation to:

- Deliver cash or another financial asset to another entity;
- Exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavorable to the Group; or
- Satisfy the obligation other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of own equity shares.

If the Group does not have an unconditional right to avoid delivering cash or another financial asset to settle its contractual obligation, the obligation meets the definition of a financial liability.

Classification of Assets and Liabilities between Current and Noncurrent

The Group presents current and noncurrent assets, and current and noncurrent liabilities, as separate classifications in the notes to consolidated financial statements (see Note 29).

Current Assets. The Group classifies an asset as current when:

- It expects to realize the asset, or intends to sell or consume it, in its normal operating cycle;
- It holds the asset primarily for the purpose of trading;
- It expects to realize the asset within 12 months after the reporting period; or
- The asset is cash or a cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period.

Otherwise, the Group will classify all other assets as noncurrent.

Current Liabilities. The Group classifies a liability as current when:

- It expects to settle the liability in its normal operating cycle;
- It holds the liability primarily for the purpose of trading;
- The liability is due to be settled within 12 months after the reporting period; or
- It does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Otherwise, the Group will classify all other liabilities as noncurrent.

Cost to Obtain a Contract with a Customer

The Group recognizes an asset for the incremental cost of obtaining a contract with a customer if the Group expects to recover those costs. Otherwise, those costs are recognized as expense when incurred. The incremental costs of obtaining a contract are those costs that the Group incurs to obtain a contract such as, but not limited to, sales commissions paid to sales agents and nonrefundable direct taxes incurred in obtaining a contract.

Contract Balances

Contract Assets. A contract asset represents the Group's right to a consideration in exchange for goods or services that the Group has transferred to a customer when that right is conditioned on something other than a passage of time. If the Group transferred goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognized for that earned consideration that is conditional. Contract assets are reclassified to receivables from sale of real estate upon completion of the performance obligation. Contract assets pertain to unbilled receivables from sale of office units which is computed based on POC.

Receivables from Sale of Real Estate. A receivable from sale of real estate represents the Group's right to a consideration that is unconditional. A right to a consideration is unconditional if only the passage of time is required before payment of that consideration is due.

Contract Liabilities. A contract liability represents the Group's obligation to transfer goods to a customer for which the Group has received a consideration from the customer. If a customer pays a consideration before the Group transfers goods to the customer, a contract liability is recognized when the payment is made or the payment is due, whichever is earlier. Contract liabilities are recognized as revenue when the Group performs under the contract.

Debt Issue Costs

Debt issue costs are considered as an adjustment to the effective yield of the related debt and are deferred and amortized using the effective interest rate method. When a loan is paid, the related unamortized debt issue costs at the date of repayment are recognized in profit or loss. Unamortized debt issue costs is presented against the carrying amount of related debt.

Real Estate for Sale

Property acquired or being constructed for sale in the ordinary course of business, rather than to be held for rental or capital appreciation, is held as inventory and is measured at the lower of cost and net realizable value (NRV).

Cost includes acquisition cost plus any other directly attributable costs of developing the asset to its saleable condition and costs of improving the properties up to the reporting date. Directly attributable costs include amounts paid to contractors, borrowing costs, planning and designing costs, costs of site preparation and construction overheads.

NRV is the estimated selling price in the ordinary course of the business, based on market prices at the reporting date and discounted for the time value of money if material, less estimated costs to complete and the estimated costs to sell. NRV in respect of land under development is assessed with reference to market prices at the reporting date for similar completed property, less estimated costs to complete the construction and less an estimate of the time value of money to the date of completion.

Borrowing Costs

Borrowing costs directly attributable to the acquisition or construction of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective assets. All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

The interest capitalized is calculated using the Group's weighted average cost of borrowings after adjusting for borrowings associated with specific developments. When borrowings are associated with specific developments, the amounts capitalized is the gross interest incurred on those borrowings less any investment income arising on their temporary investment. Interest is capitalized from the commencement of the development work until the date of practical completion. The capitalization of finance costs is suspended if there are prolonged periods when development activity is interrupted. Interest is also capitalized on the purchase cost of a site of property acquired specifically for redevelopment, but only where activities necessary to prepare the asset for redevelopment are in progress.

Investment Properties

Investment properties are properties held either to earn rental income or for capital appreciation or both, but not for sale in the ordinary course of business or for administrative purposes.

The Group uses fair value model for the accounting of its investment properties. Under this method, investment properties are initially measured at cost but are subsequently remeasured at fair value at each reporting date, which reflects market conditions at the reporting date. Cost comprises the purchase price and any directly attributable costs in developing and improving the properties. Cost also includes the cost of replacing part of an existing investment property at the time that cost is incurred if the recognition criteria are met. The fair value of investment properties is determined using market data approach, income approach and cost approach by an independent real estate appraiser. Gains or losses arising from changes in the fair values of investment properties are included in profit or loss in the period in which they arise, including the corresponding tax effect. For the purposes of these consolidated financial statements, in order to avoid double counting, the fair value reported in the consolidated financial statements is reduced by the carrying amount of any accrued income resulting from the spreading of lease incentives and minimum lease payments.

Transfers are made to investment property when, and only when, there is a change in use, evidenced by the ending of owner-occupation, commencement of an operating lease to another party or ending of the construction or development. Transfers are made from investment property when, and only when, there is a change in use, evidenced by the commencement of owner occupation or commencement of development with a view to sell.

Investment properties are derecognized when either those have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gain or loss on the retirement or disposal of an investment property is recognized in the consolidated statements of comprehensive income in the year of retirement or disposal.

Property and Equipment

Property and equipment are carried at cost less accumulated depreciation and amortization and any impairment losses.

The initial cost of property and equipment consists of the purchase price, including import duties, borrowing costs (during the construction period) and other costs directly attributable to bring the asset to its working condition and location for its intended use. Cost also includes the cost of replacing parts of such property and equipment when the recognition criteria are met and the present value of the estimated cost of dismantling and removing the asset and restoring the site where the asset is located.

Expenditures incurred after the property and equipment have been put into operation, such as repairs, maintenance and overhaul costs, are normally charged to operations in the year the costs are incurred. In situations where it can be clearly demonstrated that the expenditures have resulted in an increase in the future economic benefits expected to be obtained from the use of an item of property and equipment beyond its originally assessed standard of performance, the expenditures are capitalized as additional costs of property and equipment.

Depreciation and amortization are calculated on a straight-line basis over the following estimated useful lives of the property and equipment:

	Number of Years
Building and building improvements	50
Transportation and other equipment	3 to 5
Office equipment	3 to 5
Furniture and fixtures	3
Leasehold improvements	3 to 5 or lease term, whichever is shorter

The estimated useful lives and depreciation and amortization method are reviewed periodically to ensure that the periods and method of depreciation and amortization are consistent with the expected pattern of economic benefits from items of property and equipment.

Fully-depreciated assets are retained in the account until they are no longer in use and no further change for depreciation is made in respect to those assets.

Construction in progress is stated at cost. This includes cost of construction and other direct costs. Construction in progress is not depreciated until such time that the relevant assets are completed and available for operational use.

An item of property and equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the year the asset is derecognized.

Other Assets

Other assets include input value-added tax (VAT), advances for project development, creditable withholding taxes (CWT), advances for asset purchase, amounts held in escrow (classified as financial assets), prepayments, deposits (classified as financial assets), deferred input VAT, and materials and supplies.

VAT. Revenues, expenses and assets are recognized net of the amount of VAT except:

- where VAT incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case the VAT is recognized as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- where receivables and payables that are stated with the amount of VAT included.

The net amount of VAT recoverable from, or payable to, the tax authority is included as part of "Other assets" or "Accounts payable and other liabilities" accounts, respectively, in the consolidated statements of financial position.

Advances for Project Development. Advances for project development are recognized whenever the Group pays in advance for its purchase of goods or services. These are measured at transaction price less impairment in value, if any.

Creditable Withholding Taxes (CWT). CWT represents the amount withheld by the Group's customers in relation to its income. CWT can be utilized as payment for income taxes provided that these are properly supported by certificates of creditable tax withheld at source subject to the rules on Philippine income taxation.

Advances for Asset Purchase. Advances for asset purchase are recognized whenever the Company pays in advance for land. These are measured at transaction price less impairment in value, if any.

Prepayments. Prepayments are expenses paid in advance and recorded as assets before these are utilized. Prepayments are apportioned over the period covered by the payment and charged to profit or loss when incurred. Prepayments that are expected to be realized for no more than 12 months after the reporting period are classified as current assets. Otherwise, these are classified as noncurrent assets.

Deferred Input VAT. In accordance with the Revenue Regulation (RR) No. 16-2005, input VAT on purchases or imports of the Group of capital goods (depreciable assets for income tax purposes) with an aggregate acquisition cost (exclusive of VAT) in each of the calendar month exceeding ₱1.0 million are claimed as credit against output VAT over 60 months or the estimated useful lives of capital goods, whichever is shorter. Deferred input VAT represents the unamortized amount of input VAT on capital goods. Deferred input VAT that are expected to be claimed against output VAT for no more than 12 months after the financial reporting period are classified as current assets. Otherwise these are classified as noncurrent assets.

Where the aggregate acquisition cost (exclusive of VAT) of the existing or finished depreciable capital goods purchased or imported during any calendar month does not exceed ₱1.0 million, the total input VAT will be allowable as credit against output VAT in the month of acquisition.

Materials and Supplies. The Group recorded as assets several excess construction materials and supplies from the completed construction of its projects. Materials and supplies are stated at lower of cost and NRV.

Impairment of Nonfinancial Assets

The carrying amounts of the Group's nonfinancial assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's net recoverable amount is estimated.

Any impairment loss is recognized if the carrying amount of an asset or its cash-generating unit (CGU) exceeds its net recoverable amount. A CGU is the smallest identifiable asset group that generates cash flows that are largely independent from other assets of the Group. Impairment losses are recognized in profit or loss in the period incurred.

The net recoverable amount of an asset is the greater of its value in use or its fair value less costs to sell. Value in use is the present value of future cash flows expected to be derived from an asset while fair value less cost to sell is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable and willing parties less costs of disposal. In assessing value in use, the estimated future cash flows are discounted to their present values using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

Impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss has been recognized.

Payable to Customers

Payable to customers consist of amounts received by the Group from its tenants as reservation fees for lease or downpayments received from prospective buyers. These are recorded at face amount in the consolidated statements of financial position. These will be applied as security deposits upon execution of the lease contracts or against the total contract price of the real estate sale upon execution of contract to sell.

Advance Rent

Advance rent are initially recognized at the value of cash received, and will generally be applied as lease payments to the immediately succeeding months or in the last three (3) months of the lease term.

Capital Stock

Preferred Stock. The Group's preferred stocks are cumulative, nonvoting, nonparticipating and nonconvertible. Preferred stock is classified as equity if this is nonredeemable, or redeemable only at the Group's option, and any dividends thereon are discretionary. Dividends thereon are recognized as distributions within equity upon approval by the BOD of the Parent Company.

Preferred stock is classified as a liability if this is redeemable on a specific date or at the option of the shareholders, or if dividend payments are not discretionary. Dividends thereon are recognized as interest expense in profit or loss as accrued.

Common Stock. Common stock is measured at par value for all shares issued.

Additional Paid-in Capital

Additional paid-in capital is the proceeds and/or fair value of considerations received in excess of par value of the subscribed capital stock. Incremental costs incurred directly attributable to the issuance of new shares are recognized as deduction from equity, net of any tax. Otherwise, these are recognized as expense in profit or loss.

Treasury Shares

Treasury shares represent owner's equity instruments which are reacquired and deducted from equity. Treasury shares are accounted for at cost and shown as a deduction in the equity section of the consolidated statements of financial position. No gain or loss is recognized in profit or loss on the purchase, sale, issuance or cancellation of the Parent Company's own equity instruments.

Retained Earnings

Retained earnings represent the cumulative balance of net income or loss, net of any dividend declaration and prior period adjustments.

Other Comprehensive Income

Other components of equity comprise of items of income and expense that are not recognized in profit or loss for the year. Other comprehensive income pertains to cumulative remeasurement gains (losses) on net retirement liability.

Parent Company's Shares Held by a Subsidiary

Shares of the Parent Company held by a subsidiary are carried at cost and are deducted from equity. No gain or loss is recognized on the purchase, sale, issue or cancellation of the Parent Company's own equity instruments. When the shares are retired, the capital stock account is reduced by its par value and the excess of cost over par value upon retirement is debited to additional paid-in capital to the extent of the specific or average additional paid-in capital when the shares were issued and to retained earnings for the remaining balance.

Non-controlling Interests

Non-controlling interests represent the portion of net results and net assets not held by the Parent Company. These are within equity presented in the consolidated statements of financial position, separately from equity attributable to equity holders of the Parent Company and are separately disclosed in the consolidated statements of income and consolidated statements of comprehensive income. Non-controlling interests consist of the amount of those interests at the date of original business combination and the non-controlling interests' share on changes in equity since the date of the business combination.

Basic and Diluted Earnings per Share (EPS)

Basic EPS is computed by dividing the net income for the period attributable to common equity holders of the Parent Company by the weighted average number of issued and outstanding and subscribed common shares during the period, with retroactive adjustment for any stock dividends declared.

Diluted EPS is computed in the same manner, adjusted for the effects of any potentially dilutive convertible securities.

Revenue Recognition

Revenue from contract with customers is recognized when the performance obligation in the contract has been satisfied, either at a point in time or over time. Revenue is recognized over time if one of the following criteria is met: (a) the customer simultaneously receives and consumes the benefits as the Group perform its obligations; (b) the Group's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or (c) the Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date. Otherwise, revenue is recognized at a point in time.

Revenue from contracts with customers is recognized when control of the goods and services is transferred to the customer in an amount that reflects the consideration to which the Group expected to be entitled in exchange for those goods and services.

The Group also assesses its revenue arrangements to determine if it is acting as a principal or as an agent. The Group has assessed that it acts as a principal in all of its revenue sources.

The following specific recognition criteria must also be met before revenue is recognized.

Revenue from Real Estate Sales. Revenue from the sale of completed real estate project is accounted for using the full accrual method in which revenue is recognized at a point in time when control is transferred to a customer. The Group transfers control of real estate for sale under pre-completion contracts over time and, therefore, satisfies the performance obligations under the contract and recognizes revenue over time.

The Group considers a contract to sell as a valid revenue contract. The Group also assesses the probability that it will collect the consideration under the contract prior to recognizing revenue. This assessment is based on the customer's ability and intention to pay the amount of consideration when it is due. If any of the above criteria is not met, the deposit method is applied until all the conditions for recognizing revenue are met.

The Group recognizes revenue from real estate sales under pre-completion contracts based on POC using the input method in which revenue is recognized on the basis of costs incurred up until the end of the reporting period as a proportion of total costs expected to be incurred.

The Group opted to defer the application guidelines of the provisions of the PIC Q&A No. 2018-12 (*as amended by PIC Q&A 2020-05*) with respect to the accounting for significant financing component, uninstalled materials and the exclusion of land in the computation of POC for a period of three (3) years.

Accordingly, the consideration is not adjusted for the effects of the time value of money, and the total cost incurred and total estimated cost to complete including the cost of land.

For tax purposes, full recognition is applied when more than 25% of the selling price has been collected in the year of sale. Otherwise, the installment method is applied.

Leasing Revenue. Leasing revenue consists of rent income and common use service area (CUSA) fees. Rent income arising from operating leases on investment properties is recognized on a straight-line basis over the lease terms, except for contingent rental income, which is recognized in the period that it arises. Tenant lease incentives are recognized as a reduction of rental income on a straight-line basis over the term of the lease. The lease term is the non-cancellable period of the lease together with any further term for which the tenant has the option to continue the lease, where, at the inception of the lease, management is reasonably certain that the tenant will exercise that option. CUSA fees are recognized as income once earned. These are charged monthly and are based on the lessee's proportionate share on the common areas.

Amounts received from tenants to terminate leases or to compensate for dilapidations are recognized in profit or loss when the right to receive those amounts arises.

Property Management Fees. Revenue is recognized in profit or loss when the related services are rendered.

Interest Income. Interest income is recognized as the interest accrues, taking into account the effective yield on the asset.

Other Income. Income from other sources is recognized when earned during the period.

Cost and Expenses Recognition

Cost and expenses are decreases in economic benefits during the accounting period in the form of outflows or depletions of assets or incurrence of liabilities that result in decreases in equity, other than those relating to distributions to equity participants.

Cost of Real Estate Sales. Cost of real estate sales is recognized consistent with the revenue recognition method applied. Cost of condominium units sold before the completion of the development is determined on the basis of the acquisition cost of the land plus its full development costs, which include estimated costs for future development works.

Cost of Leasing Operations. Cost of leasing operations, which constitute direct cost incurred in relation to the leasing of properties of the Group which includes ACPT, Cazneau's dormitory units and MPI's commercial units, is recognized as expense when incurred.

Cost of Services. Cost of services, which constitute direct cost incurred in relation to EPMI's provision of property management services, is recognized as expense when services are rendered.

Operating Expenses. Operating expenses constitute cost of administering the business and cost incurred to sell and market its products and services. These are recognized as incurred.

Finance Costs. Finance costs are recognized in profit or loss using the effective interest method.

Share-based Compensation

The Parent Company has a stock option plan covering employees, officers and directors, whereby employees render services for shares or rights over shares ("equity-settled transaction"). The rights granted under the plan are not assignable and nontransferable. The cost of the equity-settled transactions is measured by reference to the fair value of the stock options on the date that it was granted. Stock options reserve presented as part of "Equity" is measured at fair value of the share options as at reporting date when the options are exercised, forfeited or lapsed.

Leases

The Group assesses whether the contracts is, or contains, a lease. To assess whether a contract conveys the right to control the use of an identified assets for a period of time, the Group assesses whether, throughout the period of use, it has both of the following:

- i. the right to obtain substantially all of the economic benefits from use of the identified asset; and,
- ii. the right to direct the use of the identified asset.

If the Group has the right to control the use of an identified asset for only a portion of the term of the contract, the contract contains a lease for that portion of the term.

The Group also assesses whether a contract contains a lease for each potential separate lease component.

The Group as a Lessor. Leases where the Group retains substantially all the risks and benefits of ownership of the asset are classified as operating leases. Initial direct costs incurred in negotiating an operating lease are added to the carrying amount of the leased asset and recognized on a straight-line basis over the lease term on the same basis as rental income. Contingent rents are recognized as revenue in the period in which these are earned.

Employee Benefits

Short-term Benefits. The Group recognizes a liability net of amounts already paid and an expense for services rendered by employees during the accounting period. A liability is also recognized for the amount expected to be paid under short-term cash bonus or profit sharing plans if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the obligation can be estimated reliably.

Short-term employee benefit liabilities are measured on an undiscounted basis and are expensed as the related service is provided.

Retirement Benefits. The Group has a funded, non-contributory defined benefit plan covering all qualified employees. The retirement benefits cost is determined using the projected unit credit method which reflects services rendered by employees to the date of valuation and incorporates assumptions concerning employees' projected salaries.

The Group recognizes service costs, comprising of current service costs, past service costs and net interest expense or income in profit or loss. Net interest is calculated by applying the discount rate to the net retirement liability or asset.

Past service costs are recognized in profit or loss on the earlier of the date of the plan amendment or curtailment, and the date that the Group recognizes restructuring-related costs.

Remeasurements pertaining to actuarial gains and losses and return on plan assets are recognized immediately in OCI in the period in which they arise. Remeasurements are not reclassified to profit or loss in subsequent periods.

Plan assets are assets that are held in trust and managed by a trustee bank. Plan assets are not available to the creditors of the Group, nor can they be paid directly to the Group. The fair value of the plan assets is based on the market price information. When no market price is available, the fair value of plan assets is estimated by discounting expected future cash flows using a discount rate that reflects both the risk associated with the plan assets and the maturity or expected disposal date of those assets (or, if they have no maturity, the expected period until the settlement of the related obligations). If the fair value of the plan assets is higher than the present value of the retirement liability, the measurement of the resulting defined benefit asset is limited to the present value of economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan.

The net retirement asset (liability) is the aggregate of the present value of the defined benefit obligation and the fair value of plan assets against which the obligations are to be settled directly, adjusted for any effect of asset ceiling. The present value of the retirement obligation is determined by discounting the estimated future cash outflows using interest rate on government bonds that have terms to maturity approximating the terms of the related retirement liability. The asset ceiling is the present value of future economic benefits available in the form of refunds from the plan or reductions in future contribution to the plan.

Actuarial valuations are made with sufficient regularity so that the amounts recognized in the consolidated financial statements do not differ materially from the amounts that would be determined at the reporting date.

Foreign Currency - Denominated Transactions

Transactions in foreign currencies are translated to the functional currency at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated to the functional currency at the exchange rate at reporting date. Resulting exchange differences arising on the settlement of or on translating such monetary assets and liabilities are recognized in profit or loss.

Income Taxes

Current Tax. Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the tax authority. The tax rates and tax laws used to compute the amount are those that have been enacted or substantively enacted at the reporting date.

Deferred Tax. Deferred tax is provided on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences. Deferred tax assets are recognized for all deductible temporary differences, carryforward benefits of unused tax credits from excess minimum corporate income tax (MCIT) over the regular corporate income tax (RCIT) and unused net operating loss carryover (NOLCO), to the extent that it is probable that taxable income will be available against which the deductible temporary differences and carryforwards of unused MCIT and NOLCO can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable income will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are reassessed at each reporting date and are recognized to the extent that it has become probable that future taxable income will allow the deferred tax assets to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are applicable to the year when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities. For purposes of measuring deferred tax liabilities and deferred tax assets for investment properties that are measured using the fair value model, the carrying amounts of such properties are presumed to be recovered entirely through sale, unless the presumption is rebutted, that is, when the investment property is depreciable and is held within the business model whose objective is consume substantially all of the economic benefits embodied in the investment property over time, rather than through sale.

Most changes in deferred tax assets or deferred tax liabilities are recognized as a component of tax expense in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

Deferred tax relating to items recognized outside profit or loss is recognized under OCI and outside profit or loss.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to offset current tax assets against current tax liabilities and deferred taxes relate to the same taxable entity and the same tax authority.

Related Party Transactions

Related party transactions are transfer of resources, services or obligations between the Group and its related parties, regardless whether a price is charged. Transactions between related parties are accounted for at arm's length prices or on terms similar to those offered to non-related parties in an economically comparable market.

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions. These includes: (a) individuals owning, directly or indirectly through one or more intermediaries, control or are controlled by, or under common control with the Group; (b) associates; (c) individuals owning, directly or indirectly, an interest in the voting power of the investee that gives them significant influence over the investee and close members of the family of any such individual; and, (d) the Parent Company's funded retirement plan.

In considering each possible related party relationship, attention is directed to the substance of the relationship and not merely on the legal form.

The key management personnel of the Group are also considered to be related parties.

Segment Reporting

The Group's operating businesses are organized and managed separately according to the nature of the products and services provided, with each segment reporting a strategic business unit that offers different products and serves different markets. Financial information on the Group's business segments is presented in Note 30 to the consolidated financial statements.

Provisions and Contingencies

Provisions are recognized when the Group has a present legal or constructive obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are measured at the estimated expenditure required to settle the present obligation, based on the most reliable evidence available at the end of the reporting period, including risks and uncertainties associated with the present obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as an interest expense. Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate.

Contingent liabilities are not recognized in the consolidated financial statements but are disclosed in the notes to consolidated financial statements unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the consolidated financial statements but are disclosed in the notes to consolidated statements of financial position when an inflow of economic benefits is probable.

Events After the Reporting Period

Any post-year-end event that provides additional information about the Group's financial position at the end of the reporting period (adjusting event) is reflected in the consolidated financial statements. Post-year-end events that are not adjusting events are disclosed in the notes to consolidated financial statements when material.

3. Significant Judgments, Accounting Estimates and Assumptions

The preparation of consolidated financial statements in accordance with PFRS requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of asset, liabilities, income and expenses. The accounting estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about the carrying amounts of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

Judgments

In the process of applying the Group's accounting policies, management has made the following judgments, apart from those involving estimation, which have the most significant effect on the amounts recognized in the consolidated financial statements:

Determining Functional Currency. Based on management's assessment, the functional currency of the Group has been determined to be Philippine Peso, the currency of the primary economic environment in which the Group operates. It is the currency that mainly influences the operations of the Group.

Classifying Financial Instruments. The Group exercises judgment in classifying financial instruments in accordance with PFRS 9. The Group exercises judgment in classifying a financial instrument, or its component parts, on initial recognition as either a financial asset, a financial liability or an equity instrument in accordance with the Group's business model and its contractual cash flow characteristics and the definitions of a financial asset, a financial liability or an equity instrument. The substance of a financial instrument, rather than its legal form, governs its classification in the consolidated statements of financial position.

Determining Control or Joint Control over an Investee Company. Control is presumed to exist when an investor has power over an investee, is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. On the other hand, joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require the unanimous consent of the parties sharing control. The Group has determined that by virtue of the Parent Company's majority ownership of voting rights in its subsidiaries as at December 31, 2021, 2020 and 2019, it has the ability to exercise control over these investees.

Determining Revenue and Cost Recognition. Selecting an appropriate revenue recognition method for a particular real estate transaction requires certain judgments based on the buyer's commitment on the sale which may be ascertained through the significance of the buyer's initial investment and completion of development.

The Group recognizes revenue over time if one of the following criteria is met:

- The customer simultaneously receives and consumes the benefits provided by the Group performance as the entity performs.
- The Group's performance creates or enhances an asset that the customer controls as the asset is created or enhanced.
- The Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

The Group concluded that revenue from real estate sale of office units and sale of residential units in should be recognized over time. The Group also determined that input method is the appropriate method in measuring the POC. Under POC, the Group satisfies its performance obligation to deliver a portion of the property to the customer over time. The input method is based on the costs incurred up until the end of the reporting period as a proportion of total costs expected to be incurred. Changes in estimates may affect the reported amounts of revenue, cost of real estate sales, contract assets and contract liabilities.

Revenue from real estate sales recognized based on POC amounted to ₱2,628.9 million in 2021, ₱2,919.1 million in 2020 and ₱3,515.8 million in 2019. Related cost of real estate sales amounted to ₱1,610.0 million in 2021, ₱1,549.2 million in 2020 and ₱2,038.0 million in 2019 (see Note 9).

Classifying Real Estate for Sale, Investment Properties and Property and Equipment. The Group determines whether a property qualifies as a real estate for sale, an investment property or an item of property and equipment. In making its judgment, the Group considers whether the property is held for sale in the ordinary course of business, held primarily to earn rentals or capital appreciation or both, or used for operations and administrative purposes by the Group.

Real estate for sale amounted to ₱8,988.8 million and ₱6,894.9 million as at December 31, 2021 and 2020, respectively (see Note 9). Investment properties amounted to ₱9,026.4 million and ₱8,315.2 million as at December 31, 2021 and 2020, respectively (see Note 10). Property and equipment amounted to ₱273.2 million and ₱280.2 million as at December 31, 2021 and 2020, respectively (see Note 11).

Determining the Highest and Best Use of Investment Properties. The Group determines the highest and best use of its investment properties when measuring fair value. In making its judgment, the Group takes into account the use of the investment properties that is physically possible, legally permissible and financially feasible. The Group has determined that the highest and best use of the investment properties is their current use.

Investment properties amounted to ₱9,026.4 million and ₱8,315.2 million as at December 31, 2021 and 2020, respectively (see Note 10).

Determining Lease Commitments - Group as Lessor. The Group entered into various lease contracts for its office units in ACPT, commercial units in Arya Residences and dormitory units in Sevina Park's Courtyard Hall. The Group has determined that the risks and benefits of ownership related to the leased properties are retained by the Group. Accordingly, the leases are accounted for as operating leases.

Revenue from leasing operations recognized from these operating leases amounted to ₱325.5 million in 2021, ₱371.6 million in 2020 and ₱321.9 million in 2019 (see Note 22).

Classifying Lease Commitments - Group as a Lessee. The Group has entered into lease agreements as a lessee. For these leases, the Group availed of the exemption for short-term leases with term of 12 months or less. Accordingly, lease payments on short-term leases were recognized as expense on a straight-line basis over the lease term.

Rent expense amounted to ₱2.3 million in 2021, ₱3.0 million in 2020 and ₱1.7 million in 2019 (see Note 22).

Assessing Provisions and Contingencies. The Group evaluates legal and administrative proceedings to which it is involved based on analysis of potential results. Management and its legal counsels do not believe that any current proceedings will have material adverse effects on its consolidated financial position and results of operations. It is possible, however, that future results of operations could be materially affected by changes in estimates or in the effectiveness of strategies relating to these proceedings.

Accounting Estimates and Assumptions

The following are the key sources of accounting estimation uncertainty and other key accounting assumptions concerning the future at the end of reporting period that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year:

Recognizing Revenue and Cost of Real Estate Sales. The Group's revenue and cost recognition policies require management to make use of estimates and assumptions that may affect the reported amounts of revenue and cost. Revenue and cost of sale of real estate recognized based on POC are measured principally based on the costs incurred up until the end of the reporting period at a proportion of total costs expected to be incurred.

Revenue from real estate sales recognized based on POC amounted to ₱2,628.9 million in 2021, ₱2,919.1 million in 2020 and ₱3,515.8 million in 2019. Related cost of real estate sales amounted to ₱1,610.0 million in 2021, ₱1,549.2 million in 2020 and ₱2,038.0 million in 2019.

Estimating the Fair Value of Investment Properties. Investment properties are measured at fair values. The Group works closely with external qualified appraisers who performed the valuation using appropriate valuation techniques. The Group estimates expected future cash flows, yields, occupancy rates and discount rates. The valuation techniques and inputs used in the fair value measurement of investment properties are disclosed in Note 10 to the consolidated financial statements.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the investment properties and the level of the fair value hierarchy.

Investment properties amounted to ₱9,026.4 million and ₱8,315.2 million as at December 31, 2021 and 2020, respectively (see Note 10).

Determining the NRV of Real Estate for Sale. Real estate for sale is stated at lower of cost or NRV. NRV for completed real estate for sale is assessed with reference to market conditions and prices existing at the reporting date and is determined by the Group in the light of recent market transactions. NRV in respect of real estate assets under construction is assessed with reference to market prices at the reporting date for similar completed property, less estimated costs to complete the construction and less estimated costs to sell. The amount and timing of recorded expenses for any period would differ if different judgments were made or different estimates were utilized.

No provision for inventory obsolescence was recognized in 2021, 2020 and 2019. The carrying amount of real estate for sale amounted to ₱8,988.8 million and ₱6,894.9 million as at December 31, 2021 and 2020, respectively (see Note 9).

Assessing the ECL on Trade Receivables and Contract Assets. The Group initially uses a provision matrix based on the historical default rates for trade receivables. The provision matrix specifies provision rates depending on the number of days that a receivable is past due. The Group then calibrates the provision matrix to adjust historical credit loss experience with forward-looking information on the basis of current observable data to reflect the effects of current and forecasted economic conditions.

The Group adjusts historical default rates if forecasted economic conditions such as gross domestic product are expected to deteriorate which can lead to increased number of defaults in the real estate industry. The Group regularly reviews the methodology and assumptions used for estimating ECL to reduce any differences between estimates and actual credit loss experience.

The determination of the correlation between historical default rates and forecasted economic conditions is a significant estimate. Accordingly, the provision for ECL of receivable from real estate sales is sensitive to changes in assumptions about forecasted economic conditions.

The Group's exposure to risk of default is mitigated by the requirement that title to real estate for sale is transferred to the buyer only upon full payment of the contract price.

No provision for ECL was recognized in 2021, 2020 and 2019. The Group's trade receivables and contract assets aggregated ₱7,359.3 million and ₱5,684.6 million as at December 31, 2021 and 2020, respectively (see Notes 5 and 8).

Assessing the ECL on Other Financial Assets at Amortized Cost. The Group determines the allowance for ECL based on the probability-weighted estimate of the present value of all cash shortfalls over the expected life of financial assets at amortized cost. ECL is provided for credit losses that result from possible default events within the next 12-months unless there has been a significant increase in credit risk since initial recognition in which case ECL are provided based on lifetime ECL.

When determining if there has been a significant increase in credit risk, the Group considers reasonable and supportable information that is available without undue cost or effort and that is relevant for the particular financial instrument being assessed such as, but not limited to, the following factors:

- actual or expected external and internal credit rating downgrade
- existing or forecasted adverse changes in business, financial or economic conditions
- actual or expected significant adverse changes in the operating results of the borrower
- significant changes in credit spread, rates or terms such as more stringent covenants and increased amount of collateral or guarantees

The Group also considers financial assets that are more than 30 days past due to be the latest point at which lifetime ECL should be recognized unless it can demonstrate that this does not represent a significant risk in credit risk such as when non-payment was an administrative oversight rather than resulting from financial difficulty of the borrower.

No provision for ECL was recognized in 2021, 2020 and 2019.

The carrying amounts of financial assets are as follows:

Asset Type	Note	2021	2020
Cash and cash equivalents*	6	₱1,949,062,156	₱940,924,474
Receivable from sale of interests in subsidiaries	8	208,562,250	—

*excluding cash on hand

Determining the Fair Value of Investment in Money Market Fund. The Group classifies its investment in money market fund as financial asset at FVPL in the consolidated statements of financial position. The Group determined the fair value of investment in money market fund using available market prices in active markets for identical assets (Level 1). Any changes in the fair value of this financial asset would affect profit or loss.

The fair value and carrying amount of investment in money market fund amounted to ₱4,378.6 million and ₱3,257.3 million as at December 31, 2021 and 2020, respectively (see Note 7).

Estimating the Useful Lives of Property and Equipment. The Group reviews annually the estimated useful lives of property and equipment based on expected asset's utilization, market demands and future technological development. It is possible that the factors mentioned may change in the future, which could cause a change in estimated useful lives. A reduction in estimated useful lives could cause a significant increase in depreciation and amortization of property and equipment.

There were no changes in the estimated useful lives of property and equipment during 2021, 2020 and 2019. The carrying amount of property and equipment amounted to ₱273.2 million and ₱280.2 million as at December 31, 2021 and 2020, respectively (see Note 11).

Assessing the Impairment of Nonfinancial Assets. The Group assesses impairment on nonfinancial assets whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. In assessing whether there is any indication that an asset may be impaired, the Group considers the external and internal sources of information. External sources of information include but are not limited to unexpected significant decline in market value and any other significant changes with an adverse effect on the Group, whether it had taken place during period or will take place in the near future in the market, economic or legal environment in which the entity operates or in the market to which the asset is dedicated. Internal sources of information include evidence of obsolescence or physical damage on an asset, significant changes with an adverse effect on the Group whether it had taken place during the period, or are expected to take place in the near future, to the extent to which, or in a manner in which, an asset is used or is expected to be used, and any other evidence that indicates that the economic performance of an asset is, or will be, worse than expected.

Whenever the carrying amount of an asset exceeds its recoverable amount, an impairment loss is recognized. The recoverable amount is the higher of an asset's fair value less cost to sell and value in use. The fair value less cost to sell is the amount obtainable from the sale of an asset in an arm's length transaction while value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life.

Value in use is determined as the present value of estimated future cash flows expected to be generated from the continued use of the assets. The estimated cash flows are projected using growth rates based on historical experience and business plans and are discounted using pretax discount rates that reflect the current assessment of the time value of money and the risks specific to the asset.

Recoverable amounts are estimated for individual assets or, if it is not possible, for the CGU to which the asset belongs.

No provision for impairment loss on nonfinancial assets was recognized in 2021, 2020 and 2019.

The carrying amounts of nonfinancial assets are as follows:

Asset Type	Note	2021	2020
Accrued rent receivable*	8	₱66,158,150	₱89,557,339
Property and equipment	11	273,213,366	280,192,479
Other assets**	12	2,042,460,737	1,836,481,141

*presented under "Receivables" account.

**excluding deposits and amounts held for escrow aggregating ₱210.3 million and ₱141.1 million as at December 31, 2021 and 2020, respectively.

Estimating Retirement Expense. The determination of the Group's obligation and cost for pension and other retirement benefits is dependent on selection of certain assumptions used by actuaries in calculating such amounts. Those assumptions are described in Note 21 to the consolidated financial statements and include among others, discount rate and salary increase rate. While the Group believes that the assumptions are reasonable and appropriate, significant differences in actual experience or significant changes in assumptions materially affect net retirement liability.

Net retirement liability amounted to ₱118.4 million and ₱101.5 million as at December 31, 2021 and 2020, respectively (see Note 21).

Assessing the Realizability of Deferred Tax Assets. The Group's assessment on the recognition of deferred tax assets on deductible temporary differences and carryforward benefits of unused MCIT and NOLCO is based on the projected taxable income in the following periods. Based on the projection, not all future deductible temporary differences will be realized, therefore, only a portion of deferred tax assets was recognized.

The carrying amount of recognized deferred tax assets amounted to ₱311.9 million and ₱241.5 million as at December 31, 2021 and 2020, respectively. Unrecognized deferred tax assets amounted to ₱14.9 million and ₱8.1 million as at December 31, 2021 and 2020, respectively, as management assessed that these may not be realized in the future (see Note 23).

4. Material Non-controlling Interests

The Group's non-controlling interests amounting to ₱1,503.3 million in 2021, ₱1,224.5 million and ₱317.6 million as at December 31, 2021, 2020 and 2019, respectively, pertains to interests in CLLC, KHI and SLDC.

CLLC

The non-controlling interest in CLLC is 40% as at December 31, 2020 and 2019. The net income of CLLC allocated to non-controlling interests amounting to ₱96.4 million for the period January 1 to December 27, 2021, ₱228.4 million in 2020 and ₱296.1 million in 2019 is calculated based on the profit-sharing agreement of 50:50.

In December 2021, the Parent Company purchased 214,351 common and 118,982 preferred shares representing 40% of the ownership and voting rights of CLLC for ₱113.2 million from RSBV, resulting to 100% ownership of the Parent Company in CLLC. The difference between the acquisition cost and book value amounting to ₱60.5 million was recorded as reduction to equity reserves. Also, RSBV assigned its shareholder advances and accrued interest receivables amounting to ₱764.1 million. The Parent Company's outstanding payable arising from the purchase of common shares and preferred shares in CLLC amounted to ₱762.3 million as at December 31, 2021 (see Note 15).

The summarized financial information of CLLC, before intercompany eliminations, as at and for the years ended December 31, 2021, 2020 and 2019 are as follows:

	2021	2020	2019

SLDC

Non-controlling interests over SLDC is 41%, 41% and 2% as at December 31, 2021, 2020 and 2019, respectively.

SLDC received deposits amounting to ₱681.5 million in 2021 and ₱624.0 million in 2020 for future stock subscription from HHI. These will be applied against future subscription on preferred shares where SEC approve SLDC's application for the change in the par value of authorized preferred shares. As at December 31, 2021, SLDC has already submitted the requirements for the conversion of deposits for future stock subscription to preferred shares. The approval of the conversion is still pending with the SEC as at March 23, 2022.

Net income of SLDC allocated to non-controlling interests amounted to ₱119.2 million in 2021, ₱53.4 million in 2020 and nil in 2019 which is determined based on the joint venture agreement between ALCO and MEC.

The summarized financial information of SLDC, before intercompany eliminations, as at and for the years ended December 31, 2021, 2020 and 2019 is as follows:

	2021	2020	2019

KHI

The Group has 40% non-controlling interests in KHI. The net loss of KHI allocated to non-controlling interests amounting to ₱0.1 million in 2021 and 2020 is distributed based on the capital contribution. The total assets of KHI amounted to ₱573.3 million and ₱554.2 million as at December 31, 2021 and 2020, respectively. Net loss amounted to ₱0.2 million in 2021 and 2020 and net cash outflows amounted to ₱0.3 million in 2021 and ₱11.8 million in 2020.

Bhavana and Bhavya

In December 2021, ALCO sold, transferred and conveyed in favor of Narra Investment Properties Pte. Ltd. ("Narra"), by way of secondary sale, all of its rights, title and interest in and to 40% of the common shares of stock of Bhavana and Bhavya, or 20,000,000 common shares of stock thereof, as well as its shareholder advances and accrued interest receivables aggregating ₱449.4 million in exchange for ₱446.8 million. The transfer of Bhavana and Bhavya shares decreased the effective ownership of ALCO from 100% to 60%. The Parent Company's receivable arising from the sale of interests in Bhavana and Bhavya amounted to ₱208.6 million as at December 31, 2021 (see Note 8).

Advances from Non-controlling Interests

The Group has the following transactions with the non-controlling interests:

CLLC obtained from RSBV 3.5% interest-bearing loans for its real estate projects with outstanding balance of nil and ₱676.7 million as at December 31, 2021 and 2020, respectively, and recognized interest expense of nil in 2021, ₱12.9 million in 2020 and ₱17.1 million in 2019. These are unsecured, unguaranteed, and payable on demand and in cash. In December 2021, RSBV assigned its shareholder advances and accrued interest receivables amounting to ₱762.3 million from CLLC to ALCO.

Moreover, SLDC received advances from related parties and expenses paid by related parties on behalf of SLDC. All outstanding balances are unsecured, noninterest-bearing, and payable on demand and in cash.

On June 1, 2020, the Parent Company assigned 40% of its advances to KHI amounting to ₱195.0 million, in favor of MEC, and bear interest of 3.5% per annum. Interest expense incurred amounted to ₱6.8 in 2021 and ₱4.0 million in 2020. These are unsecured, unguaranteed, and payable on demand and in cash.

5. Contract Assets and Contract Liabilities

The Group's contract assets and contract liabilities are as follows:

	2021	2020
Contract assets	₱6,238,880,086	₱5,341,881,039
Contract liabilities	62,154,096	27,423,392
Net contract assets	₱6,176,725,990	₱5,314,457,647

Contract assets pertain to receivables from the sale of condominium and office units and residential townhouses of the Group representing the excess of cumulative revenues from real estate sales over billed amounts. These amounts will be billed and collected in accordance with the agreed payment terms with the buyers, which is normally up to maximum of five years. Increase in contract assets pertains to the additional booked units during the year.

Contract liabilities pertain to downpayments received from the real estate buyers at the inception of the contracts in which the related revenue is not yet recognized as of yearend.

6. Cash and Cash Equivalents

This account consists of:

	2021	2020
Cash on hand	₱195,000	₱155,000
Cash in banks	692,017,890	581,633,212
Cash equivalents	1,257,044,266	359,291,262
	₱1,949,257,156	₱941,079,474

Cash in banks earn interest at prevailing bank deposit rates and are immediately available for use in the current operations. Cash equivalents are short-term placements made for varying periods up to three (3) months or less and earn interest at the prevailing short-term investment rates.

Interest income is earned from the following (see Note 20):

	2021	2020	2019
Cash in banks	₱2,130,550	₱3,432,878	₱4,678,550
Cash equivalents	1,406,696	5,946,867	8,340,308

Balance at end of year		₱4,378,607,744	₱3,257,288,870

Realized gain on disposals of financial assets at FVPL amounted to ₱23.6 million in 2021, ₱19.1 million in 2020 and ₱16.8 million in 2019 (see Note 20).

The fair value of financial assets at FVPL is classified under Level 1 of the fair value hierarchy using quoted market prices (see Note 28).

8. Receivables

This account consists of:

	Note	2021	2020
Trade receivables from:			
Sale of real estate		₱966,882,625	₱253,834,678
Leasing	22	153,511,167	88,911,921

Allowance for ECL		(368,292)	(368,292)
		₱1,563,406,726	₱539,079,767

Trade receivables from sale of real estate pertain to receivables from sale of condominium units and residential townhouses that were already billed. These receivables are noninterest-bearing and generally collectible in monthly installments over a maximum period of three (3) years. Titles to the units sold under this arrangement are transferred to the buyers only upon full payment of the contract price. Trade receivables from leasing operations are noninterest-bearing, unsecured and collectible within seven (7) days.

Accrued rent receivable pertains to the difference between rental income recognized using straight-line method of accounting and contractual rental payments.

Interest receivable includes accrual of interest from the Group's short-term placements.

Advances to employees represent salary and other loans granted to employees which are noninterest-bearing in nature and collectible through salary deductions.

Receivable from non-affiliated entity pertains to cash advances, which are unsecured, noninterest-bearing and collectible on demand. In 2021, the BOD of the Parent Company approved to write-off the balance amounting to ₱11.6 million (see Note 18).

Other receivables mainly include other charges and advances which are noninterest-bearing and collectible on demand.

Raw Land

Raw land pertains to parcels of land acquired by the Group for future development projects that are intended for sale.

In 2019, the Group purchased a parcel of land with a total area of 2,245 sqm., located in Hipodromo, Cebu City, for ₱673.5 million, excluding transaction costs. The property will be developed into a residential building with condominium units for sale.

Also in 2019, the Group transferred portion of a parcel of land from “Real estate for sale” account to “Investment properties” account aggregating ₱22.5 million because of the change in the intended use of the property as approved by the BOD (see Note 10).

In 2021, the Group transferred portion of a parcel of land from “Investment properties” account to “Real estate for sale” account aggregating ₱186.5 million because of the change in the intended use of the property as approved by the BOD (see Note 10).

The land of Sevina Park with carrying amount of ₱386.2 million as at December 31, 2021 was used as security for the bank loan of Cazneau with outstanding balance of ₱684.1 million as at December 31, 2021 (see Note 13).

Assets under Construction

Assets under construction consist of land and development costs of ongoing real estate projects of the Group. As at December 31, 2021 and 2020, this account includes the land and development costs of Cebu Exchange, Savya Financial Center and Sevina Park (see Note 1).

The land and development costs of Cebu Exchange with carrying amount of ₱2,885.9 million and ₱2,371.6 million as at December 31, 2021 and 2020, respectively, are used as security for the bank loan of CLLC with outstanding balance of ₱1,114.0 million and ₱2,014.0 million as at December 31, 2021 and 2020, respectively (see Note 13).

As at December 31, 2021 and 2020, the carrying amount of land of SLDC amounting to ₱1,434.8 million is used as security for SLDC’s bank loans with outstanding balance of ₱1,431.8 million and ₱1,268.8 million as at December 31, 2021 and 2020, respectively (see Note 13).

The land of Lucima Residences with carrying amount of ₱747.3 million as at December 31, 2021 are used as security for the bank loan of Bhavana with outstanding balance of ₱550.0 million as at December 31, 2021 (see Note 13).

Condominium Units for Development

Condominium units for development pertain to condominium units in Makati City acquired by the Group and are intended for future development and for sale.

Borrowing Costs

General and specific borrowings were used to partially finance the Group’s ongoing real estate projects. The related borrowing costs amounting to ₱549.8 million in 2021 and ₱420.8 million in 2020 were capitalized as part of real estate for sale. The capitalization rates used to determine general borrowing costs eligible for capitalization ranges from 4.5% to 7.5% in 2021 and 3.0% to 8.0% in 2020 (see Note 13).

NRV of Real Estate for Sale

As at December 31, 2021 and 2020, real estate for sale is stated at cost which is lower than its NRV. There is no allowance for inventory obsolescence as at December 31, 2021 and 2020.

10. Investment Properties

This account consists of the following completed real estate projects and land which are held either to earn rental income or for capital appreciation or both, but not for sale in the ordinary course of business or for administrative purposes.

ACPT

Carrying amount of ACPT includes office units and parking slots for lease. ACPT is used as collateral for loans payable amounting to ₱1,712.4 million and ₱1,858.7 million as at December 31, 2021 and 2020, respectively (see Note 13).

Arya Residences

Commercial units and parking slots in Arya Residences are used for leasing operations.

In 2020, the Group sold parking slots with carrying amount of ₱1.8 million and cost of ₱1.0 million for a total consideration of ₱1.3 million which resulted to a loss on disposal of ₱0.5 million (see Note 20).

Land

UPHI's raw land, with fair value amounting to ₱729.9 million and ₱646.9 million as at December 31, 2021 and 2020, respectively, has a total area of 33 hectares and are located at Barangay Gonzalo Bontog, Calamba City and Barangay Calabuso, Tagaytay City. Portion of the UPHI's raw land was the subject of an expropriation proceedings filed by the National Power Corporation (NAPOCOR) with the Regional Trial Court of Calamba City, Laguna. The other parties to the case filed their respective appeals with the Court of Appeals (CA) assailing the amount of just compensation determined by the trial court. The appeal remains pending with the CA. Moreover, a complaint for quieting of title was filed by UPHI on October 18, 2010 because of the erroneous issuance of tax declarations by the City of Tagaytay covering UPHI's property located in Calamba City, Laguna. In June 2020, the case was decided by the trial court in favor of UPHI. The losing defendants in the case filed their respective appeals with the CA and UPHI filed its appellee's brief defending the decision of the trial court. The case remains pending with the CA. As at December 31, 2021 and 2020, the case with NAPOCOR is still ongoing and yet to be resolved by the CA. UPHI intends to amicably settle with the National Transmission Commission (NTC, successor-in-interest of NAPOCOR), since UPHI had already been deprived of effective use and enjoyment of the property. Management assessed that although the potential effect of this case on the Group's consolidated financial statements would not be significant, an amicable settlement with the NTC could allow the UPHI to recoup the cost of the property.

Raw land of the Parent Company has a total area of 10.3 hectares located in Batangas and Tagaytay with fair value aggregating ₱182.8 million and ₱155.9 million as at December 31, 2021 and 2020, respectively.

In 2021, Cazneau transferred portion of land amounting to ₱186.5 million from "Investment properties" account to "Real estate for sale" account due to change of intention in the use of the property as approved by the BOD.

Courtyard Hall

In 2019, Cazneau transferred portion of its land of ₱22.5 million from “Real estate for sale” account to “Investment properties” account due to change of intention in the use of the property as approved by the BOD (see Note 9).

Courtyard Hall of Cazneau used for leasing operations was recognized at fair value amounting to ₱326.2 million and ₱186.9 million as at December 31, 2021 and 2020, respectively.

The land attributable to Cazneau’s retail spaces and Courtyard Hall with a carrying amount of ₱498.0 million as at December 31, 2021 was used as collateral for a long-term loan facility of Cazneau with an outstanding balance of ₱684.1 million as at December 31, 2021.

Leasing Operations

The Group recognized revenue from leasing operations amounting to ₱325.5 million in 2021, ₱371.6 million in 2020 and ₱321.9 million in 2019 (see Note 22) and incurred direct cost of leasing amounting to ₱107.1 million in 2021, ₱124.4 million in 2020 and ₱100.5 million in 2019.

Fair Value Measurement

Details of the valuation techniques used in measuring fair values of investment properties classified under Levels 2 and 3 of the fair value hierarchy are as follows:

Class of Property	Valuation Technique	Significant Inputs	Range	
			2021	2020
ACPT	Discounted cash flow (DCF) approach	Discount rate	8.51%	8.76%
		Rental rate for an office unit per sqm	₱1,500	₱1,500

Land:				
UPHI's Laguna and Tagaytay properties	Market data approach	Price per sqm	₱2,200	₱1,950
		Value adjustments	5% - 10%	10% - 15%
Cazneau's Laguna properties	Market data approach	Price per sqm	₱55,000	₱11,300
		Value adjustments	5% - 20%	0% - 10%
ALCO's Batangas and Tagaytay properties	Market data approach	Price per sqm	₱1,660	₱1,420
		Value adjustments	5% - 20%	5% - 10%
Courtyard Hall	Depreciated replacement cost method	Estimated replacement cost	₱143,117,000	₱143,117,000
		Remaining economic life	36 years	37 years

The description of the valuation techniques and inputs used in the fair value measurement are as follows:

Discounted Cash Flow Approach

Under the DCF approach, a property's fair value is estimated using explicit assumptions regarding the benefits and liabilities of ownership over the asset's estimated useful life including an exit or terminal value. As an accepted method within the income approach to valuation, the DCF approach involves the projection of a series of cash flows on a real property interest. An appropriate, market-derived discount rate is applied to projected cash flow series to establish the present value of the income stream associated with the investment property.

Periodic cash flows of investment properties are typically estimated as gross income less vacancy and operating expenses. The series of periodic net operating income, along with an estimate of the terminal value anticipated at the end of the projection period, is then discounted.

The frequency of inflows and outflows are contract and market-derived. The DCF approach assumes that cash outflows occur in the same period that expenses are recorded.

Sensitivity Analysis. Generally, significant increases (decreases) in rental rate per sqm or per slot and rent escalation rate p.a. in isolation would result in a significantly higher (lower) fair value measurement. Significant increases (decreases) in discount rate and vacancy rate in isolation would result in a significantly lower (higher) fair value measurement.

Market Data Approach

Market data approach involves the comparison of the UPHI's Laguna and Tagaytay properties, Cazneau's Laguna properties and ALCO's Batangas and Tagaytay properties to those that are more or less located within the vicinity of the appraised properties and are subject of recent sales and offerings. Adjustments were made to arrive at the market value by considering the location, size, shape, utility, desirability and time element.

The inputs to fair valuation are as follows:

- *Price per sqm* - estimated value prevailing in the real estate market depending on the location, area, shape and time element.
- *Value adjustments* - adjustments are made to bring the comparative values in approximation to the investment property taking into account the location, size and architectural features among others.

Depreciated Replacement Cost Method

Depreciated replacement cost method is used to estimate valuation of dormitory by computing for the replacement cost of the assets and applying appropriate adjustments for physical deterioration and functional and economic obsolescence.

The reconciliation of the balances of investments properties classified according to level in the fair value hierarchy is as follows:

	2021		
	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total

Construction of ACPT

In 2015, the Parent Company entered into an OLSA for a credit line of ₱2,000.0 million, to partially finance the cost of construction and development of the ACPT. The outstanding loan balance is secured by the ACPT building and a security trust agreement covering the maintenance of revenue and operating accounts, project receivables and project agreements. ALCO is required to maintain the following financial ratios based on its separate financial statements:

- Debt service coverage ratio of not more than 1.20x starting 2020 which is one year after the completion of ACPT
- Debt to equity ratio of:

Period	Debt to Equity Ratio
2015	2.00x
2016 to 2018	1.75x
2019 to 2025	1.50x

The debt to equity ratio of ALCO as at December 31, 2019 based on its separate financial statements is 1.12x which is compliant with the requirements of the OLSA.

As at December 31, 2020, the local bank amended the financial covenants of the OLSA, removing the DSCR requirement and changing it to be current ratio of at least 1.50x and a debt to equity ratio of not more than 2.00x based on the consolidated financial statements of the Group. ALCO has current ratio of 1.81x and debt to equity ratio of 1.48x, based on its consolidated financial statements, which is compliant with the amended financial covenants.

Acquisition of land and construction of Savya Financial Center

In 2018, SLDC entered into a MTL for a credit line of ₱1,440.0 million with a local bank, to partially finance the acquisition and development of its land in Taguig City and to repay advances from shareholders. This loan facility is secured by an unregistered real estate mortgage over a parcel of raw land of SLDC, corporate continuing suretyship of ALCO until the completion of construction of Savya Financial Tower 1 and 100% sale of units therein, and deposits in an escrow account (see Note 12). The loan was fully settled in 2021.

In 2021, SLDC entered into a new loan facility of ₱1,440.0 million with a local bank. The ₱1,440.0 million was fully drawn and was used to repay the ₱1,440.0 million outstanding loan under the MTL. The outstanding loan balance is secured by real estate mortgage over raw land property (see Note 9). SLDC is required to debt service coverage ratio of 1.25x beginning 2021 and shall not fall below 1.5x to declare dividends and maintain a debt-to-equity ratio not exceeding 2.0x and a current ratio of at least 1.5x.

The debt to equity and current ratio of SLDC as at December 31, 2021 based on its financial statements is 1.88x and 2.23x, respectively, which is compliant with the requirements of the term loan.

Construction of Cebu Exchange

In 2017, CLLC entered into an OLSA for a credit line of ₱2,350.0 million with a local bank, to partially finance the development and construction of Cebu Exchange. Loan proceeds were received in several drawdowns within a period of three years after initial drawdown. The outstanding loan balance is secured by Cebu Exchange property and pledge of shares of ALCO and a non-controlling interest in CLLC (see Note 9).

Construction of Sevina Park

In 2021, Cazneau entered into a long-term loan facility of ₱1.0 billion with a local bank to partially finance the construction of Sevina Park. Loan proceeds are available in multiple tranches for a period of three (3) years from the date of initial drawdown. The outstanding loan balance is secured by real estate mortgage over two parcels of land of Cazneau and grant of security interest over shares of ALCO. Moreover, Cazneau is required to maintain debt to equity ratio of not more than 2.00x and current ratio of not less than 1.50x.

The debt to equity and current ratio of Cazneau as at December 31, 2021 based on its financial statements is 0.96x and 2.12x, respectively, which is compliant with the requirements of the term loan. The loan facility requires Cazneau to maintain current ratio of not less than 1.50x and debt to equity ratio of not more than 2.00x.

Construction of Lucima Residences

In 2021, the Company entered into a term loan facility of ₱930.0 million with a local bank to partially finance the construction of Lucima Residences. Loan proceeds are available in multiple tranches for a period of 3 years from the date of initial drawdown. The outstanding loan balance is secured by real estate mortgage on the land of Bhavana located in Cebu City. Moreover, Bhavana is required to maintain debt to equity ratio of not more than 2.00x, current ratio of not less than 1.50x and project debt to equity ratio not exceeding 0.50x.

The debt to equity ratio, current ratio and project debt to equity ratio of Bhavana as at December 31, 2021 based on its financial statements is 1.22x, 1.69x and 0.48x, respectively, which is compliant with the requirements of the term loan.

Development of Green Projects

On February 14, 2020, ALCO entered into a term loan agreement of ₱1,000.0 million with a local bank to obtain financing for the Group's eligible green projects, including land banking, investments and refinancing in relation to eligible green projects. A drawdown of ₱1,000.0 million was made within the same year. ALCO is required to submit a regular disbursement report to the bank soon after the date the proceeds was utilized to confirm that the proceeds has been used for the eligible green projects.

Private Funders

Outstanding balances of the loans from private funders amounting to ₱60.7 million and ₱84.7 million as at December 31, 2021 and 2020 have interest rate of 3.50% p.a., are unsecured and are for working capital requirements of the Group.

Effect of Changes in the Parent Company's Ownership Interest in a Subsidiary

In December 2021, the Parent Company purchased 214,351 common and 118,982 preferred shares representing 40% of the ownership and voting rights of CLLC for ₱113.2 million from RSBV resulting to 100% ownership of the Parent Company in CLLC. The difference between the acquisition cost and book value amounting to ₱60.5 million was recorded as reduction to equity reserves (see Note 4).

In 2020, excess of proceeds over the cost of disposed interest in a subsidiary pertains to the difference between the amount received by ALCO of ₱275.0 million, net of transaction costs and taxes of ₱40.5 million, for the sale of 40% of KHI's shares sold to MEC (see Note 1).

Stock Options Outstanding

On October 16, 2009, the stockholders approved the 2009 ALCO Stock Option Plan with the objective of providing material incentive to qualified employees of the Group. The total amount of shares which are available and may be issued for this purpose will amount to 10% of ALCO's total outstanding capital stock at any given time. The period during which a Qualified Employee may exercise the option to purchase such number of common shares granted to him/her will be three (3) years commencing after he or she has rendered the mandatory one year service to the Corporation in accordance with the following schedule:

- i. Within the first 12 months from grant date - up to 33.33%
- ii. Within the 13th to the 24th month from grant date - up to 33.33%
- iii. Within the 25th to 36th month from grant date - up to 33.33%

On December 14, 2018, the BOD approved granting options equivalent to not more than 90.0 million common shares to its qualified employees. On June 26, 2020, the number of options granted and issued to qualified employees amounted to ₱55.4 million shares. The total fair value of stock options granted amounted to ₱7.2 million and ₱6.5 million as at December 31, 2021 and 2020, respectively. The fair values of stock options granted are estimated on the date of grant using the Black-Scholes Merton (BSM) Formula taking into the account the terms and conditions upon which the options were granted. The BSM Formula utilized inputs namely; market value of the share, time to maturity, dividend yield, and risk free rate.

Fair value of each option at grant date is ₱0.14. Assumptions used to determine the fair value of the stock options are as follow:

Weighted average share price	₱0.65
Exercise price	₱0.50
Expected volatility	2.40%
Dividend yield	1.32%
Risk-free interest rate	1.35%

As at December 31, 2021 and 2020, none of the qualified employees have exercised their options.

Use of Proceeds

Series D Preferred Shares

The estimated gross proceeds from the offer of Series D Preferred Shares amounted to ₱3,000.0 million. The actual net proceeds from the offer of the shares, after deducting the related expenses to the offer, amounted to ₱2,966.7 million.

The following table shows the breakdown of the use of the proceeds (amounts in millions):

Purpose	Per Offer Supplement	Actual Net Proceeds	Actual Disbursement as at 12/31/2021	Balance for Disbursement as at 12/31/2021

21. Net Retirement Liability

The Group has a funded and non-contributory defined benefit retirement plan covering all of its qualified employees. The retirement benefits are based on years of service and compensation on the last year of employment as determined by an independent actuary. The normal retirement age is 60 with a minimum of five years of credited service. The plan also provides for an early retirement at age 50 with minimum of five years of credited service or late retirement after age 60, both subject to the approval of the Company's BOD.

The plan is exposed to interest rate risks and changes in the life expectancy of qualified employees. The plan is not exposed to significant concentrations of risk on the plan assets.

There are no unusual or significant risks to which the retirement liability exposes the Group. However, in the event a benefit claim arises under the retirement liability, the benefit shall immediately be due and payable from the Parent Company.

The following tables summarize the components of retirement benefit costs recognized in the consolidated statements of comprehensive income (based on the report of an independent actuary dated January 14, 2022):

Details of retirement expense is as follows (see Note 18):

	2021	2020	2019
Current service cost	₱22,933,142	₱18,666,937	₱18,130,347

The expected future benefit payments within the next ten years are as follows:

Financial Year	Amount
2022	P67,945,586
2023	802,412
2024-2031	82,100,350

The weighted average duration of the retirement benefit obligation as at December 31, 2021 and 2020 are 9.8 years and 10.8 years, respectively.

22. Commitments

Operating Lease Commitments - Group as Lessor

The Parent Company entered into various lease agreements in ACPT for periods ranging from one (1) year to 10 years. Majority of lease agreements include an escalation clause of 5% every year. The lease contracts do not provide for any contingent rent.

In addition, MPI has various lease agreements for its retail units in Arya Residences. The term of the lease ranges from two (2) to five (5) years. The lease agreements also provide for various escalation rates for the duration of the agreements.

Moreover, Cazneau has entered into lease agreements for its dormitory units in Courtyard Hall. The term is renewable every semester.

Leasing revenue recognized from these operating leases amounted to P325.5 million in 2021, P371.6 million in 2020 and P321.9 million in 2019 (see Note 17). Lease receivables amounted to P153.5 million and P88.9 million as at December 31, 2021 and 2020, respectively (see Note 8). Accrued rent receivable amounted to P66.2 million and P89.6 million as at December 31, 2021 and 2020, respectively (see Note 8). Advance rent from tenants amounted to P39.3 million and P36.2 million as at December 31, 2021 and 2020, respectively. Security deposits, which may be applied to unsettled balances or refunded at the end of the lease term, amounted to P83.3 million and P81.1 million as at December 31 2021 and 2020, respectively (see Note 15).

The future minimum lease payments to be received under non-cancellable operating leases as at December 31 are as follows:

	2021	2020
Within one year	₱261,888,151	₱256,810,411
After one year but not more than five years	453,024,093	617,893,681
More than five years	13,221,455	24,261,443
	₱728,133,699	₱898,965,535

Operating Lease Commitment - Group as Lessee

The Parent Company is a lessee under non-cancellable operating lease where its office space is situated. In 2018, the Parent Company transferred its office to ACPT. This resulted to the termination of its non-cancellable operating lease. For short-term and low value leases, rent expense recognized amounted to ₱2.3 million in 2021, ₱3.0 million in 2020 and ₱1.7 million in 2019 (see Note 18).

PEZA Registration

ACPT is registered with the Philippine Economic Zone Authority (PEZA) as an Ecozone Facilities Enterprise (see Note 1). The scope of its registered activity is limited to development, operation and maintenance of an economic zone.

Under the PEZA Registration Agreement, ACPT is entitled to:

- 5% GIT, in lieu of all national and local taxes; and
- Tax and duty-free importation of capital equipment required for the technical viability and operation of the registered facilities or activities.

Any income from activities of ACPT outside the PEZA-registered activities is subject to RCIT.

Corporate Recovery and Tax Incentives for Enterprises (“CREATE”) Law

On March 26, 2021, the Corporate Recovery and Tax Incentives for Enterprises (“CREATE”) was approved and signed into law by the country’s President. Under the CREATE, the regular corporate income tax (RCIT) of domestic corporations was revised from 30% to 25% or 20% depending on the amount of total assets or total amount of taxable income. In addition, the minimum corporate income tax (MCIT) was changed from 2% to 1% of gross income for a period of three (3) years. The changes in the income tax rates shall retrospectively become effective beginning July 1, 2020.

However, the income tax rates used in preparing the financial statements as at and for the year ended December 31, 2020 are 30% and 2% for RCIT and MCIT, respectively. The difference amounting to ₱301.2 million arising from the changes in income tax rates was recognized in 2021.

24. Related Party Transactions

The Group, in its regular conduct of business, has transactions with its related parties. The following tables summarize the transactions with the related parties and outstanding balance arising from these transactions.

Share Purchase Agreement

The Parent Company has an outstanding receivable from CPG amounting to ₱36.1 million as at December 31, 2021 and 2020 arising from a share purchase agreement between the Parent Company, CPG and AOCH1. Under the claw-back provision of the share purchase agreement, the Parent Company warrants the final resolution acceptable to CPG and its counsel with respect to the pending complaint involving the property owned by UPHI, which includes, among others, removing all doubt on the ownership of UPHI over the property. In the event the satisfactory evidence is submitted by the Parent Company to CPG, the latter shall pay to the Parent Company the entire claw-back amount or a portion thereof plus interest earned in which the claw-back amount was held in escrow.

Advances for Working Capital

This pertains to expenses advanced by the Group to the related parties. Outstanding balances of advances for working capital are unsecured, unguaranteed, collectible or payable on demand and to be settled in cash. The Group’s allowance for ECL on due from related parties amounted to nil as at December 31, 2021 and 2020.

Management Fee

Management fees are recognized for management consultancy, development and administrative services provided by CPG. Outstanding balances are unsecured, noninterest-bearing, payable on demand and to be settled in cash.

Compensation of Key Management Personnel

The compensation of key management personnel are as follows:

	2021	2020	2019
Salaries and other employee benefits	₱82,773,183	₱89,599,050	₱83,779,871

	₱109,931,622	₱113,694,312	₱107,875,133

Transactions with the Retirement Plan

The Parent Company's retirement fund is administered and managed by a trustee bank. The fair value of plan assets, which are primarily composed of unit investment trust funds, amount to ₱40.4 million and ₱50.9 million as of December 31, 2021 and 2020 (see Note 21).

The retirement fund neither provides any guarantee or surety for any obligation of the Parent Company nor its investments covered by any restrictions or liens. The details of the contributions of the Parent Company and benefits paid out by the plan are presented in Note 21.

25. Reconciliation of Liabilities Arising from Financing Activities

The table below details changes in the Group's liabilities arising from financing activities, including both cash and non-cash changes:

26. Earnings Per Share

Basic and diluted earnings per share are computed as follows:

	2021	2020	2019
Net income attributable to equity holders of the Parent Company	₱899,510,260	₱887,295,539	₱1,187,016,033
Less share of Series B and C Preferred Shares	(210,192,000)	(210,192,000)	(175,554,000)
Net income attributable to equity holders of the Parent Company for basic and diluted earnings per share	₱689,318,260	₱677,103,539	₱1,011,462,033
Weighted average number of outstanding common shares for basic EPS	5,318,095,199	5,318,095,199	5,318,095,199
Add dilutive shares arising from stock options	55,400,000	55,400,000	—
Adjusted weighted average number of common shares for diluted EPS	5,373,495,199	5,373,495,199	5,318,095,199
Basic EPS	₱0.1296	₱0.1273	₱0.1902
Diluted EPS	₱0.1283	₱0.1260	₱0.1902

Basic EPS is computed by dividing net income for the year attributable to common equity holders of the Parent Company by the weighted average number of common shares issued and outstanding during the year.

Diluted EPS is computed by dividing net income for the year attributable to common equity holders of the Parent Company by the weighted average number of common shares issued and outstanding during the year plus the weighted average number of common shares that would be issued on conversion of all the dilutive potential common shares into common shares.

27. Financial Risk Management Objectives and Policies

The Group's financial instruments comprise cash in banks, cash equivalents, financial assets at FVPL, receivables (excluding advances for project development and accrued rent receivable under straight-line basis of accounting), amounts held in escrow, deposits, loans and bonds payable, accounts payable and other liabilities (except statutory liabilities, advance rent and payable to buyers) and advances from non-controlling interests.

It is the Group's policy that no trading in financial instruments shall be undertaken. The main risks arising from the Group's financial instruments are credit risk, liquidity risk and interest rate risk. The BOD reviews and approves policies for managing these risks as summarized below.

Foreign Currency Risk

The Group's exposure to foreign currency risk is minimal, as it does not enter into significant transactions in currencies other than its functional currency.

Credit Risk

The Group's exposure to credit risk arises from the failure of a counterparty to fulfill its financial commitments to the Group under the prevailing contractual terms. Financial instruments that potentially subject the Group to credit risk consist primarily of trade receivables and other financial assets at amortized cost. The carrying amounts of financial assets at amortized cost and contract assets represent its maximum credit exposure.

Trade Receivables and Contract Assets

Management has established a credit policy under which each new customer is analyzed individually for creditworthiness before the Group's standard payment and delivery terms, and conditions are offered. The Group's credit policy includes available external ratings, financial statements, credit agency information, industry information and, in some cases, bank references. Credit limits are established for each customer and reviewed on a regular basis. Any sales on credit exceeding those limits require specific approval from upper level of management. The Group limits its exposure to credit risk by transacting mainly with recognized and creditworthy customers that have undergone its credit evaluation and approval process. Historically, trade receivables are substantially collected within one (1) year and it has no experience of writing-off or impairing its trade receivables due to the effectiveness of its collection. As customary in the real estate business, title to the property is transferred only upon full payment of the purchase price. There are also provisions in the sales contract which allow forfeiture of installments or deposits made by the customer in favor of the Group. Also, customers are required to deposit postdated checks to the Group covering all installment payments. These measures minimize the credit risk exposure or any margin loss from possible default in the payment of installments. Trade receivables from lease are closely monitored on aging of the account. As at December 31, 2021 and 2020, there were no significant credit concentrations. The maximum exposure at the end of the reporting period is the carrying amount of trade receivables and contract assets.

Other Financial Assets at Amortized Cost

The Group's other financial assets at amortized cost are mostly composed of cash in banks, cash equivalents and amounts held in escrow. The Group limits its exposure to credit risk by investing only with banks that have good credit standing and reputation in the local and international banking industry. These instruments are graded in the top category by an acceptable credit rating agency and, therefore, are considered to be low credit risk investments.

For deposits, credit risk is low since the Group only transacts with reputable companies and individuals with respect to this financial asset.

It is the Group's policy to measure ECL on the above instruments on a 12-month basis. However, when there has been a significant increase in credit risk since origination, the allowance will be based on the lifetime ECL. When determining if there has been a significant increase in credit risk, the Group considers reasonable and supportable information that is available without undue cost or effort and that is relevant for the particular financial instrument being assessed such as, but not limited to, the following factors:

- Actual or expected external and internal credit rating downgrade;
- Existing or forecasted adverse changes in business, financial or economic conditions; and
- Actual or expected significant adverse changes in the operating results of the borrower.

The Group also considers financial assets that are more than 30 days past due to be the latest point at which lifetime ECL should be recognized unless it can demonstrate that this does not represent significant credit risk such as when non-payment arising from administrative oversight rather than resulting from financial difficulty of the borrower.

Financial Assets at FVPL

The Group is also exposed to credit risk in relation to its investment in money market fund that is measured at FVPL. The maximum exposure at the end of the reporting period is the carrying amount of these investments.

The table below presents the summary of the Group's exposure to credit risk and shows the credit quality of the assets by indicating whether the assets are subjected to 12-month ECL or lifetime ECL.

Assets that are credit-impaired are separately presented.

The Group monitors its risk to a shortage of funds through analyzing the maturity of its financial investments and financial assets and cash flows from operations. The Group monitors its cash position by a system of cash forecasting. All expected collections, check disbursements and other payments are determined on a daily basis to arrive at the projected cash position to cover its obligations.

The Group's objective is to maintain a balance between continuity of funding and flexibility. The Group addresses liquidity concerns primarily through cash flows from operations.

Interest Rate Risk

Interest rate risk is the risk that future cash flows from a financial instrument (cash flow interest rate risk) or its fair value (fair value interest rate risk) will fluctuate because of changes in market interest rates.

The Group's loans payable to local banks are subject to fixed interest rates and are exposed to fair value interest rate risk. The re-pricing of these instruments is done on annual intervals.

The Group regularly monitors interest rate movements and on the basis of current and projected economic and monetary data, decides on the best alternative to take. No sensitivity analysis is needed as future interest rate changes are not expected to significantly affect the Group's consolidated net income.

Impact of COVID-19

The varying level of community quarantine that have been enforced in the different parts of the country since its initial imposition on March 16, 2020 have created significant impact to business in general. Industries considered as non-essential have been ordered closed, travel restrictions were implemented, and large areas of communities were locked down.

In spite of the difficulties posed by these challenges, the Company has been agile and resilient enough to adopt to the “new normal” the situation has created. It has developed and executed a business continuity protocol which has allowed the Company to continue functioning and operating except in areas where no alternative means, given existing circumstances, are readily available.

To date, management is monitoring all the ongoing COVID-19 related developments to assess, anticipate, and develop appropriate business strategies moving forward.

Capital Management

The Group’s capital management objectives are to ensure the Group’s ability to continue as a going concern and to provide an adequate return to shareholders by pricing products and services commensurate with the level of risk.

The Group monitors capital on the basis of the carrying amount of equity as presented in the consolidated statements of financial position. Capital for the reporting periods under review is summarized as follows:

	2021	2020
Total liabilities	₱23,619,149,934	₱18,317,098,613
Total equity	11,052,136,913	9,230,104,456
Debt-to-equity ratio	2.14:1.00	1.98:1.00

The Group manages the capital structure and makes adjustments when there are changes in the economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, issue new shares or sell assets to reduce debt.

28. Fair Value Measurement

The following table presents the carrying amounts and fair values of the Group’s assets and liabilities measured at fair value and for which fair values are disclosed, and the corresponding fair value hierarchy:

		₱12,264,220,021	₱—	₱—	₱12,761,784,063

The following methods and assumptions were used in estimating the fair value of the Group's financial assets and liabilities:

Financial Assets and FVPL. The fair value of financial assets at FVPL is classified under Level 1 of the fair value hierarchy using quoted market prices.

Investment Properties. The fair value of investment properties were determined using land development approach, discounted cash flow approach and market data approach.

Deposits, Loans and Bonds Payable. The fair value of the Group's deposits, loans and bonds payable were determined by discounting the sum of all future cash flows using the prevailing market rates of interest for instruments with similar maturities. Interest-bearing loans and bonds payable include accrued interest in the estimation of its fair value.

The table below presents the financial assets and liabilities of the Group whose carrying amounts approximate fair values as at December 31, 2021 and 2020:

INDEPENDENT AUDITORS REPORT ON COMPONENTS OF FINANCIAL SOUNDNESS INDICATORS

The Stockholders and the Board of Directors
Arthaland Corporation and Subsidiaries
7/F Arthaland Century Pacific Tower
5th Avenue corner 30th Street
Bonifacio Global City, Taguig City

We have audited in accordance with Philippine Standards on Auditing, the consolidated financial statements of Arthaland Corporation (the Company) and Subsidiaries (the Group) as at December 31, 2021 and 2020 and for each of the three years ended December 31, 2021, 2020 and 2019, and have issued our report thereon dated March 23, 2022. Our audits were made for the purpose of forming an opinion on the basic consolidated financial statements taken as a whole. The Supplementary Schedule on Financial Soundness Indicators, including their definitions, formulas, calculation, and their appropriateness or usefulness to the intended users, are the responsibility of the Group's management. These financial soundness indicators are not measures of operating performance defined by Philippine Financial Reporting Standards (PFRS) and may not be comparable to similarly titled measures presented by other companies. This schedule is presented for purposes of complying with the Revised Securities Regulation Code Rule 68 issued by the Securities and Exchange Commission, and is not a required part of the basic consolidated financial statements prepared in accordance with PFRS. The components of these financial soundness indicators have been traced to the Group's consolidated financial statements as at December 31, 2021 and 2020 and for each of the three years ended December 31, 2021, 2020 and 2019 and no material exceptions were noted.

ARTHALAND CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. GENERAL INFORMATION

Corporate Information

Arthaland Corporation (the Parent Company or ALCO) was incorporated and registered with the Philippine Securities and Exchange Commission (SEC) on August 10, 1994. ALCO's common shares and Series C and D preferred shares are listed for trading in the Philippine Stock Exchange (PSE). The Parent Company is primarily engaged in real estate development and leasing.

The Parent Company is currently 40.3% owned by CPG Holdings, Inc. (CPG) and 26.0% owned by AO Capital Holdings 1, Inc. (AOCH1), both holding companies incorporated in the Philippines.

In June 2019, the Parent Company made a follow-on offering of 10.0 million cumulative, nonvoting, nonparticipating and nonconvertible Peso-denominated Series C preferred shares at ₱1.00 par value a share at the issuance price of ₱100 a share (see Note 16).

In January 2020, the SEC approved the registration of ALCO's ASEAN Green Bonds and the initial tranche of ₱2.0 billion bonds with an offer subscription of ₱1.0 billion (see Note 13).

In December 2021, the Parent Company made a follow-on offering of 6.0 million cumulative, nonvoting, nonparticipating and nonconvertible Peso-denominated Series D preferred shares at ₱1.00 par value at the issuance price of ₱500 a share (see Note 16). Moreover, the Parent Company redeemed all of the outstanding 20.0 million Series B Preferred Shares equal to its offer price plus any accrued and unpaid cash dividends due as of date.

The registered office and principal place of business of the Parent Company is located at 7/F Arthaland Century Pacific Tower, 5th Avenue corner 30th Street, Bonifacio Global City (BGC), Taguig City.

Composition of the Group

The consolidated financial statements include the Parent Company and the following subsidiaries (collectively referred herein as “the Group”):

Subsidiary	Place of Incorporation	Effective % of Ownership		
		2021	2020	2019
Cazneau, Inc. (Cazneau)	Philippines	100%	100%	100%

Savya Land Development Corporation (SLDC)	Philippines	59%*	59%*	98%

**Indirectly owned thru KHI*

All of the subsidiaries were established to engage primarily in real estate development and property leasing, except for EPMI which is a property management company and KHI which is an investment holding company.

In March 2018, the Parent Company and Help Holdings Inc. (HHI) (collectively referred to as the Parties) entered into an agreement (the Agreement) to jointly develop the adjacent lots (the Property) of SLDC and Arcosouth Development Inc. (ADI), the subsidiary of HHI, aggregating 5,991 square meters (sqm) located in Arca South, Taguig City. The Parties agreed, among others to merge SLDC and Arcosouth into a single corporation, with SLDC as the surviving entity. The merger of SLDC and Arcosouth was approved by the SEC on August 22, 2019.

Also, in August 2019, ALCO and Mitsubishi Estate Company, Limited (MEC), a corporation duly organized and existing under the laws of Japan, have agreed to invest in, establish and maintain a joint venture company to be owned 60% by ALCO and 40% by MEC which will (i) acquire and, thereafter, own and hold the 50% ownership in SLDC, and (ii) acquire by assignment the shareholder's advances made by ALCO to SLDC. On October 1, 2019, ALCO incorporated KHI as the designated joint venture company.

In 2020, ALCO transferred all of its shares in SLDC, representing 98.5% ownership over SLDC, to KHI. Then in June 2020, ALCO sold 5 million common shares in KHI with total par value of ₱5.0 million, representing 40% ownership over KHI, to MEC for ₱275.0 million (see Note 15). The transfer of KHI's shares decreased the effective ownership of ALCO over SLDC from 98% to 59%.

In 2019, the Parent Company subscribed to 100% shares of Bhavana, Bhavya and PLI. In December 2021, the Parent Company sold, transferred and conveyed 10.0 million common shares each of Bhavana and Bhavya representing 40% ownership and voting rights, as well as the Parent Company's shareholder advances, to Narra Properties Investment PTE. LTD (Narra), a corporation duly organized and existing under the laws of Singapore (see Note 15).

In December 2021, the Parent Company purchased 214,351 common and 118,982 preferred shares representing 40% of the ownership and voting rights of CLLC for ₱113.2 million from Rock and Salt B.V. (RSBV) resulting to 100% ownership in CLLC (see Note 15).

Major Projects

ALCO's first major development project is the Arya Residences Towers 1 and 2 (Arya Residences) located in BGC, Taguig City. Arya Residences is the first top-market residential condominium development in the Philippines to be awarded with Leadership in Energy and Environmental Design (LEED) Gold certification by the US Green Building Council (USGBC) and Building for Ecologically Responsive Design Excellence (BERDE) 4-Star rating by the Philippine Green Building Council (PHILGBC). The Arya Residences was completed on December 31, 2016.

In 2014, the Parent Company started the construction of Arthaland Century Pacific Tower (ACPT) in BGC, ALCO's flagship office project. ACPT is a 30-storey AAA-grade office building designed by Skidmore, Owings & Merrill (SOM), the same group that penned the One World Trade Center and Burj Khalifa in Dubai. ACPT secured the LEED Platinum and BERDE 5-star certification in 2018. ACPT became the first office building in the Philippines to secure the dual certification of the highest rating from USGBC LEED as Platinum and PHILGBC's BERDE as 5-star rated. It is registered with the Philippine Economic Zone Authority (PEZA) as an Ecozone Facilities Enterprise (see Note 23) and was completed in the 1st quarter of 2019.

In 2019, the International Finance Corporation, a member of the World Bank Group, recognized ACPT as the world's first net zero certified building under its EDGE green building rating system. This recognition is in addition its LEED and BERDE certification achieved previously. In 2020 until to-date, ACPT was awarded with the WELL Health-Safety Rating seal by the International WELL Building Institute (IWBI) which certifies the building's safe operations even during the COVID-19 pandemic.

In 2016, CLLC commenced the development of Cebu Exchange Project (Cebu Exchange), a 38-storey office building in Barangay Lahug, Cebu City. The Cebu Exchange was awarded the LEED Gold precertification and BERDE Design 5-Star. In 2020, the project was awarded WELL precertification by IWBI. Besides being designed to be a world-class workplace, Cebu Exchange is envisioned to be a

complete ecosystem, with four retail floors for the convenience of its occupants. With a gross floor area of 108,564 sqm, Cebu Exchange boasts of being the largest multi-certified green and healthy building in the country. The construction of Cebu Exchange commenced in the second quarter of 2018 and is expected to be completed in 2022.

In 2018, Cazneau started the construction of the first phase of Sevina Park, an integrated community project in an eight-hectare property in Laguna. The initial development called Courtyard Hall, covering the first 4,000 sqm of the property, is a campus-type or dormitory-type residential community (see Note 10). This was completed in June 2019. Also, in June 2019, Cazneau launched the Garden Villas at Sevina Park which cater to students and faculty population, and starter families within the area. The entire project, which will include retail spaces, is expected to be completed in from 2022 onward.

Sevina Park is recognized as the first and only real estate development in the Philippines to have received the LEED Platinum under the LEED for Neighborhood Development (LEED ND) and LEED for Homes categories. Likewise, Sevina Park Villas turnover units are on track to EDGE Advanced under the EDGE and the remaining Villa-182 turnover units for Gold certification under the LEED for Homes. Sevina Park's 4-Bedroom Villa 182 Model Unit initiated the Villa's certification process by achieving LEED Platinum certification in 2020.

In December 2018, ZLDC acquired about 47.4% of a 2,018-sqm property located along Antonio Arnaiz Avenue within the Makati Central Business District. On this site, ZLDC, together with the other party which acquired the remaining 52.6% of the total area of the condominium units are still working on getting the property partitioned to enable the Company to have 100% ownership over 47.4% of the land area of the Property, which is equivalent to 957 square meters. Once the partition is completed, the Company plans to develop its portion into a high-end, sustainable, multi-certified residential project.

In February 2019, SLDC launched the development of Savva Financial Center. This project is composed of two office towers with a gross floor area of 59,763 sqm and located in Arca South, Taguig City. The North and South Tower (of the Savva Financial Tower) is expected to be completed in 2022. Savva's North Tower was launched for pre-selling in February 2019. Also in 2019, the project received LEED Gold precertification and in 2021, WELL precertification.

In August 2019, Bhavya started acquiring a prime property located inside the Makati Central Business District. Bhavya intends to develop therein a pioneer residential project which will be a low-density, multi-certified, ultra-luxury development that will offer large, limited edition designer residences. Once completed, its future residents will enjoy exceptional white glove butler services. This project which will be called "Eluria" offers only 37 residential units and will have a total gross floor area of approximately 14,600 sqm. It will be formally launched in 2022.

In July 2021, Bhavana launched the development of Lucima Residences. The property will be developed into the first and only premiere, multi-certified, sustainable high-rise development located in Cebu Business Park at the Corner Samar Loop Road and Ayala, Hipodromo, Cebu City. It has a total area of 2,245 sqm and is expected to be developed into approximately 28,000 sqm of GFA and will offer 263 residential units. The project is on-track to achieve quadruple certification including LEED, BERDE, EDGE and WELL certifications from USGBC, PHILGBC, IFC and IWBI (International WELL Building Institute). Lucima was launched in July 2021 and is expected to be completed by the fourth quarter of 2024.

Approval of the Interim Consolidated Financial Statements

The interim consolidated financial statements of the Group as at and for the three (3) months ended March 31, 2022 were approved and authorized for issue by the Board of Directors (BOD) on May 4, 2022.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Preparation

The interim consolidated financial statements as of March 31, 2022 and December 31, 2021 and for the three months ended March 31, 2022 and 2021 have been prepared in compliance with Philippine Accounting Standards (PAS) 34, *Interim Financial Reporting*. They do not include all of the information and disclosures required in the annual audited consolidated financial statements and should be read in conjunction with the consolidated financial statements of the Group as at and for the year ended December 31, 2021.

Measurement Bases

The interim consolidated financial statements are presented in Philippine Peso, the Group's functional and presentation currency. Functional currency is the currency of the primary economic environment in which the Group operates. All values are stated in absolute amounts, unless otherwise indicated.

The interim consolidated financial statements of the Group have been prepared on a historical cost basis, except for fair value through profit or loss (FVPL) and investment properties that are carried at fair values and net retirement liability which is carried at the present value of the defined benefit obligation at the end of the reporting period. Historical cost is generally based on the fair value of the consideration given in exchange for assets and fair value consideration received in exchange for incurring liability.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer or the liability takes place either:

- in the principal market for the asset or liability; or
- in the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

When measuring the fair value of an asset or a liability, the Group uses market observable data to the extent possible. If the fair value of an asset or a liability is not directly observable, it is estimated by the Group (working closely with external qualified valuers) using valuation techniques that maximize the use of relevant observable inputs and minimize the use of unobservable inputs (e.g. by use of the market comparable approach that reflects recent transaction prices for similar items, discounted cash flow analysis, or option pricing models refined to reflect the issuer's specific circumstances). Inputs used are consistent with the characteristics of the asset or liability that market participants would take into account.

Further information about assumptions made in measuring fair values is included in the following:

- Note 3 - Significant Accounting Judgments, Estimates and Assumptions
- Note 5 - Financial Assets at FVPL
- Note 9 - Investment Properties

- Note 27 - Fair Value Measurement

Fair values are categorized into different levels in a fair value hierarchy based on the degree to which the inputs to the measurement are observable and the significance of the inputs to the fair value measurement in its entirety:

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Transfers between levels of the fair value hierarchy are recognized by the Group at the end of the reporting period during which the change occurred.

Adoption of PIC Issuances

The accounting policies adopted are consistent with those of the previous financial year, except for the adoption of the following PIC issuances which the Group adopted effective for annual periods beginning on or after January 1, 2021 -

PIC Q&A 2020-05 Accounting for Cancellation of Real Estate Sales – Under this PIC Q&A the sales cancellation and repossession of the property may be accounted by using any of the three approaches (a) the reposessed property is recognized at fair value less cost to repossess; (b) the reposessed property is recognized at fair value plus repossession cost; or (c) the cancellation is accounted for as a modification of the contract where the Group will have to reverse the previously recognized revenues and related costs. The approach selected shall be applied consistently.

Under prevailing circumstances, the adoption of the foregoing did not have any material effect on the consolidated financial statements. Additional disclosures were included in the notes to consolidated financial statements, as applicable.

Amendments to PFRS and PIC Issuances in Issue But Not Yet Effective or Adopted

Relevant amended PFRS which are not yet effective and have not been applied in preparing the consolidated financial statements are summarized below.

Effective for annual periods beginning on or after January 1, 2022:

- Amendments to PFRS 3, *Reference to Conceptual Framework* – The amendments will replace the reference of PFRS 3 from the 1989 Framework to the current 2018 Conceptual Framework. The amendments include an exception that specifies that, for some types of liabilities and contingent liabilities, an entity applying PFRS 3 should refer to PAS 37, *Provisions, Contingent Liabilities and Contingent Assets*, or IFRIC 21, *Levies*, instead of the Conceptual Framework. The requirement will ensure that the liabilities recognized in a business combination will remain the same as those recognized applying the current requirements in PFRS 3. The amendments also clarified that an acquirer shall not recognize contingent assets acquired in a business combination. The amendments should be applied prospectively.
- Amendments to PAS 16, *Property, Plant and Equipment - Proceeds Before Intended Use* – The amendments prohibit deducting from the cost of property, plant and equipment any proceeds from selling items produced while bringing that asset to the location and condition necessary for its intended use. Instead, the proceeds and related costs from such items shall be recognized in

profit or loss. The amendments must be applied retrospectively to items of property, plant and equipment made available for use on or after the beginning of the earliest period presented when an entity first applied the amendments.

- Amendments to PAS 37, *Onerous Contracts - Cost of Fulfilling a Contract* – The amendments clarify that for the purpose of assessing whether a contract is onerous, the cost of fulfilling a contract comprises both the incremental costs of fulfilling that contract and an allocation of costs directly related to contract activities. The amendments apply to contracts existing at the date when the amendments are first applied. At the date of initial application, the cumulative effect of applying the amendments is recognized as an opening balance adjustment to retained earnings or other component of equity, as applicable. Accordingly, the comparatives are not restated. Earlier application is permitted.
- Annual Improvements to PFRS 2018 to 2020 Cycle –
 - Amendment to PFRS 9, *Financial Instruments - Fees in the '10 per cent' Test for Derecognition of Financial Liabilities* – The amendment clarifies which fees an entity shall include when it applies the '10 per cent' test in assessing whether to derecognize a financial liability (i.e. whether the terms of a new or modified financial liability is substantially different from the terms of the original financial liability). These fees include only those paid or received between the borrower and the lender, including fees paid or received by either the borrower or the lender on the other's behalf. The amendment applies to financial liabilities that are modified or exchanged on or after the beginning of the annual reporting period in which the entity first applied the amendments. Earlier application is permitted.

Effective for annual periods beginning on or after January 1, 2023 -

- Amendments to PAS 1, *Classification of Liabilities as Current or Non-current* – The amendments clarify the requirements for an entity to have the right to defer settlement of the liability for at least 12 months after the reporting period. The amendments also specify and clarify the following: (i) an entity's right to defer settlement must exist at the end of the reporting period, (ii) the classification is unaffected by management's intentions or expectations about whether the entity will exercise its right to defer settlement, (iii) how lending conditions affect classification, and (iv) requirements for classifying liabilities where an entity will or may settle by issuing its own equity instruments. The amendments must be applied retrospectively. Earlier application is permitted.
- Amendments to PAS 1 and PFRS Practice Statement 2, *Disclosure Initiative – Accounting Policies* – The amendments require an entity to disclose its material accounting policies, instead of its significant accounting policies and provide guidance on how an entity applies the concept of materiality in making decisions about accounting policy disclosures. In assessing the materiality of accounting policy information, entities need to consider both the size of the transactions, other events or conditions and its nature. The amendments clarify (1) that accounting policy information may be material because of its nature, even if the related amounts are immaterial, (2) that accounting policy information is material if users of an entity's financial statements would need it to understand other material information in the financial statements, and (3) if an entity discloses immaterial accounting policy information, such information should not obscure material accounting policy information. In addition, PFRS Practice Statement 2, *Making Materiality Judgements*, is amended by adding guidance and examples to explain and demonstrate the application of the 'four-step materiality process' to accounting policy information. The amendments should be applied prospectively. Earlier application is permitted.
- Amendments to PAS 8, *Definition of Accounting Estimates* – The amendments clarify the distinction between changes in accounting estimates and changes in accounting policies, and the correction of errors. Under the new definition, accounting estimates are "monetary amounts in financial statements that are subject to measurement uncertainty". An entity develops an accounting estimate if an accounting policy requires an item in the financial statements to be measured in a way that involves measurement uncertainty. The amendments clarify that a change in accounting

estimate that results from new information or new developments is not a correction of an error, and that the effects of a change in an input or a measurement technique used to develop an accounting estimate are changes in accounting estimates if they do not result from the correction of prior period errors. A change in an accounting estimate may affect only the profit or loss in the current period, or the profit or loss of both the current and future periods. Earlier application is permitted.

- Amendments to PAS 12, *Deferred Tax Related Assets and Liabilities from a Single Transaction* – The amendments require companies to recognize deferred tax on transactions that, on initial recognition, give rise to equal amounts of taxable and deductible temporary differences. Earlier application is permitted.

Deferred effectivity:

- Amendments to PFRS 10, *Consolidated Financial Statements*, and PAS 28 - *Sale or Contribution of Assets Between an Investor and its Associate or Joint Venture* – The amendments address a conflicting provision under the two standards. It clarifies that a gain or loss shall be recognized fully when the transaction involves a business, and partially if it involves assets that do not constitute a business. The effective date of the amendments, initially set for annual periods beginning on or after January 1, 2016, was deferred indefinitely in December 2015 but earlier application is still permitted.
- *IFRIC Agenda Decision on Over Time Transfer of Constructed Goods (PAS 23, Borrowing Cost) for the Real Estate Industry* – In March 2019, IFRIC published an Agenda Decision on whether borrowing costs can be capitalized on real estate inventories that are under construction and for which the related revenue is/will be recognized over time under paragraph 35(c) of International Financial Reporting Standards 15 (PFRS 15). IFRIC concluded that borrowing costs cannot be capitalized for such real estate inventories as they do not meet the definition of a qualifying asset under PAS 23 considering that these inventories are ready for their intended sale in their current condition.

On December 15, 2020, the SEC issued SEC MC No. 34, Series of 2020, which extends the relief on the application of the IFRIC Agenda Decision provided to the real estate industry until December 31, 2023.

The Group availed of the SEC relief with respect to accounting for borrowing costs. Had the Group opted to adopt in full the guidance provided in the IFRIC agenda decision on over time transfer of constructed goods, borrowing costs would have been recognized as expense when incurred.

- PIC Q&A 2018-12, *PFRS 15 Implementing Issues Affecting the Real Estate Industry (as amended by PIC Q&A 2020-04)*. On December 15, 2020, the SEC issued SEC MC No. 34-2020 providing relief to the real estate industry by deferring the application of “assessing if the transaction price includes a significant financing component as discussed in PIC Q&A 2018-12-D (as amended by PIC Q&A 2020-04)” and the exclusion of land in the calculation of POC, until December 31, 2023.

The Group availed of the SEC relief with respect to accounting for significant financing component and exclusion of land in the calculation of POC. Accordingly, revenue from real estate sales is not adjusted for the effect of the time value of money, and the total cost incurred and total estimated cost to complete includes the cost of land.

Had the Group opted to adopt PIC Q&A 2018-12, there would have been a decrease in revenue from real estate sales because of a lower POC rate. In addition, the Group may have to recognize interest expense (income) if the buyers’ payments are higher (lower) than the POC rate.

Under prevailing circumstances, the adoption of the foregoing amendments to PFRS and PIC issuances, except for the potential impact of accounting for borrowing costs, the assessment if the transaction price includes a significant financing component and the exclusion of land in the calculation of POC, is not expected to have any material effect on the consolidated financial statements of the Group. Additional disclosures will be included in the consolidated financial statements, as applicable.

Basis of Consolidation

Subsidiaries. Subsidiaries are entities controlled by the Parent Company. Control is achieved when the Parent Company is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Parent Company controls an investee if and only if the Parent Company has:

- power over investee;
- exposure, or rights, to variable returns from its involvement with the investee; and
- the ability to use its power over the investee to affect its returns.

Subsidiaries are consolidated from the date of acquisition or incorporation, being the date on which the Parent Company obtains control, and continue to be consolidated until the date such control ceases.

The financial statements of the subsidiaries are prepared using the same reporting period of the Parent Company. Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. Intercompany balances and transactions, including intercompany profits and unrealized profits and losses, are eliminated in full.

A change in ownership interest of a subsidiary, without a change of control, is accounted for as an equity transaction. Upon the loss of control, the Group derecognizes the assets and liabilities of the subsidiary, any non-controlling interests and the other components of equity related to the subsidiary. Any surplus or deficit arising from the loss of control is recognized in profit or loss. If the Group retains interest in the previous subsidiary, then such interest is measured at fair value at the date control is lost. Subsequently, it is accounted for as an equity-accounted investee or as financial assets at fair value through other comprehensive income (FVOCI) depending on the level of influence retained.

Non-controlling interest represents the portion of profit or loss and net assets not held by the Parent Company and is presented separately in the Group's consolidated statements of comprehensive income and within equity in the Group's consolidated statements of financial position, separate from equity attributable to equity holders of the Parent Company, respectively.

Financial Assets and Liabilities

Date of Recognition. The Group recognizes a financial asset or a financial liability in the consolidated statements of financial position when it becomes a party to the contractual provisions of a financial instrument. In the case of a regular way purchase or sale of financial assets, recognition and derecognition, as applicable, is done using settlement date accounting.

Initial Recognition and Measurement. Financial instruments are recognized initially at fair value, which is the fair value of the consideration given (in case of an asset) or received (in case of a liability). The initial measurement of financial instruments, except for those designated at FVPL, includes transaction costs.

"Day 1" Difference. Where the transaction in a non-active market is different from the fair value of other observable current market transactions in the same instrument or based on a valuation technique whose variables include only data from observable market, the Group recognizes the difference between the transaction price and fair value (a "Day 1" difference) in profit or loss.

In cases where there is no observable data on inception, the Group deems the transaction price as the best estimate of fair value and recognizes “Day 1” difference in profit or loss when the inputs become observable or when the instrument is derecognized. For each transaction, the Group determines the appropriate method of recognizing the “Day 1” difference.

Classification. The Group classifies its financial assets at initial recognition under the following categories: (a) financial assets at FVPL, (b) financial assets at amortized cost and (c) financial assets at FVOCI. Financial liabilities, on the other hand, are classified as either financial liabilities at FVPL or financial liabilities at amortized cost. The classification of a financial instrument largely depends on the Group’s business model and its contractual cash flow characteristics.

As at March 31, 2022 and December 31, 2021, the Group does not have financial assets at FVOCI and financial liabilities at FVPL.

Financial Assets at FVPL. Financial assets at FVPL are either classified as held for trading or designated at FVPL. A financial instrument is classified as held for trading if it meets either of the following conditions:

- it is acquired or incurred principally for the purpose of selling or repurchasing it in the near term;
- on initial recognition, it is part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit-taking; or
- it is a derivative (except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument).

This category includes equity instruments which the Group had not irrevocably elected to classify at FVOCI at initial recognition. This category includes debt instruments whose cash flows are not “solely for payment of principal and interest” assessed at initial recognition of the assets, or which are not held within a business model whose objective is either to collect contractual cash flows, or to both collect contractual cash flows and sell.

The Group may, at initial recognition, designate a financial asset meeting the criteria to be classified at amortized cost or at FVOCI, as a financial asset at FVPL, if doing so eliminates or significantly reduces accounting mismatch that would arise from measuring these assets.

After initial recognition, financial assets at FVPL are subsequently measured at fair value. Unrealized gains or losses arising from the fair valuation of financial assets at FVPL are recognized in profit or loss.

As at March 31, 2022 and December 31, 2021, the Group classified its investments in money market fund under this category (see Note 5).

Financial Assets at Amortized Cost. Financial assets shall be measured at amortized cost if both of the following conditions are met:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise, on specified dates, to cash flows that are solely payments of principal and interest on the principal amount outstanding.

After initial recognition, financial assets at amortized cost are subsequently measured at amortized cost using the effective interest method, less allowance for impairment, if any. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees that are an integral part of the effective interest rate. Gains and losses are recognized in profit or loss when the financial assets are derecognized and through amortization process. Financial assets at amortized cost are included under current assets if realizability or collectability is within 12 months after the reporting period. Otherwise, these are classified as noncurrent assets.

As at March 31, 2022 and December 31, 2021, the Group's contract assets, cash in banks, cash equivalents, receivables (excluding accrued rent under straight-line basis of accounting), amounts held in escrow, and deposits are classified under this category (see Notes 4, 6, 7, and 11).

Cash in banks are demand deposits with banks and earn interest at prevailing bank deposit rates. Meanwhile, cash equivalents are short-term highly liquid investments that are readily convertible into known amounts of cash, which are subject to an insignificant risk of changes in value and which have a maturity of three (3) months or less at acquisition.

Financial Liabilities at Amortized Cost. Financial liabilities are categorized as financial liabilities at amortized cost when the substance of the contractual arrangement results in the Group having an obligation either to deliver cash or another financial asset to the holder, or to settle the obligation other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of its own equity instruments.

These financial liabilities are initially recognized at fair value less any directly attributable transaction costs. After initial recognition, these financial liabilities are subsequently measured at amortized cost using the effective interest method. Amortized cost is calculated by taking into account any discount or premium on the issue and fees that are an integral part of the effective interest rate. Gains and losses are recognized in profit or loss when the liabilities are derecognized or through the amortization process.

As at March 31, 2022 and December 31, 2021, the Group's loans and bonds payable, accounts payable and other liabilities (excluding statutory payables, payable to buyers and advance rent), contract liabilities and advances from non-controlling interests are classified under this category (see Notes 7, 12, 13, 14, 15 and 27).

Reclassification

The Group reclassifies its financial assets when, and only when, it changes its business model for managing those financial assets. The reclassification is applied prospectively from the first day of the first reporting period following the change in the business model (reclassification date).

For a financial asset reclassified out of the financial assets at amortized cost category to financial assets at FVPL, any gain or loss arising from the difference between the previous amortized cost of the financial asset and fair value is recognized in profit or loss.

For a financial asset reclassified out of the financial assets at amortized cost category to financial assets at FVOCI, any gain or loss arising from a difference between the previous amortized cost of the financial asset and fair value is recognized in other comprehensive income (OCI).

For a financial asset reclassified out of the financial assets at FVPL category to financial assets at amortized cost, its fair value at the reclassification date becomes its new gross carrying amount.

For a financial asset reclassified out of the financial assets at FVPL category to financial assets at FVOCI, its fair value at the reclassification date becomes its new gross carrying amount. Meanwhile, for a financial asset reclassified out of the financial assets at FVOCI category to financial assets at FVPL, the cumulative gain or loss previously recognized in OCI is reclassified from equity to profit or loss as a reclassification adjustment at the reclassification date.

Impairment of Financial Assets at Amortized Cost

The Group records an allowance for expected credit loss (ECL). ECL is based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive. The difference is then discounted at an approximation to the asset's original effective interest rate.

For trade receivables and contract assets, the Group has applied the simplified approach and has calculated ECL based on the lifetime ECL. The Group has established a provision matrix that is based

on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

For other financial assets measured at amortized cost, the ECL is based on the 12-month ECL, which pertains to the portion of lifetime ECL that result from default events on a financial instrument that are possible within 12 months after the reporting date. However, when there has been a significant increase in credit risk since initial recognition, the allowance will be based on the lifetime ECL. When determining whether the credit risk of a financial asset has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and consider reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since initial recognition.

Derecognition of Financial Assets and Liabilities

Financial Assets. A financial asset (or where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized when:

- the right to receive cash flows from the asset has expired;
- the Group retains the right to receive cash flows from the financial asset, but has assumed an obligation to pay them in full without material delay to a third party under a “pass-through” arrangement; or
- the Group has transferred its right to receive cash flows from the financial asset and either (a) has transferred substantially all the risks and rewards of the asset, or (b) has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its right to receive cash flows from a financial asset or has entered into a pass-through arrangement, and has neither transferred nor retained substantially all the risks and rewards of ownership of the financial asset nor transferred control of the financial asset, the financial asset is recognized to the extent of the Group’s continuing involvement in the financial asset. Continuing involvement that takes the form of a guarantee over the transferred financial asset is measured at the lower of the original carrying amount of the financial asset and the maximum amount of consideration that the Group could be required to repay.

Financial Liabilities. A financial liability is derecognized when the obligation under the liability is discharged, cancelled or has expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in the consolidated statements of comprehensive income.

A modification is considered substantial if the present value of the cash flows under the new terms, including net fees paid or received and discounted using the original effective interest rate, is different by at least 10% from the discounted present value of remaining cash flows of the original liability.

The fair value of the modified financial liability is determined based on its expected cash flows, discounted using the interest rate at which the Group could raise debt with similar terms and conditions in the market. The difference between the carrying amount of the original liability and fair value of the new liability is recognized in the consolidated statements of comprehensive income.

On the other hand, if the difference does not meet the 10% threshold, the original debt is not extinguished but merely modified. In such case, the carrying amount is adjusted by the costs or fees paid or received in the restructuring.

Offsetting of Financial Assets and Liabilities

Financial assets and financial liabilities are offset and the net amount reported in the consolidated statements of financial position if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is intention to settle on a net basis, or to realize the asset and settle the liability simultaneously. This is not generally the case with master netting agreements, and the related assets and liabilities are presented gross in the consolidated statements of financial position.

Classification of Financial Instrument between Liability and Equity

A financial instrument is classified as liability if it provides for a contractual obligation to:

- Deliver cash or another financial asset to another entity;
- Exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavorable to the Group; or
- Satisfy the obligation other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of own equity shares.

If the Group does not have an unconditional right to avoid delivering cash or another financial asset to settle its contractual obligation, the obligation meets the definition of a financial liability.

Classification of Assets and Liabilities between Current and Noncurrent

The Group presents current and noncurrent assets, and current and noncurrent liabilities, as separate classifications in the notes to consolidated financial statements (See Note 28).

Current Assets. The Group classifies an asset as current when:

- It expects to realize the asset, or intends to sell or consume it, in its normal operating cycle;
- It holds the asset primarily for the purpose of trading;
- It expects to realize the asset within 12 months after the reporting period; or
- The asset is cash or a cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period.

Otherwise, the Group will classify all other assets as noncurrent.

Current Liabilities. The Group classifies a liability as current when:

- It expects to settle the liability in its normal operating cycle;
- It holds the liability primarily for the purpose of trading;
- The liability is due to be settled within 12 months after the reporting period; or
- It does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Otherwise, the Group will classify all other liabilities as noncurrent.

Cost to Obtain a Contract with a Customer

The Group recognizes an asset for the incremental cost of obtaining a contract with a customer if the Group expects to recover those costs. Otherwise, those costs are recognized as expense when incurred. The incremental costs of obtaining a contract are those costs that the Group incurs to obtain a contract such as, but not limited to, sales commissions paid to sales agents and nonrefundable direct taxes incurred in obtaining a contract.

Contract Balances

Contract Assets. A contract asset represents the Group's right to a consideration in exchange for goods or services that the Group has transferred to a customer when that right is conditioned on something other than a passage of time. If the Group transferred goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognized for that earned consideration that is conditional. Contract assets are reclassified to receivables from sale of real estate upon completion of the performance obligation. Contract assets pertain to unbilled receivables from sale of office units which is computed based on POC.

Receivables from Sale of Real Estate. A receivable from sale of real estate represents the Group's right to a consideration that is unconditional. A right to a consideration is unconditional if only the passage of time is required before payment of that consideration is due.

Contract Liabilities. A contract liability represents the Group's obligation to transfer goods to a customer for which the Group has received a consideration from the customer. If a customer pays a consideration before the Group transfers goods to the customer, a contract liability is recognized when the payment is made or the payment is due, whichever is earlier. Contract liabilities are recognized as revenue when the Group performs under the contract.

Debt Issue Costs

Debt issue costs are considered as an adjustment to the effective yield of the related debt and are deferred and amortized using the effective interest rate method. When a loan is paid, the related unamortized debt issue costs at the date of repayment are recognized in profit or loss.

Real Estate for Sale

Property acquired or being constructed for sale in the ordinary course of business, rather than to be held for rental or capital appreciation, is held as inventory and is measured at the lower of cost and net realizable value (NRV).

Cost includes acquisition cost plus any other directly attributable costs of developing the asset to its saleable condition and costs of improving the properties up to the reporting date. Directly attributable costs include amounts paid to contractors, borrowing costs, planning and designing costs, costs of site preparation and construction overheads.

NRV is the estimated selling price in the ordinary course of the business, based on market prices at the reporting date and discounted for the time value of money if material, less estimated costs to complete and the estimated costs to sell. NRV in respect of land under development is assessed with reference to market prices at the reporting date for similar completed property, less estimated costs to complete the construction and less an estimate of the time value of money to the date of completion.

Borrowing Costs

Borrowing costs directly attributable to the acquisition or construction of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective assets. All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

The interest capitalized is calculated using the Group's weighted average cost of borrowings after adjusting for borrowings associated with specific developments. When borrowings are associated with specific developments, the amounts capitalized is the gross interest incurred on those borrowings less any investment income arising on their temporary investment. Interest is capitalized from the commencement of the development work until the date of practical completion. The capitalization of finance costs is suspended if there are prolonged periods when development activity is interrupted. Interest is also capitalized on the purchase cost of a site of property acquired specifically for redevelopment, but only where activities necessary to prepare the asset for redevelopment are in progress.

Investment Properties

Investment properties are properties held either to earn rental income or for capital appreciation or both,

but not for sale in the ordinary course of business or for administrative purposes.

The Group uses fair value model for the accounting of its investment properties. Under this method, investment properties are initially measured at cost but are subsequently remeasured at fair value at each reporting date, which reflects market conditions at the reporting date. Cost comprises the purchase price and any directly attributable costs in developing and improving the properties. Cost also includes the cost of replacing part of an existing investment property at the time that cost is incurred if the recognition criteria are met. The fair value of investment properties is determined using market data approach, income approach and cost approach by an independent real estate appraiser. Gains or losses arising from changes in the fair values of investment properties are included in profit or loss in the period in which they arise, including the corresponding tax effect. For the purposes of these consolidated financial statements, in order to avoid double counting, the fair value reported in the consolidated financial statements is reduced by the carrying amount of any accrued income resulting from the spreading of lease incentives and minimum lease payments.

Transfers are made to investment property when, and only when, there is a change in use, evidenced by the ending of owner-occupation, commencement of an operating lease to another party or ending of the construction or development. Transfers are made from investment property when, and only when, there is a change in use, evidenced by the commencement of owner occupation or commencement of development with a view to sell.

Investment properties are derecognized when either those have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gain or loss on the retirement or disposal of an investment property is recognized in the consolidated statements of comprehensive income in the year of retirement or disposal.

Property and Equipment

Property and equipment are carried at cost less accumulated depreciation and amortization and any impairment losses.

The initial cost of property and equipment consists of the purchase price, including import duties, borrowing costs (during the construction period) and other costs directly attributable to bring the asset to its working condition and location for its intended use. Cost also includes the cost of replacing parts of such property and equipment when the recognition criteria are met and the present value of the estimated cost of dismantling and removing the asset and restoring the site where the asset is located.

Expenditures incurred after the property and equipment have been put into operation, such as repairs, maintenance and overhaul costs, are normally charged to operations in the year the costs are incurred. In situations where it can be clearly demonstrated that the expenditures have resulted in an increase in the future economic benefits expected to be obtained from the use of an item of property and equipment beyond its originally assessed standard of performance, the expenditures are capitalized as additional costs of property and equipment.

Depreciation and amortization is calculated on a straight-line basis over the following estimated useful lives of the property and equipment:

Asset Type	Number of Years
Building and building improvements	50
Transportation and other equipment	3 to 5
Office equipment	3 to 5
Furniture and fixtures	3
Leasehold improvements	3 to 5 or lease term, whichever is shorter

The estimated useful lives and depreciation and amortization method are reviewed periodically to ensure that the periods and method of depreciation and amortization are consistent with the expected pattern of economic benefits from items of property and equipment.

Fully depreciated assets are retained in the account until they are no longer in use and no further charge for depreciation is made in respect to those assets.

Construction in progress is stated at cost. This includes cost of construction and other direct costs. Construction in progress is not depreciated until such time that the relevant assets are completed and available for operational use.

An item of property and equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the year the asset is derecognized.

Other Assets

Other assets include input value-added tax (VAT), advances for project development, creditable withholding taxes (CWT), advances for asset purchase, amounts held in escrow (classified as financial assets), prepayments, deposits (classified as financial assets), deferred input VAT, and materials and supplies.

VAT. Revenues, expenses and assets are recognized net of the amount of VAT except:

- where VAT incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case the VAT is recognized as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- where receivables and payables that are stated with the amount of VAT included.

The net amount of VAT recoverable from, or payable to, the tax authority is included as part of “Other assets” or “Accounts payable and other liabilities” accounts, respectively, in the consolidated statements of financial position.

Advances for Project Development. Advances for project development are recognized whenever the Group pays in advance for its purchase of goods or services. These are measured at transaction price less impairment in value, if any.

Creditable Withholding Taxes (CWT). CWT represents the amount withheld by the Group’s customers in relation to its income. CWT can be utilized as payment for income taxes provided that these are properly supported by certificates of creditable tax withheld at source subject to the rules on Philippine income taxation.

Advances for Asset Purchase. Advances for asset purchase are recognized whenever the Company pays in advance for land. These are measured at transaction price less impairment in value, if any.

Prepayments. Prepayments are expenses paid in advance and recorded as assets before these are utilized. Prepayments are apportioned over the period covered by the payment and charged to profit or loss when incurred. Prepayments that are expected to be realized for no more than 12 months after the reporting period are classified as current assets. Otherwise, these are classified as noncurrent assets.

Deferred Input VAT. In accordance with the Revenue Regulation (RR) No. 16-2005, input VAT on purchases or imports of the Group of capital goods (depreciable assets for income tax purposes) with an aggregate acquisition cost (exclusive of VAT) in each of the calendar month exceeding ₱1.0 million are claimed as credit against output VAT over 60 months or the estimated useful lives of capital goods, whichever is shorter. Deferred input VAT represents the unamortized amount of input VAT on capital goods. Deferred input VAT that are expected to be claimed against output VAT for no more than 12 months after the financial reporting period are classified as current assets. Otherwise, these are classified as noncurrent assets.

Where the aggregate acquisition cost (exclusive of VAT) of the existing or finished depreciable capital

goods purchased or imported during any calendar month does not exceed ₱1.0 million, the total input VAT will be allowable as credit against output VAT in the month of acquisition.

Materials and Supplies. The Group recorded as assets several excess construction materials and supplies from the completed construction of its projects. Materials and supplies are stated at lower of cost and NRV.

Impairment of Nonfinancial Assets

The carrying amounts of the Group's nonfinancial assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists then the asset's net recoverable amount is estimated.

Any impairment loss is recognized if the carrying amount of an asset or its cash-generating unit (CGU) exceeds its net recoverable amount. A CGU is the smallest identifiable asset group that generates cash flows that are largely independent from other assets of the Group. Impairment losses are recognized in profit or loss in the period incurred.

The net recoverable amount of an asset is the greater of its value in use or its fair value less costs to sell. Value in use is the present value of future cash flows expected to be derived from an asset while fair value less cost to sell is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable and willing parties less costs of disposal. In assessing value in use, the estimated future cash flows are discounted to their present values using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

Impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss has been recognized.

Payable to Customers

Payable to customers consist of amounts received by the Group from its tenants as reservation fee for lease or downpayments received from prospective buyers. These are recorded at face amount in the consolidated statements of financial position. These will be applied as security deposits upon execution of the lease contracts or against the total contract price of the real estate sale upon execution of contract to sell.

Advance Rent

Advance rent are initially recognized at the value of cash received, and will generally be applied as lease payments to the immediately succeeding months or in the last three (3) months of the lease term.

Capital Stock

Preferred Stock. The Group's preferred stocks are cumulative, nonvoting, nonparticipating and nonconvertible. Preferred stock is classified as equity if this is nonredeemable, or redeemable only at the Group's option, and any dividends thereon are discretionary. Dividends thereon are recognized as distributions within equity upon approval by the BOD of the Parent Company.

Preferred stock is classified as a liability if this is redeemable on a specific date or at the option of the shareholders, or if dividend payments are not discretionary. Dividends thereon are recognized as interest expense in profit or loss as accrued.

Common Stock. Common stock is measured at par value for all shares issued.

Additional Paid-in Capital

Additional paid-in capital is the proceeds and/or fair value of considerations received in excess of par value of the subscribed capital stock. Incremental costs incurred directly attributable to the issuance of new shares are recognized as deduction from equity, net of any tax. Otherwise, these are recognized as expense in profit or loss.

Treasury Shares

Treasury shares represent owner's equity instruments which are reacquired and deducted from equity. Treasury shares are accounted for at cost and shown as a deduction in the equity section of the consolidated statements of financial position. No gain or loss is recognized in profit or loss on the purchase, sale, issuance or cancellation of the Parent Company's own equity instruments.

Retained Earnings

Retained earnings represent the cumulative balance of net income or loss, net of any dividend declaration and prior period adjustments.

Other Comprehensive Income

Other components of equity comprise of items of income and expense that are not recognized in profit or loss for the year. Other comprehensive income pertains to cumulative remeasurement gains (losses) on net retirement liability.

Parent Company's Shares Held by a Subsidiary

Shares of the Parent Company held by a subsidiary are carried at cost and are deducted from equity. No gain or loss is recognized on the purchase, sale, issue or cancellation of the Parent Company's own equity instruments. When the shares are retired, the capital stock account is reduced by its par value and the excess of cost over par value upon retirement is debited to additional paid-in capital to the extent of the specific or average additional paid-in capital when the shares were issued and to retained earnings for the remaining balance.

Non-controlling Interests

Non-controlling interests represent the portion of net results and net assets not held by the Parent Company. These are within equity presented in the consolidated statements of financial position, separately from equity attributable to equity holders of the Parent Company and are separately disclosed in the consolidated statements of income and consolidated statements of comprehensive income. Non-controlling interests consist of the amount of those interests at the date of original business combination and the non-controlling interests' share on changes in equity since the date of the business combination.

Basic and Diluted Earnings Per Share (EPS)

Basic EPS is computed by dividing the net income for the period attributable to common equity holders of the Parent Company by the weighted average number of issued and outstanding and subscribed common shares during the period, with retroactive adjustment for any stock dividends declared.

Diluted EPS is computed in the same manner, adjusted for the effects of any potentially dilutive convertible securities.

Revenue Recognition

Revenue from contract with customers is recognized when the performance obligation in the contract has been satisfied, either at a point in time or over time. Revenue is recognized over time if one of the following criteria is met: (a) the customer simultaneously receives and consumes the benefits as the Group perform its obligations; (b) the Group's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or (c) the Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date. Otherwise, revenue is recognized at a point in time.

Revenue from contracts with customers is recognized when control of the goods and services is transferred to the customer in an amount that reflects the consideration to which the Group expected to

be entitled in exchange for those goods and services.

The Group also assesses its revenue arrangements to determine if it is acting as a principal or as an agent. The Group has assessed that it acts as a principal in all of its revenue sources.

The following specific recognition criteria must also be met before revenue is recognized.

Revenue from Real Estate Sales. Revenue from the sale of completed real estate project is accounted for using the full accrual method in which revenue is recognized at a point in time when control is transferred to a customer. The Group transfers control of real estate for sale under pre-completion contracts over time and, therefore, satisfies the performance obligations under the contract and recognizes revenue over time.

The Group considers a contract to sell as a valid revenue contract. The Group also assesses the probability that it will collect the consideration under the contract prior to recognizing revenue. This assessment is based on the customer's ability and intention to pay the amount of consideration when it is due. If any of the above criteria is not met, the deposit method is applied until all the conditions for recognizing revenue are met.

The Group recognizes revenue from real estate sales under pre-completion contracts based on POC using the input method in which revenue is recognized on the basis of costs incurred up until the end of the reporting period as a proportion of total costs expected to be incurred.

The Group opted to defer the application guidelines of the provisions of the PIC Q&A No. 2018-12 (*as amended by PIC Q&A 2020-05*) with respect to the accounting for significant financing component, uninstalled materials and the exclusion of land in the computation of POC for a period of three (3) years.

Accordingly, the consideration is not adjusted for the effects of the time value of money, and the total cost incurred and total estimated cost to complete including the cost of land.

For tax purposes, full recognition is applied when more than 25% of the selling price has been collected in the year of sale. Otherwise, the installment method is applied.

Leasing Revenue. Leasing revenue consists of rent income and common use service area (CUSA) fees. Rent income arising from operating leases on investment properties is recognized on a straight-line basis over the lease terms, except for contingent rental income, which is recognized in the period that it arises. Tenant lease incentives are recognized as a reduction of rental income on a straight-line basis over the term of the lease. The lease term is the non-cancellable period of the lease together with any further term for which the tenant has the option to continue the lease, where, at the inception of the lease, management is reasonably certain that the tenant will exercise that option. CUSA fees are recognized as income once earned. These are charged monthly and are based on the lessee's proportionate share on the common areas.

Amounts received from tenants to terminate leases or to compensate for dilapidations are recognized in profit or loss when the right to receive those amounts arises.

Property Management Fees. Revenue is recognized in profit or loss when the related services are rendered.

Interest Income. Interest income is recognized as the interest accrues, taking into account the effective yield on the asset.

Other Income. Income from other sources is recognized when earned during the period.

Cost and Expenses Recognition

Cost and expenses are decreases in economic benefits during the accounting period in the form of outflows

or depletions of assets or incurrence of liabilities that result in decreases in equity, other than those relating to distributions to equity participants.

Cost of Real Estate Sales. Cost of real estate sales is recognized consistent with the revenue recognition method applied. Cost of condominium units sold before the completion of the development is determined on the basis of the acquisition cost of the land plus its full development costs, which include estimated costs for future development works.

Cost of Leasing Operations. Cost of leasing operations, which constitute direct cost incurred in relation to the leasing of properties of the Group which includes ACPT, Cazneau's dormitory units and MPI's commercial units, is recognized as expense when incurred.

Cost of Services. Cost of services, which constitute direct cost incurred in relation to EPMI's provision of property management services, is recognized as expense when services are rendered.

Operating Expenses. Operating expenses constitute cost of administering the business and cost incurred to sell and market its products and services. These are recognized as incurred.

Finance Costs. Finance costs are recognized in profit or loss using the effective interest method.

Share-based Compensation

The Parent Company has a stock option plan covering employees, officers and directors, whereby employees render services for shares or rights over shares ("equity-settled transaction"). The rights granted under the plan are not assignable and nontransferable. The cost of the equity-settled transactions is measured by reference to the fair value of the stock options on the date that it was granted. Stock options reserve presented as part of "Equity" is measured at fair value of the share options as at reporting date when the options are exercised, forfeited or lapsed.

Leases

The Group assesses whether the contracts is, or contains, a lease. To assess whether a contract conveys the right to control the use of an identified assets for a period of time, the Group assesses whether, throughout the period of use, it has both of the following:

- i. the right to obtain substantially all of the economic benefits from use of the identified asset; and,
- ii. the right to direct the use of the identified asset.

If the Group has the right to control the use of an identified asset for only a portion of the term of the contract, the contract contains a lease for that portion of the term.

The Group also assesses whether a contract contains a lease for each potential separate lease component.

The Group as a Lessor. Leases where the Group retains substantially all the risks and benefits of ownership of the asset are classified as operating leases. Initial direct costs incurred in negotiating an operating lease are added to the carrying amount of the leased asset and recognized on a straight-line basis over the lease term on the same basis as rental income. Contingent rents are recognized as revenue in the period in which these are earned.

Employee Benefits

Short-term Benefits. The Group recognizes a liability net of amounts already paid and an expense for services rendered by employees during the accounting period. A liability is also recognized for the amount expected to be paid under short-term cash bonus or profit sharing plans if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the obligation can be estimated reliably.

Short-term employee benefit liabilities are measured on an undiscounted basis and are expensed as the related service is provided.

Retirement Benefits. The Group has a funded, non-contributory defined benefit plan covering all qualified employees. The retirement benefits cost is determined using the projected unit credit method which reflects services rendered by employees to the date of valuation and incorporates assumptions concerning employees' projected salaries.

The Group recognizes service costs, comprising of current service costs, past service costs and net interest expense or income in profit or loss. Net interest is calculated by applying the discount rate to the net retirement liability or asset.

Past service costs are recognized in profit or loss on the earlier of the date of the plan amendment or curtailment, and the date that the Group recognizes restructuring-related costs.

Remeasurements pertaining to actuarial gains and losses and return on plan assets are recognized immediately in OCI in the period in which they arise. Remeasurements are not reclassified to profit or loss in subsequent periods.

Plan assets are assets that are held in trust and managed by a trustee bank. Plan assets are not available to the creditors of the Group, nor can they be paid directly to the Group. The fair value of the plan assets is based on the market price information. When no market price is available, the fair value of plan assets is estimated by discounting expected future cash flows using a discount rate that reflects both the risk associated with the plan assets and the maturity or expected disposal date of those assets (or, if they have no maturity, the expected period until the settlement of the related obligations). If the fair value of the plan assets is higher than the present value of the retirement liability, the measurement of the resulting defined benefit asset is limited to the present value of economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan.

The net retirement asset (liability) is the aggregate of the present value of the defined benefit obligation and the fair value of plan assets against which the obligations are to be settled directly, adjusted for any effect of asset ceiling. The present value of the retirement obligation is determined by discounting the estimated future cash outflows using interest rate on government bonds that have terms to maturity approximating the terms of the related retirement liability. The asset ceiling is the present value of future economic benefits available in the form of refunds from the plan or reductions in future contribution to the plan.

Actuarial valuations are made with sufficient regularity so that the amounts recognized in the consolidated financial statements do not differ materially from the amounts that would be determined at the reporting date.

Foreign Currency - Denominated Transactions

Transactions in foreign currencies are translated to the functional currency at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated to the functional currency at the exchange rate at reporting date. Resulting exchange differences arising on the settlement of or on translating such monetary assets and liabilities are recognized in profit or loss.

Income Taxes

Current Tax. Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the tax authority. The tax rates and tax laws used to compute the amount are those that have been enacted or substantively enacted at the reporting date.

Deferred Tax. Deferred tax is provided on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences. Deferred tax assets are

recognized for all deductible temporary differences, carryforward benefits of unused tax credits from excess minimum corporate income tax (MCIT) over the regular corporate income tax (RCIT) and unused net operating loss carryover (NOLCO), to the extent that it is probable that taxable income will be available against which the deductible temporary differences and carryforwards of unused MCIT and NOLCO can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable income will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are reassessed at each reporting date and are recognized to the extent that it has become probable that future taxable income will allow the deferred tax assets to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are applicable to the year when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities. For purposes of measuring deferred tax liabilities and deferred tax assets for investment properties that are measured using the fair value model, the carrying amounts of such properties are presumed to be recovered entirely through sale, unless the presumption is rebutted, that is, when the investment property is depreciable and is held within the business model whose objective is consume substantially all of the economic benefits embodied in the investment property over time, rather than through sale.

Most changes in deferred tax assets or deferred tax liabilities are recognized as a component of tax expense in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

Deferred tax relating to items recognized outside profit or loss is recognized under OCI and outside profit or loss.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to offset current tax assets against current tax liabilities and deferred taxes relate to the same taxable entity and the same tax authority.

Related Party Transactions

Related party transactions are transfer of resources, services or obligations between the Group and its related parties, regardless whether a price is charged. Transactions between related parties are accounted for at arm's length prices or on terms similar to those offered to non-related parties in an economically comparable market.

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions. These includes: (a) individuals owning, directly or indirectly through one or more intermediaries, control or are controlled by, or under common control with the Group; (b) associates; (c) individuals owning, directly or indirectly, an interest in the voting power of the investee that gives them significant influence over the investee and close members of the family of any such individual; and, (d) the Parent Company's funded retirement plan.

In considering each possible related party relationship, attention is directed to the substance of the relationship and not merely on the legal form.

The key management personnel of the Group are also considered to be related parties.

Segment Reporting

The Group's operating businesses are organized and managed separately according to the nature of the products and services provided, with each segment reporting a strategic business unit that offers different products and serves different markets. Financial information on the Group's business segments is presented in Note 29 to the interim consolidated financial statements.

Provisions and Contingencies

Provisions are recognized when the Group has a present legal or constructive obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are measured at the estimated expenditure required to settle the present obligation, based on the most reliable evidence available at the end of the reporting period, including risks and uncertainties associated with the present obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as an interest expense. Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate.

Contingent liabilities are not recognized in the consolidated financial statements but are disclosed in the notes to consolidated financial statements unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the consolidated financial statements but are disclosed in the notes to consolidated statements of financial position when an inflow of economic benefits is probable.

Events After the Reporting Period

Any post-year-end event that provides additional information about the Group's financial position at the end of the reporting period (adjusting event) is reflected in the consolidated financial statements. Post-year-end events that are not adjusting events are disclosed in the notes to consolidated financial statements when material.

3. SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of consolidated financial statements in accordance with PFRS requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of asset, liabilities, income and expenses. The accounting estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about the carrying amounts of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

Judgments

In the process of applying the Group's accounting policies, management has made the following judgments, apart from those involving estimation, which have the most significant effect on the amounts recognized in the consolidated financial statements:

Determining Functional Currency. Based on management's assessment, the functional currency of the Group has been determined to be Philippine Peso, the currency of the primary economic environment in which the Group operates. It is the currency that mainly influences the operations of the Group.

Classifying Financial Instruments. The Group exercises judgment in classifying financial instruments in accordance with PFRS 9. The Group exercises judgment in classifying a financial instrument, or its component parts, on initial recognition as either a financial asset, a financial liability or an equity instrument in accordance with the Group's business model and its contractual cash flow characteristics and the definitions of a financial asset, a financial liability or an equity instrument. The substance of a financial instrument, rather than its legal form, governs its classification in the consolidated statements of financial position.

Determining Control or Joint Control over an Investee Company. Control is presumed to exist when an investor is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. On the other hand, joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require the unanimous consent of the parties sharing control. The Group has determined that by virtue of the Parent Company's majority ownership of voting rights in its subsidiaries as at March 31, 2022 and December 31, 2021, it has the ability to exercise control over these investees.

Determining Revenue and Cost Recognition. Selecting an appropriate revenue recognition method for a particular real estate transaction requires certain judgments based on the buyer's commitment on the sale which may be ascertained through the significance of the buyer's initial investment and completion of development.

The Group recognizes revenue over time if one of the following criteria is met:

- The customer simultaneously receives and consumes the benefits provided by the Group performance as the entity performs.
- The Group's performance creates or enhances an asset that the customer controls as the asset is created or enhanced.
- The Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

The Group concluded that revenue from real estate sale of office units of Cebu Exchange and Savya Financial Center and sale of residential units in Sevina Park is recognized over time. The Group also determined that input method is the appropriate method in measuring the POC of Cebu Exchange, Savya Financial Center and Sevina Park. Under POC, the Group satisfies its performance obligation to deliver a portion of the property to the customer over time. The input method is based on the costs incurred up until the end of the reporting period as a proportion of total costs expected to be incurred. Changes in estimates may affect the reported amounts of revenue, cost of real estate sales, contract assets and contract liabilities:-

Classifying Real Estate for Sale, Investment Properties and Property and Equipment. The Group determines whether a property qualifies as a real estate for sale, an investment property or an item of property and equipment. In making its judgment, the Group considers whether the property is held for sale in the ordinary course of business, held primarily to earn rentals or capital appreciation or both, or used for operations and administrative purposes by the Group.

Determining Highest and Best Use of Investment Properties. The Group determines the highest and best use of its investment properties when measuring fair value. In making its judgment, the Group takes into account the use of the investment properties that is physically possible, legally permissible and financially feasible. The Group has determined that the highest and best use of the investment properties is their current use.

Determining Lease Commitments - Group as Lessor. The Group determines the highest and best use of its investment properties when measuring fair value. In making its judgment, the Group takes into account the use of the investment properties that is physically possible, legally permissible and financially feasible. The Group has determined that the highest and best use of the investment properties is their current use.

Classifying Lease Commitments - Group as a Lessee. The Group has entered into lease agreements as a lessee. For these leases, the Group availed of the exemption for short-term leases with term of 12 months or less. Accordingly, lease payments on short-term leases were recognized as expense on a straight-line basis over the lease term.

Assessing Provisions and Contingencies. The Group evaluates legal and administrative proceedings to which it is involved based on analysis of potential results. Management and its legal counsels do not believe that any current proceedings will have material adverse effects on its consolidated financial position and results of operations. It is possible, however, that future results of operations could be materially affected by changes in estimates or in the effectiveness of strategies relating to these proceedings.

Accounting Estimates and Assumptions

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of reporting period that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year:

Recognizing Revenue and Cost of Real Estate Sales. The Group's revenue and cost recognition policies require management to make use of estimates and assumptions that may affect the reported amounts of revenue and cost. Revenue and cost of sale of real estate of Cebu Exchange, Savya Financial Center and Sevina Park recognized based on POC are measured principally based on the costs incurred up until the end of the reporting period at a proportion of total costs expected to be incurred.

Estimating Fair Value of Investment Properties. Investment properties are measured at fair values. The Group works closely with external qualified valuers who performed the valuation using appropriate valuation techniques. The appraiser used a valuation technique based on comparable market data adjusted as necessary to reflect the specific assets' location and condition and, estimated expected future cash flows, yields, occupancy rates, discount rates, replacement costs and remaining economic life. The valuation techniques and inputs used in the fair value measurement of investment properties are disclosed in Note 9 to the consolidated financial statements.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the investment properties and the level of the fair value hierarchy.

Determining NRV of Real Estate for Sale. Real estate for sale is stated at lower of cost or NRV. NRV for completed real estate for sale is assessed with reference to market conditions and prices existing at the reporting date and is determined by the Group in the light of recent market transactions. NRV in respect of real estate assets under construction is assessed with reference to market prices at the reporting date for similar completed property, less estimated costs to complete the construction and less estimated costs to sell. The amount and timing of recorded expenses for any period would differ if different judgments were made or different estimates were utilized.

Assessing ECL on Trade Receivables and Contract Assets. The Group initially uses a provision matrix based on historical default rates for trade receivables. The provision matrix specifies provision rates depending on the number of days that a receivable is past due. The Group then calibrates the provision matrix to adjust historical credit loss experience with forward-looking information on the basis of current observable data to reflect the effects of current and forecasted economic conditions.

The Group adjusts historical default rates if forecasted economic conditions such as gross domestic product are expected to deteriorate which can lead to increased number of defaults in the real estate industry. The Group regularly reviews the methodology and assumptions used for estimating ECL to reduce any differences between estimates and actual credit loss experience.

The determination of the correlation between historical default rates and forecasted economic conditions is a significant estimate. Accordingly, the provision for ECL of receivable from real estate sales is sensitive to changes in assumptions about forecasted economic conditions.

The Group's exposure to risk of default is mitigated by the requirement that title to real estate for sale is transferred to the buyer only upon full payment of the contract price.

Assessing ECL on Other Financial Assets at Amortized Cost. The Group determines the allowance for ECL based on the probability-weighted estimate of the present value of all cash shortfalls over the expected life of financial assets at amortized cost. ECL is provided for credit losses that result from possible default events within the next 12-months unless there has been a significant increase in credit risk since initial recognition in which case ECL are provided based on lifetime ECL.

When determining if there has been a significant increase in credit risk, the Group considers reasonable and supportable information that is available without undue cost or effort and that is relevant for the particular financial instrument being assessed such as, but not limited to, the following factors:

- actual or expected external and internal credit rating downgrade;
- existing or forecasted adverse changes in business, financial or economic conditions;
- actual or expected significant adverse changes in the operating results of the borrower; and
- significant changes in credit spread, rates or terms such as more stringent covenants and increased amount of collateral or guarantees.

The Group also considers financial assets that are more than 30 days past due to be the latest point at which lifetime ECL should be recognized unless it can demonstrate that this does not represent a significant risk in credit risk such as when non-payment was an administrative oversight rather than resulting from financial difficulty of the borrower.

Determining Fair Value of Investment in Money Market Fund. The Group classifies its investment in money market fund as financial asset at FVPL in the consolidated statements of financial position. The Group determined the fair value of investment in money market fund using available market prices in active markets for identical assets (Level 1). Any changes in the fair value of this financial asset would affect profit or loss.

Estimating the Useful Lives of Property and Equipment. The Group reviews annually the estimated useful lives of property and equipment based on expected asset's utilization, market demands and future technological development. It is possible that the factors mentioned may change in the future, which could cause a change in estimated useful lives. A reduction in estimated useful lives could cause a significant increase in depreciation and amortization of property and equipment.

Assessing Impairment of Nonfinancial Assets. The Group assesses impairment on nonfinancial assets whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. In assessing whether there is any indication that an asset may be impaired, the Group considers the external and internal sources of information. External sources of information include but are not limited to unexpected significant decline in market value and any other significant changes with an adverse effect on the Group, whether it had taken place during period or will take place in the near future in the market, economic or legal environment in which the entity operates or in the market to which the asset is dedicated. Internal sources of information include evidence of obsolescence or physical damage on an asset, significant changes with an adverse effect on the Group whether it had taken place during the period, or are expected to take place in the near future, to the extent to which, or in a manner in which, an asset is used or is expected to be used, and any other evidence that indicates that the economic performance of an asset is, or will be, worse than expected.

Whenever the carrying amount of an asset exceeds its recoverable amount, an impairment loss is recognized. The recoverable amount is the higher of an asset's fair value less cost to sell and value in use. The fair value less cost to sell is the amount obtainable from the sale of an asset in an arm's length transaction while value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life.

Value in use is determined as the present value of estimated future cash flows expected to be generated from the continued use of the assets. The estimated cash flows are projected using growth rates based

on historical experience and business plans and are discounted using pretax discount rates that reflect the current assessment of the time value of money and the risks specific to the asset.

Recoverable amounts are estimated for individual assets or, if it is not possible, for the CGU to which the asset belongs.

Estimating Retirement Expense. The determination of the Group's obligation and cost for pension and other retirement benefits is dependent on selection of certain assumptions used by actuaries in calculating such amounts. Those assumptions are described in Note 22 to the consolidated financial statements and include among others, discount rate and salary increase rate. While the Group believes that the assumptions are reasonable and appropriate, significant differences in actual experience or significant changes in assumptions materially affect net retirement liability.

Assessing Realizability of Deferred Tax Assets. The Group's assessment on the recognition of deferred tax assets on deductible temporary differences and carryforward benefits of unused MCIT and NOLCO is based on the projected taxable income in the following periods. Based on the projection, not all future deductible temporary differences will be realized, therefore, only a portion of deferred tax assets was recognized.

4. CASH AND CASH EQUIVALENTS

This account consists of:

	March 2022	December 2021	March 2021
Cash on hand	195,000	195,000	185,000
Cash in bank	872,371,701	692,017,890	342,331,510

The aging analysis of receivables are shown below:

	Past Due but Not Impaired				Past due and impaired	TOTAL
	Neither Past Due nor Impaired	Within 6 months	7 months to 1 year	More than 1 year		
Receivables	279,797,629	294,970,890	225,973,558	296,418,657	368,292	1,097,529,026

Trade receivables from sale of real estate pertain to receivables from sale of condominium units and residential townhouses that were already billed. These receivables are noninterest-bearing and generally collectible within sixty (60) days. Titles to the units sold under this arrangement are transferred to the buyers only upon full payment of the contract price. Trade receivables from leasing operations are noninterest-bearing, unsecured and collectible within thirty (30) days.

Accrued rent receivable pertains to the difference between rental income recognized using straight-line method of accounting and rental payments based on the terms of the lease contracts.

Interest receivable includes accrual of interest from the Group's short-term placements.

Receivable from non-affiliated entity pertains to cash advances to non-affiliated entity, which is unsecured, noninterest-bearing and collectible on demand.

Receivable from sale of interests in subsidiaries pertains to Parent Company's receivable arising from the sale of interests in Bhavana and Bhavya, which is noninterest-bearing and collectible on demand..

Advances to employees represent salary and other loans granted to employees which are noninterest-bearing in nature and collectible through salary deductions.

Other receivables mainly include other charges and advances which are noninterest-bearing and collectible on demand.

7. CONTRACT ASSETS AND CONTRACT LIABILITIES

The Group's contract assets and contract liabilities are as follows:

	March 2022	December 2021	March 2021
Contract assets	6,736,280,318	6,238,880,086	5,516,897,363

	March 2022	December 2021	March 2021
Contract liabilities	48,737,619	62,154,096	31,500,193
Net contract assets (liabilities)	6,687,542,699	6,176,725,990	5,485,397,170

Contract assets pertain to receivables from the sale of condominium units and residential townhouses of the Group representing the excess of cumulative revenues from real estate sales over billed amounts. These amounts will be billed and collected in accordance with the agreed payment terms with the buyers, which is normally up to maximum of five years. Increase in contract assets pertains to the additional booked units during the period.

Contract liabilities pertain to downpayments received from the real estate buyers at the inception of the contracts in which the related revenue is not yet recognized as at March 31, 2022 and December 31, 2021.

	9,217,310,941	9,026,428,319	8,408,985,253

ACPT

Carrying amount of ACPT includes office units and parking slots for lease. ACPT is used as collateral for loans payable amounting to ₱1,650.0 million and ₱1,712.4 million as at March 31, 2022 and December 31, 2021 (see Note 12).

Arya Residences' Commercial Units and Parking Slots

Commercial units and parking slots in Arya Residences are used for leasing operations.

Land

UPHI's raw land, with fair value amounting to ₱729.9 million as at March 31, 2022 and December 31, 2021, has a total area of 33 hectares and are located at Barangay Gonzalo Bontog, Calamba City and Barangay Calabuso, Tagaytay City. Portion of the UPHI's raw land was the subject of an expropriation proceedings filed by the National Transmission Commission (NTC, successor-in-interest of National Power Corporation) with the Regional Trial Court of Calamba City, Laguna. The other parties to the case filed their respective appeals with the Court of Appeals (CA) assailing the amount of just compensation determined by the trial court. The appeal remains pending with the CA.

Moreover, a complaint for quieting of title was filed by UPHI on October 18, 2010 because of the erroneous issuance of tax declarations by the City of Tagaytay covering UPHI's property located in Calamba City, Laguna. In June 2020, the case was decided by the trial court in favor of UPHI. The losing defendants in the case filed their respective appeals with the CA and UPHI filed its appellee's brief defending the decision of the trial court. The case remains pending with the CA.

As at March 31, 2022 and December 31, 2021, the case with NTC is still ongoing and yet to be resolved by the CA. The Company intends to amicably settle with the NTC, since the Company had already been deprived of effective use and enjoyment of the property. Management assessed that although the potential effect of this case on the Company's financial statements would not be significant, an amicable settlement with the NTC could allow the Company to recoup the cost of the expropriated portion of the property.

Raw land of the Parent Company has a total area of 10.3 hectares located in Batangas and Tagaytay with fair value aggregating to ₱184.6 million and ₱182.8 million as at March 31, 2022 and December 31, 2021, respectively.

Courtyard Hall

Courtyard Hall of Cazneau used for leasing operations were recognized at fair value amounting to ₱326.2 million as at March 31, 2022 and December 31, 2021.

Fair Value Measurement

Details of the valuation techniques used in measuring fair values of investment properties classified under Levels 2 and 3 of the fair value hierarchy are as follows:

Class of Property	Valuation Technique	Significant Inputs	March 2022	December 2021
ACPT	Discounted cash flow approach (DCF)	Rental rate for an office unit per square meter (sq.m.)	₱1,605	₱1,500
		Rental rate per parking slot	₱7,500	₱6,000
		Discount rate	8.72%	8.51%

Class of Property	Valuation Technique	Significant Inputs	March 2022	December 2021
		Vacancy rate	0%-5%	0%-5%
		Calculated no. of net leasable area (total sq. m.)	18,059	18,059
		Income tax rate	25%	25%
Arya Residences:				
Commercial units	Discounted cash flow approach	Rental rate per square meter (sq.m.)	₱3,000	₱3,000
		Rent escalation rate per annum (p.a.)	7%	7%
		Discount rate	8.51%	8.51%
		Vacancy rate	5%	5%
		Income tax rate	25%	25%
Parking slots	Discounted cash flow approach	Rental rate per slot	₱7,000	₱7,000
		Rent escalation rate p.a.	7%	7%
		Discount rate	8.51%	8.51%
		Vacancy rate	10%	10%
		Income tax rate	25%	25%
Land:				
UPHI's Laguna and Tagaytay properties	Market data approach	Price per sq. m.	₱2,200	₱2,200
		Value adjustments	5% - 10%	5% - 10%
Cazneau's Laguna Properties	Market data approach	Price per sq. m.	₱55,000	₱55,000
		Value adjustments	5% - 20%	5% - 20%
ALCO's Batangas and Tagaytay properties	Market data approach	Price per sq. m.	₱1,660	₱1,660
		Value adjustments	5% - 20%	5% - 20%
Courtyard Hall	Depreciated replacement method	Estimated replacement cost	₱143,117,000	₱143,117,000
		Remaining economic life	36 years	36 years

Details of the valuation techniques used in measuring fair values of investment properties are as follows:

Discounted Cash Flow Approach

Under the DCF approach, a property's fair value is estimated using explicit assumptions regarding the benefits and liabilities of ownership over the asset's estimated useful life including an exit or terminal value. As an accepted method within the income approach to valuation, the DCF approach involves the projection of a series of cash flows on a real property interest. An appropriate, market-derived discount rate is applied to projected cash flow series to establish the present value of the income stream associated with the investment property.

Periodic cash flows of investment properties are typically estimated as gross income less vacancy and operating expenses. The series of periodic net operating income, along with an estimate of the terminal value anticipated at the end of the projection period, is then discounted.

The frequency of inflows and outflows are contract and market-derived. The DCF approach assumes that cash outflows occur in the same period that expenses are recorded.

Sensitivity Analysis. Generally, significant increases (decreases) in rental rate per sq.m. or per slot and rent escalation rate p.a. in isolation would result in a significantly higher (lower) fair value measurement. Significant increases (decreases) in discount rate and vacancy rate in isolation would result in a significantly lower (higher) fair value measurement.

Market Data Approach

Market data approach involves the comparison of the UPHI's Laguna and Tagaytay properties, Cazneau's Laguna properties and ALCO's Batangas and Tagaytay properties to those that are

more or less located within the vicinity of the appraised properties and are subject of recent sales and offerings. Adjustments were made to arrive at the market value by considering the location, size, shape, utility, desirability and time element.

The inputs to fair valuation are as follows:

- *Price per sq.m.* - estimated value prevailing in the real estate market depending on the location, area, shape and time element.
- *Value adjustments* - adjustments are made to bring the comparative values in approximation to the investment property taking into account the location, size and architectural features among others.

Depreciated Replacement Cost Method

Depreciated replacement cost method is used to estimate valuation of Courtyard Hall by computing for the replacement cost of the assets and applying appropriate adjustments for physical deterioration and functional and economic obsolescence.

Effect of Change in the Parent Company's Ownership Interest in a Subsidiary

Excess of proceeds over the cost of disposed interest in a subsidiary pertains to the difference between the amount received by ALCO of ₱275.0 million, net of transaction costs and taxes of ₱40.5 million, for the sale of 40% of KHI's shares sold to MEC (see Note 1).

The excess of proceeds over cost of disposed interest and the related taxes were previously reflected under the Other Income and Income Tax Expense accounts, respectively, in the Group's interim consolidated financial statements as of and for the period ended September 30, 2020. Under PFRS 10, *Consolidated Financial Statements*, changes in a parent's ownership interest that do not result in the parent losing control are equity transactions. Accordingly, the Group restated its September 30 financial statements to conform with the requirements of the accounting standards and to align with the classification in the Audited Financial Statements as of and for the year ended December 31, 2020. The details of the restatement and its corresponding impact in the Group's interim consolidated financial statements as of and for the period ended September 30, 2020.

In December 2021, the Parent Company purchased 214,351 common and 118,982 preferred shares representing 40% of the ownership and voting rights of CLLC for ₱113.2 million from RSBV resulting

to 100% ownership of the Parent Company in CLLC. The difference between the acquisition cost and book value amounting to ₱60.5 million was recorded as reduction to equity reserves (see Note 15).

Stock Options Outstanding

On October 16, 2009, the stockholders approved the 2009 ALCO Stock Option Plan with the objective of providing material incentive to qualified employees of the Group. The total amount of shares which are available and may be issued for this purpose will amount to 10% of ALCO's total outstanding capital stock at any given time. The period during which a Qualified Employee may exercise the option to purchase such number of common shares granted to him/her will be three (3) years commencing after he or she has rendered the mandatory one year service to the Corporation in accordance with the following schedule:

- i. Within the first 12 months from grant date - up to 33.33%
- ii. Within the 13th to the 24th month from grant date - up to 33.33%
- iii. Within the 25th to 36th month from grant date - up to 33.33%

On December 14, 2018, the BOD approved granting options equivalent to not more than 90.0 million common shares to its qualified employees. On June 26, 2020, the number of options granted and issued to qualified employees amounted to 55.4 million shares. The total fair value of stock options granted amounted to ₱6.5 million. The fair values of stock options granted are estimated on the date of grant using the Black-Scholes Merton (BSM) Formula taking into the account the terms and conditions upon which the options were granted. The BSM Formula utilized inputs namely; market value of the share, time to maturity, dividend yield, and risk free rate.

Fair value of each option at grant date is ₱0.14. Assumptions used to determine the fair value of the stock options are as follow:

Weighted average share price	₱0.65
Exercise price	₱0.50
Expected volatility	2.40%
Dividend yield	1.32%
Risk-free interest rate	1.35%

As at March 31, 2022 and December 31, 2021, none of the qualified employees have exercised their options.

Use of Proceeds

Series D Preferred Shares

The estimated gross proceeds from the offer of Series D preferred shares amounted to ₱3,000.0 million. The actual net proceeds from the offer of the shares, after deducting the related expenses to the offer, amounted to ₱2,966.7 million.

The following table shows the breakdown of the use of the proceeds (amounts in millions):

Purpose	Per Offer Supplement	Actual Net Proceeds	Actual Disbursements as of 3/31/22	Balance for Disbursement as of 3/31/22

22. NET RETIREMENT LIABILITY

The Parent Company has a funded and non-contributory defined benefit retirement plan covering all of its qualified employees. The retirement benefits are based on years of service and compensation on the last year of employment as determined by an independent actuary. The normal retirement age is 60 with a minimum of five years of credited service. The plan also provides for an early retirement at age 50 with minimum of five years of credited service or late retirement after age 60, both subject to the approval of the Company's BOD.

The plan is exposed to interest rate risks and changes in the life expectancy of qualified employees. The plan is not exposed to significant concentrations of risk on the plan assets.

There are no unusual or significant risks to which the retirement liability exposes the Parent Company.

However, in the event a benefit claim arises under the retirement liability, the benefit shall immediately be due and payable from the Parent Company.

Movements in the present value of retirement liability are as follows:

	March 2022	December 2021	March 2021

PEZA Registration

ACPT is registered with the PEZA as an Ecozone Facilities Enterprise (see Note 1). The scope of its registered activity is limited to development, operation and maintenance of an economic zone.

Under the PEZA Registration Agreement, ACPT is entitled to:

- 5% GIT, in lieu of all national and local taxes; and
- Tax and duty-free importation of capital equipment required for the technical viability and operation of the registered facilities or activities.

Any income from activities of ACPT outside the PEZA-registered activities is subject to RCIT.

Corporate Recovery and Tax Incentives for Enterprises (“CREATE”) Law

On March 26, 2021, the Corporate Recovery and Tax Incentives for Enterprises (“CREATE”) was approved and signed into law by the country’s President. Under the CREATE, the regular corporate income tax (RCIT) of domestic corporations was revised from 30% to 25% or 20% depending on the amount of total assets or total amount of taxable income. In addition, the minimum corporate income tax (MCIT) was changed from 2% to 1% of gross income for a period of three (3) years. The changes in the income tax rates shall retrospectively become effective beginning July 1, 2020.

However, the income tax rates used in preparing the financial statements as at and for the year ended December 31, 2020 are 30% and 2% for RCIT and MCIT, respectively. The difference amounting to ₱301.2 million arising from the changes in income tax rates was recognized in 2021. Accordingly, the income tax rates used in preparing the interim consolidated financial statements as at March 31, 2022 are 25% and 1% for RCIT and MCIT, respectively.

24. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's financial instruments comprise cash in banks, cash equivalents, financial assets at FVPL, receivables (excluding advances for project development and accrued rent receivable under straight-line basis of accounting), amounts held in escrow, deposits, loans and bonds payable, accounts payable and other liabilities (except statutory liabilities, advance rent and payable to buyers) and due to a related party.

It is the Group's policy that no trading in financial instruments shall be undertaken. The main risks arising from the Group's financial instruments are credit risk, liquidity risk and interest rate risk. The BOD reviews and approves policies for managing these risks as summarized below.

Foreign Currency Risk

The Group's exposure to foreign currency risk is minimal, as it does not enter into significant transactions in currencies other than its functional currency.

Credit Risk

The Group's exposure to credit risk arises from the failure of counterparty to fulfill its financial commitments to the Group under the prevailing contractual terms. Financial instruments that potentially subject the Group to credit risk consist primarily of trade receivables, contract assets and other financial assets at amortized cost. The carrying amounts of financial assets at amortized cost represent its maximum credit exposure.

Trade Receivables and Contract Assets

Management has established a credit policy under which each new customer is analyzed individually for creditworthiness before the Group's standard payment and delivery terms, and conditions are offered. The Group's credit policy includes available external ratings, financial statements, credit agency information, industry information and, in some cases, bank references. Credit limits are established for each customer and reviewed on a regular basis. Any sales on credit exceeding those limits require specific approval from upper level of management. The Group limits its exposure to credit risk by transacting mainly with recognized and creditworthy customers that have undergone its credit evaluation and approval process. Historically, trade receivables are substantially collected within one (1) year and it has no experience of writing-off or impairing its trade receivables due to the effectiveness of its collection. As customary in the real estate business, title to the property is transferred only upon full payment of the purchase price. There are also provisions in the sales contract which allow forfeiture of installments or deposits made by the customer in favor of the Group. Also, customers are required to deposit postdated checks to the Group covering all installment payments. These measures minimize the credit risk exposure or any margin loss from possible default in the payment of installments. Trade receivables from lease are closely monitored on aging of the account. As at March 31, 2022 and December 31, 2021, there were no significant credit concentrations. The maximum exposure at the end of the reporting period is the carrying amount of trade receivables and contract assets.

Other Financial Assets at Amortized Cost

The Group's other financial assets at amortized cost are mostly composed of cash in banks, cash equivalents, amounts held in escrow and investment in time deposits. The Group limits its exposure to credit risk by investing only with banks that have good credit standing and reputation in the local and international banking industry. These instruments are graded in the top category by an acceptable credit rating agency and, therefore, are considered to be low credit risk investments.

For deposits, credit risk is low since the Group only transacts with reputable companies and individuals with respect to this financial asset.

It is the Group's policy to measure ECL on the above instruments on a 12-month basis. However, when there has been a significant increase in credit risk since origination, the allowance will be based on the lifetime ECL. When determining if there has been a significant increase in credit risk, the Group considers reasonable and supportable information that is available without undue cost or effort and that is relevant for the particular financial instrument being assessed such as, but not limited to, the following factors:

- Actual or expected external and internal credit rating downgrade;
- Existing or forecasted adverse changes in business, financial or economic conditions; and
- Actual or expected significant adverse changes in the operating results of the borrower.

The Group also considers financial assets that are more than 30 days past due to be the latest point at which lifetime ECL should be recognized unless it can demonstrate that this does not represent significant credit risk such as when non-payment arising from administrative oversight rather than resulting from financial difficulty of the borrower.

Financial Assets at FVPL

The Group is also exposed to credit risk in relation to its investments in money market fund that is measured at FVPL. The maximum exposure at the end of the reporting period is the carrying amount of these investments.

Liquidity Risk

Liquidity risk is the risk that the Group may not be able to settle its obligations as they fall due.

The Group monitors its risk to a shortage of funds through analyzing the maturity of its financial investments and financial assets and cash flows from operations. The Group monitors its cash position by a system of cash forecasting. All expected collections, check disbursements and other payments are determined on a daily basis to arrive at the projected cash position to cover its obligations.

The Group's objective is to maintain a balance between continuity of funding and flexibility. The Group addresses liquidity concerns primarily through cash flows from operations.

Interest Rate Risk

Interest rate risk is the risk that future cash flows from a financial instrument (cash flow interest rate risk) or its fair value (fair value interest rate risk) will fluctuate because of changes in market interest rates.

The Group's loans and bonds payable to local banks are subject to fixed interest rates and are exposed to fair value interest rate risk. The re-pricing of these instruments is done on annual intervals.

The Group regularly monitors interest rate movements and on the basis of current and projected economic and monetary data, decides on the best alternative to take. No sensitivity analysis is needed as future interest rate changes are not expected to significantly affect the Group's consolidated net income.

Impact of COVID-19

The varying levels of community quarantine that have been enforced in the different parts of the country since its initial imposition on March 16, 2020 have created significant impact to business in general. Industries considered as non-essential have been ordered closed, travel restrictions were implemented, and large areas or communities were locked down.

In spite of the difficulties posed by these challenges, the Group has been agile and resilient enough to adopt to the “new normal” the situation has created. It has developed and executed a business continuity protocol which has allowed the Group to continue functioning and operating except in areas where no alternative means, given existing circumstances, are readily available.

To date, management is monitoring all the ongoing COVID-19 related developments to assess, anticipate, and develop appropriate business strategies moving forward.

25. CAPITAL MANAGEMENT OBJECTIVES, POLICIES AND PROCEDURES

The Group’s capital management objectives are to ensure the Group’s ability to continue as a going concern and to provide an adequate return to shareholders by pricing products and services commensurate with the level of risk.

The Group monitors capital on the basis of the carrying amount of equity as presented in the statements of financial position. Capital for the reporting periods under review is summarized as follows:

	March 2022	December 2021	March 2021
Total liabilities	23,041,580,051	23,619,149,934	18,846,066,498
Total equity	11,330,815,385	11,052,136,913	9,425,148,861
Debt-to-equity ratio	2.03:1	2.14:1	2.00:1

The Group manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, issue new shares or sell assets to reduce debt.

26. EARNINGS PER SHARE (EPS)

Total Liabilities and Equity	P 34,372,395,433	P 34,671,286,847	-1%

The Company's total resources decreased by 1% from ₱34.7 billion on December 31, 2021 to ₱34.4 billion as of March 31, 2022, due to the following:

42% Increase in Cash and Cash Equivalents

The increase in cash is accounted by the proceeds from disposal of money market placements and revenue collections, net of normal disbursement from operations and project related costs.

44% Decrease in Financial assets at FVPL

The decline was due to termination of money market placements which were subsequently used to fund the operating requirements of the company including its ongoing projects.

30% Decrease in Receivables

The decrease is due to the collection of receivables during the period.

8% Increase in Contract Assets

The increase represents the excess of revenue recognized from the sale of Cebu Exchange, Savya Financial Center, and Sevina Park Villas over the amounts billed to the buyers.

5% Increase in Real Estate for Sale

The increase was mainly due to the additional construction costs incurred during the period for ongoing projects.

Total liabilities decreased by 2% from ₱23.6 billion on December 31, 2021 to ₱23.0 billion as of March 31, 2022, due to the following:

32% Increase in Contract Liability

The increase mainly pertains to collections received from buyers of units in Cebu Exchange and Sevina Park Villas, in which the related revenue is not yet recognized.

6% Increase in Retirement Liability

The increase is due to provision of retirement expense for the period.

Total equity increased by 3% from ₱11.1 billion on December 31, 2021 to ₱11.3 billion as at March 31, 2022 due to the following:

14% Increase in Non-Controlling Interests

The increase is attributable to the recognition of NCI's share in the net income (loss) of KHI, Bhavana and Bhavya and additional deposit for future stock subscription from a shareholder.

	P 144,824,935	P 354,458,190	-59%

From a ₱354.5 million reported net income in the first quarter of 2021, the company's bottom line decreased by 59% to ₱144.8 million for the same period in 2022.

9% Increase in Revenues

Revenues from incremental bookings and higher project accomplishment drove the increase in quarter-on-quarter revenues from Real estate sales.

29% Increase in Administrative Expenses

Administrative expense rose by 29% due to noted increase in personnel cost, taxes, travel and gasoline expenses as compared prior year.

100% Increase in Net Gain on Change in Fair Value of Investment Properties

The increase is due to the appraisal gain recognized for ACPT office and parking units.

45% Increase in Other Income - net

The increase is mainly attributable to holding gains and interest income.

119% Increase in Income Tax Expense (Benefit)

Quarter tax effect in prior period was a benefit due to effect of the CREATE law while higher revenues caused the tax expense for the current period.
